1 General Information

1.1 Introduction

This manual provides detailed technical specifications for all contractual deliverables required for the Virginia Cardinal Care Managed Care program. The primary audience is the contracted Cardinal Care Managed Care plans (referred to as “Contractors” or “Health Plans” or “MCOs”). The purpose is to provide a clear and common understanding of the deliverable requirements. It is intended to ensure accuracy of the MCO data submissions and to reduce the need for corrections and resubmissions.

Cardinal Care Managed Care reports should include all Cardinal Care managed care populations and operations unless otherwise specified.

Where there are differences between the Cardinal Care Contract and the Cardinal Care Technical Manual, the Technical Manual is the source of truth for reporting specifications.

1.2 Deliverable Reporting Standards

DMAS **strongly recommends** that Contractors develop automated reporting processes for each deliverable in order to maintain the consistency and accuracy of ongoing deliverable submissions. It has been the Department's experience that manual reporting processes are prone to errors and inconsistencies. DMAS also recommends each Contractor develop and implement standardized processing for each deliverable submission, including comprehensive quality control procedures to ensure data integrity and accuracy.

All deliverable submissions must conform to the specifications documented in the current version of this Technical Manual, including all documented formatting requirements. It is the Contractor's responsibility to comply with these specifications. Any submission that does not comply with these specifications may be rejected by DMAS in total or in part. The Contractor may be required to correct and re-submit deliverables as necessary to comply with the reporting requirements set forth in this document. Any submission that does not comply with these specifications may be rejected by DMAS in total or in part, and may be subject to assessment of compliance penalties. All reporting manual reporting requirements are required at the contract level, unless otherwise indicated.

The source of truth for the functionality, scheduling, and data specifications of all system files included in this reporting manual (e.g., 834, 820, CRMS, PRSS), whether those files are generated by DMAS MMIS or received by DMAS from the Contractor, shall be the respective HIPAA-required transaction standards, MMIS system design documents, companion guides, and vendor manuals in which they were originally described. Where there is any conflict between this manual and those original sources, Cardinal health plans must comply with the original sources. A diligent effort will be made by DMAS to keep the *Cardinal Care Managed Care Technical Manual* aligned with those sources.

The version number of the Technical Manual will be incremented whenever any change is made within the document. Every change will be documented in the 'Version Change Summary' section at the front of the document.

DMAS reserves the right to request ad hoc reports. These reports may include those described in the *Cardinal Care Managed Care Technical Manual* outside the regular submission schedule, as well as others not covered in the manual. Upon such request, Cardinal Care Health Plans will be given a reasonable amount of time for ad hoc report submission.

It is the MCOs' responsibility to ensure that they are using the most current version of the Cardinal Managed Care Technical Manual for their next submission to DMAS.

Updated versions of the Cardinal Care Managed Care Technical Manual will be released once a month on the 15th (adjusted for weekends and state holidays). The Technical Manual will be updated no more frequently than once a month.

DMAS will post the Cardinal Care Managed Care Technical Manual on the state's secure SharePoint site that has been established for the MCOs.

1.3 Secure File Transfers and Data Exchanges

DMAS uses different methods to support the secure transfer of files with the MCOs. MCOs and/or individual users are issued a secure login account and each MCO has its own dedicated folders.

1.4 Deliverable Monitoring and Compliance

DMAS will evaluate each deliverable submission according to the following requirements. Violation may result in compliance action from DMAS.

1.4.1.1 Transmittal Requirements

In particular, each of the following requirements must be met in order for a submission to be accepted by DMAS for processing:

- Submission must be transmitted via the method specified for the deliverable (e.g., DMAS secure FTP).
- File must be formatted as specified for the deliverable (e.g., comma separated values, Excel, Adobe PDF).
- The filename on the report must exactly match the filename specified for the deliverable (including extension).
- All columns/fields specified for the deliverable must be included in the submission in the order specified, with the inclusion of no additional columns/fields. Do not include a header row in .csv files. If there is no data to report for a specific report, submit the report, but leave it blank without headers or any other text.
- Except as otherwise specified, only one consolidated deliverable per report cycle is submitted. The Contractor cannot submit separate deliverables for their subcontractor(s).

In the event that a plan has no data to report for a regularly scheduled deliverable, the plan must submit a blank report to verify that no data was available and that the deliverable was not missed.

1.4.1.2 Timeliness and Resubmissions

Late submissions are submissions of a deliverable after the specified due date. Resubmissions are submissions either requested by the Contractor or by DMAS. Unless requested directly by DMAS, the Contractor shall request pre-approval for all resubmissions. The cut-off for timely delivery via the DMAS secure FTP is 6:00 PM EST/EDT on the specified due date.

In the event that a due date falls on a weekend day or a state holiday, the due date will be changed to the first business day following the weekend or holiday.

2.1.1.2 Requirements

Submit one consolidated file containing all CCC+ and MED4 network providers.

