Section 1

Introduction

In partnership with the Commonwealth of Virginia (Commonwealth) Department of Medical Assistance Services (DMAS), Mercer Government Human Services Consulting (Mercer), part of Mercer Health & Benefits LLC, has developed actuarially sound¹ capitation rates for the Commonwealth's Cardinal Care Managed Care Acute population (hence forward referred to as Acute) for the fiscal year (FY) 2024 contract period, based on program changes approved by the General Assembly effective January 1, 2024.

An overview of the analyses and methodologies used to develop the original capitation rates for the former Medallion 4.0 program for FY2024 effective July 1, 2023, was provided in the previous rate report dated July 17, 2023 and rate amendment dated September 22, 2023.

Per 42 CFR §438.4, the Centers for Medicare & Medicaid Services (CMS) requires that actuarially sound rates meet several criteria for approval, including the following:

- Have been developed in accordance with generally accepted actuarial principles and practices.
- Are appropriate for the populations to be covered and the services to be furnished under the contract.
- Have been certified by actuaries who meet qualification standards established by the American Academy of Actuaries and the Actuarial Standards Board.

The following report provides a certification of the updates to the FY2024 rates to reflect program changes that were not applicable at the time of the previous certification. The only changes to these revised rates include:

- General Assembly Budget changes
- Updates to anticipated Weight Management Agents utilization

While assumptions pertaining to managed care organization (MCO) administration expense projections remained unchanged in the aggregate, rate cell allocation methodology results in minor shifts between rate cells.

All other rating adjustments described in the original rate report dated July 17, 2023 and the rate amendment dated September 22, 2023 remain unchanged. Additional detail related to these updates is included in the following sections.

This report is the result of collaboration between DMAS and Mercer. It should be read in its entirety and has been prepared under the direction of Brad Diaz, FSA, MAAA who is a

¹ Actuarially sound/actuarial soundness — Medicaid capitation rates are "actuarially sound" if, for business for which the certification is being prepared and for the period covered by the certification, projected capitation rates and other revenue sources provide for all reasonable, appropriate and attainable costs. For purposes of this definition, other revenue sources include, but are not limited to, expected reinsurance and governmental stop-loss cash flows, governmental risk adjustment cash flows and investment income. For purposes of this definition, costs include, but are not limited to, expected health benefits, health benefit settlement expenses, administrative expenses, the cost of capital, and government-mandated assessments, fees and taxes. http://www.actuarialstandardsboard.org/wp-content/uploads/2015/03/asop049_179.pdf

member of the American Academy of Actuaries and meets its US Qualification Standard for issuing the statements of actuarial opinion herein.

To the best of Mercer's knowledge, there are no conflicts of interest in performing this work.

Mercer expressly disclaims responsibility, liability, or both for any reliance on this communication by third parties or the consequences of any unauthorized use.

Section 2

General Information

Program Background

The Virginia Medicaid managed care program has provided health care coverage to Medicaid recipients since 1992 and covered the previously referred to Medallion 4.0 and Commonwealth's Coordinated Care Plus (CCC Plus) populations. Effective October 1, 2023, this program is collectively known as the Cardinal Care Managed Care (CCMC) program, with the Medallion 4.0 and CCC Plus populations now referred to as the Acute and MLTSS populations, respectively. The CCMC program is a fully capitated, risk-based Medicaid managed care program that is mandatory statewide for the Acute and MLTSS populations. This report focuses on rates changes impacting the Acute populations.

As of the date of this report, there are five MCOs operating in the CCMC program: Aetna Better Health, Anthem HealthKeepers Plus, Molina (formerly Magellan Complete Care), Optima Health, and UnitedHealthCare Community Plan.

To be eligible for enrollment within the Acute population covered by a CCMC MCO, individuals must be Non-Dual eligible (i.e., Medicaid only) and meet the criteria defined in the contract between the Commonwealth and the MCOs. The Acute population covered by the CCMC program include those who are:

- Low-Income Families and Children (LIFC)
- Adoption Assistance (AA)
- Foster Care (FC)
- Members with comprehensive private insurance or third-party liability (TPL) as a primary payer (Major TPL)

Effective January 1, 2019, the Commonwealth expanded the existing Medicaid program to adults with income levels up to 138% of the federal poverty level. New adult enrollees who are eligible for managed care are assigned to one of two existing managed care cohorts based on their medical complexity. The Commonwealth has developed an MCO Member Health Screening tool that identifies new entrants who are determined to be non-Medically Complex. These members are enrolled in the Acute population and all others are enrolled in MLTSS population. The documentation and certification of the FY2024 rates for non-Medically Complex Expansion eligible members are included within this rate report.

