Providers should have program knowledge of any Medicaid Memo updates or program manual updates on service authorization information and procedures.

\*NOTE regarding EPSDT (those members under age 21):

- For CCC Plus waiver participants who are Fee for Service (FFS), the provider must submit Service Authorization for any EPSDT services (including Private Duty Nursing under EPSDT), via electronic request to Acentra Health (via the Atrezzo Next Generation – ANG website).
- For CCC Plus waiver participants in an MCO Health Plan, the provider must submit Service Authorization for any EPSDT services (including Private Duty Nursing under EPSDT), through the designated MCO Health Plan. See below for DD waiver clarification.
- For Developmental Disabilities (DD) waiver participants, all Service Authorization requests must be submitted to DBHDS via the Waiver Management System (WaMS) by the DD waiver individual's support coordinator to include the Individual Support Plan approved by DBHDS. Most DD waiver participants are FFS for their waiver services; however, they are enrolled in MCO Health Plans for their medical and hospitalization needs.