- File must be submitted every week. MCO can submit the same file from the prior week if there were no updates or if your extract process does not run every week. MCOs should update the file content on a monthly basis at minimum.
- Every file is a full file replacement. Do not submit partial / incremental / transactional update files.
- Do not submit more than one record with the same NPI, taxonomy, and zip code.
- The Provider Taxonomy value provided by the MCO will be used to determine the Maximus provider type reported in Enrollment Broker provider searches. See Appendix 6.8 for the crosswalk of taxonomy to Enrollment Broker provider type.
- MCO may provide records with different taxonomy codes for the same provider location when applicable, but only one record per service location and Maximus provider type is allowed.

2.1.2.2 Requirements

Data Submission and Validation:

1. If the MCO doesn't have any updates for the week, they should submit an empty file to DMAS with zero records.
2. All columns/data elements must be included as specified above. Values must be provided for all required fields (including Source and Method). Use specified default values when other values are not available.
3. DMAS will generate and send a validation / error report to each MCO on Tuesdays. This report summarizes records received and lists all errors. Validation report name will be MCO_xxxx_AdrChgVal_yyyymmdd.xlsx.
4. Any record with one or more errors will not be used in the address updates. The MCO should correct these records and submit them with their next submission the following week.

Goal:

If there are multiple members in the household, DMAS would like to ensure that health plans ensure that all records are updated and changes are submitted to DMAS at the same time.

Things to consider:

- Does your plan's process include bringing up records if there are multiple household members on the same plan?
- Does your plan ask the caller if the address change affects more than one individual?

Scripts:

In order to meet the goal, scripts should include the following information:

Asking if there are other members on the same health plan if your system doesn't automatically pull them all up at the same time [e.g., Who else in your home is with (insert plan name here)?]. Stick to open ended questions instead of close ended. If the member indicates that only some of the household members have moved (meaning they are not in the same residence any longer) they need to call Cover VA or their local worker to let them know who has moved and who is no longer part of that household.

2.1.3 Transportation Network Company (TNC) Report

Contract:	5.14.24
Method	Upload to Cardinal FTP <u>AND</u> Send as email attachment to the following DMAS staff: Aaron.Moore@dmas.virginia.gov Nicki.Taylor@dmas.virginia.gov Charlotte.Bennett@dmas.virginia.gov Douglas.Gleason@dmas.virginia.gov Tina.Davis@dmas.virginia.gov Joey.Miller@dmas.virginia.gov
Format	Use Cardinal TNC Report template
File Name	TNC_RPT.xlsx
Trigger	Weekly
Due Date:	By noon Wednesday following Saturday through Friday reporting period (or by noon on Thursday if Wednesday is not a business day)
Population:	Report CCC Plus and MEDALLION members on SEPARATE tabs
DMAS:	Transportation Unit

2.1.3.1 Requirements

Use the current version of the Weekly TNC Report template provided by DMAS. The report submission should include eight tabs with the CCC Plus members reported separately from MEDALLION members.

The daily statistics for each week's report should be appended to the report submitted the previous week (i.e., the report should contain the daily statistics for the current and all prior reporting periods on the same "TNC Weekly Stats" tab). The reporting of TNC complaints on the "TNC Complaint Details" tab as well as the weekly totals on the vaccination and booster shot tabs should also be cumulative for all reporting periods.

2.1.4 Care Management Report

Contract	Section 8.4 Care Management
Method:	Cardinal FTP
Format:	Use Cardinal Report template
File Name:	CCMOC_Contractor Name_mmddyyyy.xlsx (where mmddyyyy is the date of submission)
Trigger:	Weekly
Due Date:	Each Friday by noon for reporting period Sunday thru Saturday
Population:	Include CCC PLUS and MEDALLION
DMAS:	Care Management

2.1.4.1 Requirements

This report will function as a care management log, detailing which members have been classified as members of the Cardinal Care Targeted Population at any time up through the last day of the reporting period. The Targeted Population consists of the following members: CCC Plus Waiver members receiving PDN, Children receiving PDN through EPSDT and Ventilator-Dependent members (by setting).

Use the current version of the Model of Care template provided by DMAS. Reports submitted with headings that differ from those on the current template will be sent back for resubmission.

The Summary tab should include all Cardinal Care Targeted Population members who were actively enrolled within the targeted population at any time during the reporting period.

The Member Detail tab is updated each week to add new members identified since the last report and will list all members who have been classified as members of the targeted population *at any time* up through the last day of the reporting period.

2.2 Monthly Reports

Provider & Member Appeals:

- Include only ARTS appeals in this report.
- Total Member Appeals includes Appeals submitted by a provider on behalf of a member.
- Total from Providers includes Appeals submitted by a provider.
- Report Appeals separate from Grievances.
 - Report Provider and Member Appeals separately.

Provider & Member Grievances:

- Include only ARTS Grievances in this report.
- Total Member Grievances includes Grievances submitted by a provider on behalf of a member.
- Total from Providers includes Appeals submitted by a provider.
- Report Provider and Member Grievances separately.