The CCMC program covers acute, behavioral health (BH), and pharmacy services for the Acute and MLTSS populations, as well as institutional and community based LTSS services exclusively for the MLTSS population. For a full list of covered services, please refer to the *Covered Services* section of the approved managed care contract.

Rate Development Overview

This report provides a certification of updates effective January 1, 2024 to reflect additional programmatic changes that were not applicable at the time of the previous certification. All other rating assumptions described in the previous rate certification remain unchanged. Additional detail related to these adjustments is included in the following sections of this report.

Exhibits attached in this report have been updated from the previous rate reports dated July 17, 2023 and September 22, 2023 for only those impacted by the programmatic changes. This includes the following exhibits:

- Exhibit 4
- Exhibit 5
- Exhibit 6

Rate Change

The FY2024 rates effective January 1, 2024 represent an aggregate 1.24% increase to the statewide weighted average rate across all non-Expansion rate cells and an aggregate 1.01% increase for Expansion rate cells from the revised FY2024 rates effective July 1, 2023. The table below compares the FY2024 rates effective January 1, 2024 to the original FY2024 rates effective July 1, 2023 by rate cell on a statewide basis. Exhibit 6 includes the updated FY2024 rates for each rate cell and region. The key drivers of the rate changes are programmatic changes approved by the General Assembly and revision of utilization assumptions for weight management agents due to emerging experience and changes in assumptions for service authorization requirements for drug coverage.

No changes were made to the assumptions that were utilized in the development of the FY2024 rates other than those noted in this rate report.

Rate Change Summary

Rate Cell	Statewide
LIFC Under 1	0.02%
LIFC Child	1.49%
LIFC Adult	1.11%
Adoption Assistance	2.20%
Foster Care	3.83%
Maternity Kick	-0.06%
Expansion	1.01%

Section 3

Data

As previously stated, Mercer performed a rate update to develop the revised FY2024 rates. The calendar year (CY) 2021 data underlying the original FY2024 rates effective July 1, 2023 served as the starting point for the development of these rate updates.

For more information regarding the development of the original FY2024 rates, please refer to the previous rate report letter dated July 17, 2023.

Section 4

Projected Benefit Costs and Trends

Program change adjustments recognize the impact of benefit or eligibility changes occurring during and after the base data period. CMS requires that the rate-setting methodology used to determine actuarially sound rates incorporate the results of any program changes that have taken place, or are anticipated to take place, between the start of the base period and the conclusion of the contract period.

It is also necessary to recognize the impact of medical trend patterns in the development of prospective rates. The impact is applied through the prospective trend factors described below.

Base Program Changes

All base program changes remain consistent with the FY2024 rate development and can be found in the previous rate report dated July 17, 2023.

Trend

All trend assumptions remain consistent with the FY2024 rate development and can be found in the previous rate report dated July 17, 2023.

Prospective Program Changes

The Commonwealth and Mercer reviewed the impact of new program changes that would be applicable effective January 1, 2024 and were not accounted for in the original FY2024 rates effective July 1, 2023 nor the rate amendment effective October 1, 2023. All other prospective program changes remain consistent with the original FY2024 rate development and can be found in the previous rate reports dated July 17, 2023 and September 22, 2023.

The impact of the individual adjustments described below by region, rate cell, and category of service (COS) can be found in Exhibit 4.

General Assembly Changes

- **Early Intervention Services Increase:** Effective January 1, 2024, an increase of 12.5% was made to early intervention services. This increase aligns with the 12.5% already effective for other case management services.
- **Mental Health Partial Hospitalization and Intensive Outpatient Increases:** Effective January 1, 2024, the mental health partial hospitalization per diem was increased from \$250.62 to \$500.00 and the intensive outpatient per diem was increased from \$159.20 to \$250.00. Procedure codes H0035 and S9480 were subject to these adjustments.

- **Community-Based Behavioral Health Services Increase:** Effective January 1, 2024, a 10% increase was effective for community-based behavioral health services. DMAS provided a list of procedure codes subject to this adjustment.
- **Personal Care Services Increase:** Effective January 1, 2024, an increase of 5% was made to reimbursement for personal care and respite care services. This adjustment impacted services provided under the Child EPSDT COS.
- **Traumatic Brain Injury Case Management:** Effective July 1, 2023, a new case management service was implemented for members who have sustained a traumatic brain injury on or after the age of 18 and will provide service coordination and person-centered planning for these members.

The statewide aggregate adjustment for these program changes is summarized in the table below.

	LIFC <1	LIFC Child	LIFC Adult	AA	FC	EXP	Maternity Kick
Adjustment	0.07%	1.67%	0.58%	2.32%	3.96%	0.34%	0.00%

Weight Management Agents – Revised Impact

Effective January 1, 2023, DMAS updated the Common Core Formulary to include a new closed class for weight management agents. Mercer expects strong positive pharmacy trends in FY2024 driven by the weight-loss GLP-1s, Wegovy® and Saxenda®. Due to the significant interest in these agents and rapid utilization growth in early 2023, Mercer reviewed emerging data to develop a fiscal impact for these weight-loss agents outside of trend, reflective of more recent experience. An adjustment for weight management agents had previously been included in FY2024 as documented in the rate report dated July 17, 2023. This adjustment constitutes an update to the previously applied values to reflect more recent emerging experience and expectations for future utilization due to revised assumptions for service authorization requirements.

To develop the fiscal impact for weight management agents, Mercer relied on emerging commercial and Medicaid experience, national and state obesity prevalence rates, MCO-submitted utilization data, and updated encounter data through 3Q 2023. The following outlines pertinent assumptions included in the final estimates:

- Roughly 3% of the eligible population will ultimately utilize a GLP-1 for weight loss in FY2024
- The majority of utilizers will choose higher-cost Wegovy® over Saxenda®, due to less frequent dosing and greater weight loss potential
- A 4% annual brand price increase in 2024 has been assumed for both GLP-1 medications based on historical price inflation noted for Saxenda®

The resulting impact of the revised weight management agents adjustment is summarized in the table below and reflects the additional impact included for FY2024 rates effective January 1, 2024.

	LIFC <1	LIFC Child	LIFC Adult	AA	FC	EXP	Maternity Kick
Adjustment	0.00%	0.00%	0.82%	0.00%	0.00%	0.99%	0.00%

Section 5

Special Contract Provisions Related to Payment

All previously documented contract provisions for delivery system and payment initiatives under 42 CFR §438.6 that impact the final net payments to the MCOs remain unchanged. For more information regarding these payment provisions, please refer to the previous rate report letter dated July 17, 2023.

Section 6

Projected Non-Benefit Costs

This section describes the administrative costs, care management, underwriting gain, relevant taxes and how they were incorporated into the rates. The impact of the non-medical expense loads is included in Exhibit 5.

Administration

The revised FY2024 rates continue to include provisions for MCO administration. The administrative load development remains the same as the original FY2024 rates. As the administrative per member per month (PMPM) is split out by region and rate cell using a fixed and variable cost methodology that is budget neutral overall, the administrative load PMPM by rate cell will differ slightly from the original FY2024 rates. For more information regarding the development of the administrative load, please refer to the previous rate report dated July 17, 2023.

Care Management

Care management PMPM development remains the same as the original FY2024 rates. For more information regarding the development of the care management assumptions, please refer to the previous rate report dated July 17, 2023.

Underwriting Gain

The revised FY2024 rates include a provision for underwriting gain. This is applied as the same percentage of total premium as they were in the original FY2024 rates. For more information regarding the development of the FY2024 percentage assumptions, please refer to the previous rate report dated July 17, 2023.

Section 7

Risk Adjustment and Acuity Adjustments

This section describes the risk and acuity adjustments the Commonwealth employs for CCMC populations and services during the FY2024 contract period.

Risk Adjustment

Within the Acute population, capitation rates for the LIFC Child, LIFC Adult, and Expansion rate cells are subject to risk adjustment utilizing the combined CDPS+Rx risk-adjustment model Version 6.5. The CDPS+Rx model utilizes demographic, diagnostic, and pharmacy data to classify individuals into demographic and disease categories that are used to predict the health care expenditures for each individual. Risk adjustment plan factors will be calculated for each MCO and region combination for the LIFC Child, LIFC Adult, and Expansion rate cells. Please refer to the CDPS+Rx risk-adjustment methodology document, 'FY2024 Medallion 4 CCC Plus RAR Methodology Document_FINAL_20230707', for further detail.

Risk-Sharing Mechanisms

Risk-sharing mechanisms include arrangements such as reinsurance, risk corridors, or stop-loss limits. Acuity-driven plan risk adjustment is not included in these risk-sharing mechanisms and is addressed elsewhere in this report. For more information regarding the risk-sharing mechanisms, please refer to the previous rate report dated July 17, 2023 and separate CCMC Risk Mitigation Letter dated September 12, 2023.

Section 8

Certification of Final Rates

This certification assumes items in the Medicaid State Plan or waiver, as well as the CCMC program MCO contract, have been approved by CMS. In preparing the rates, Mercer has used and relied upon enrollment, eligibility, claim, reimbursement levels, benefit design, financial data and information supplied by the Commonwealth and its vendors. The Commonwealth and its vendors are solely responsible for the validity and completeness of this supplied data and information. We have reviewed the summarized data and information for internal consistency and reasonableness, but we did not audit it. In our opinion, it is appropriate for the intended rate-setting purpose. However, if the data and information are incomplete/inaccurate, the values shown in this report may differ significantly from values that would be obtained with accurate and complete information; this may require a later revision to this report.

Because modeling all aspects of a situation or scenario is not possible or practical, Mercer may use summary information, estimates or simplifications of calculations to facilitate the modeling of future events in an efficient and cost-effective manner. Mercer may also exclude factors or data that are immaterial in our judgment. Use of such simplifying techniques does not, in our judgment, affect the reasonableness, appropriateness or attainability of the results for the Medicaid program. Actuarial assumptions may also be changed from one certification period to the next because of changes in mandated requirements, program experience, changes in expectations about the future and other factors. A change in assumptions is not an indication that prior assumptions were unreasonable, inappropriate or unattainable when they were made.

Mercer certifies that the rates shown in Exhibit 6 were developed in accordance with generally accepted actuarial practices and principles and are appropriate for the Medicaid covered populations and services under the CCMC MCO contract. The undersigned actuary is a member of the American Academy of Actuaries and meets its qualification standards to certify to the actuarial soundness of Medicaid managed care capitation rates. To the best of Mercer's knowledge, there are no conflicts of interest in performing this work.

Rates developed by Mercer are actuarial projections of future contingent events. All estimates are based upon the information and data available at a point in time and are subject to unforeseen and random events. Therefore, any projection must be interpreted as having a likely, and potentially wide, range of variability from the estimate. Any estimate or projection may not be used or relied upon by any other party or for any other purpose than for which it was issued by Mercer. Mercer is not responsible for the consequences of any unauthorized use. Actual MCO costs will differ from these projections. Mercer has developed these rates on behalf of the State to demonstrate compliance with the CMS requirements under 42 CFR §438.4 and accordance with applicable law and regulations. Use of these rates for any purpose beyond that stated may not be appropriate.

MCOs are advised that the use of these rates may not be appropriate for their particular circumstance and Mercer disclaims any responsibility for the use of these rates by MCOs for any purpose. Mercer recommends that any MCO considering contracting with the Commonwealth should analyze its own projected medical expense, administrative expense

and any other premium needs for comparison to these rates before deciding whether to contract with the Commonwealth.

The Commonwealth understands that Mercer is not engaged in the practice of law, or in providing advice on taxation matters. This report, which may include commenting on legal or taxation issues or regulations, does not constitute and is not a substitute for legal or taxation advice. Accordingly, Mercer recommends that the Commonwealth secure the advice of competent legal and taxation counsel with respect to any legal or taxation matters related to this report or otherwise.

This report assumes the reader is familiar with the Commonwealth's CCMC program, Medicaid eligibility rules, and financing and actuarial rating techniques. It has been prepared exclusively for the Commonwealth, MCOs, and CMS, and should not be relied upon by third parties. Other readers should seek the advice of actuaries or other qualified professionals competent in the area of actuarial rate projections to understand the technical nature of these results. Mercer is not responsible for, and expressly disclaims liability for, any reliance on this report by third parties.

The Commonwealth agrees to notify Mercer within 30 days of receipt of this report if it disagrees with anything contained in this report or is aware of any information or data that would affect the results of this report that has not been communicated or provided to Mercer or incorporated herein. The report will be deemed final and acceptable to the Commonwealth if nothing is received by Mercer within such 30-day period. If there are any questions regarding this report, please contact Brad Diaz at +1 612 642 8756.

Sincerely,

A handwritten signature in black ink, appearing to read "Brad Diaz", with a stylized flourish at the end.