Definitions:

- Member Appeal is a request to the MCO/FFS Contractor by a member or a member's representative to review the MCO/FFS Contractor's adverse action in accordance with the statutes and regulations governing the Virginia Medicaid appeal process. Appeals to the MCO/FFS Contractor will be conducted in accordance with regulations at 42 C.F.R. § 431 Subpart E and the Client Appeals regulations at 12 VAC 30-110-10 through 12 VAC 30- 110-370.
- Provider Appeal is a request to the MCO/FFS Contractor by a provider to review the MCO/FFS Contractor's adverse action in accordance with the statutes and regulations governing the Virginia Medicaid appeal process. After a provider exhausts the MCO/FFS Contractor's reconsideration process, Virginia Medicaid affords the provider the right to two administrative levels of appeal (informal appeal and formal appeal) in accordance with the Virginia Administrative Process Act at Code of Virginia § 2.2-4000 *et seq.* and Virginia Medicaid's provider appeal regulations at 12 VAC 30-20-500 *et seq.*
- Grievance: In accordance with 42 CFR § 438.400, a grievance means an expression of dissatisfaction or complaint about any matter other than an "adverse benefit determination" that may be reported to the MCO/FFS Contractor. Possible subjects for grievances include, but are not limited to, the quality of care or services provided, and aspects of interpersonal relationships such as rudeness of a Provider or employee, or failure to respect the Member's rights. A grievance does not constitute an appeal.
- Open/Received means any Appeal or Grievance currently open during this reporting period.
- Total Resolved This Month (Resolution) means any Appeal or Grievance that was resolved or closed out during this reporting period, including those carried over from the prior month(s).
- Total Appeals Sustained means the total adverse actions that were not overturned, original decision was upheld, and/or requested amounts have not changed based on final findings during the appeal process. This includes any appeals that were sustained in part.
- Total Appeals Reversed means the total adverse actions that were overturned, the MCO/FFS Contractor was in error. This includes any appeals that were reversed in part.

2.2.12 Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Services

Contract	Section 5.8 Early and Periodic Screening, Diagnostic, and Treatment (EPSDT)
Method:	Cardinal FTP
Format:	Comma separated value (.csv) file. All columns/fields must be included in the order specified, with no additional/omitted columns. Do not include a header row.
File Name:	EPSDT_SUMN.csv
Trigger:	Monthly
Due Date:	By close of business on the 15th calendar day of the month following the end of the reporting month.
Population:	Include CCC PLUS and MEDALLION
DMAS:	MCH

2.2.12.1 Requirements

Demonstrate the status of services for members under age 21 including administrative requirements outlined under the EPSDT benefit. Include information on the “medical necessity review,” the secondary review process and denials issued under EPSDT. For all denials, indicate if the member was referred to care coordination to utilize other in network benefits to meet need. Information on the Contractor’s care coordination efforts shall also be presented along with data on CYSHCN enrollment.

Population Captured

This report shall capture information related to applicable services rendered to members under the age of 21, regardless of aid category.

For the information related to Children and Youth with Special Healthcare Needs (CYSHCN), the Contractor shall include the **total** enrollment information for members who have been identified by the Contractor as being CYSHCN based on the below definition. This report shall include all CYSHCN members enrolled with the Contractor on a rolling basis. For example, Member C is in foster care for the months of June and July. That member would be counted on the July and August submissions of the report.

Care coordination data shall be presented for all members **under age 21** regardless of CYSHCN status, aid category or presence of the EI indicator.

General Data Requirements

The data in this report shall reflect internal programmatic data captured by the Contractor along with other enrollment data provided by DMAS on the 834.

This report shall be rolling and shall include all applicable administrative data, even if that data is duplicative by member. For example, if a secondary review was completed for a Member D for more than one service in a reporting period, all reviews shall be counted in this report. Member D has two services that were denied after secondary review for the month of June. In July’s submission of the report, both denials will be counted.

Definitions

The below definitions reflect the information required for this report:

“Children and Youth with Special Healthcare Needs” – Children and youth with special health care needs up to age 21 who have or are at increased risk for a chronic physical, developmental, behavioral or emotional condition(s) and may need health and related services of a type or amount over and above those usually expected for the child’s age. These include, but are not limited to, the children in the eligibility categories of expansion, foster care and adoption assistance (aid categories 076 and 072), youth who have aged out of the foster care system (aid category 70), children identified as Early Intervention (EI) participants, members identified as experiencing childhood obesity and others as identified through the Contractor’s assessment or by the Department. For the purposes of this report, the Contractor shall include **at minimum** all members in aid categories 070, 072 and 076 along with all members with the Early Intervention services indicator in the report submission. **The Contractor also shall include members who have been identified by the Contractor’s internal screening processes as CYSHCN, regardless of aid category or EI indicator.**

“Secondary Review” – In addition to the traditional review for medical necessity, Medicaid children who request services that do not meet the plan’s general coverage criteria must receive a secondary review to ensure that the EPSDT provision has been considered. The Contractor’s secondary review process for medical necessity must consider the EPSDT’s correct, or ameliorate criteria.

Report Format

Information shall be presented to members who are qualifying for services under EPSDT. The Contractor shall format this information based on the template provided below. Submit in the following format with Field Name information running horizontally

Field Name	Field Description	Specifications
SR	Number of Secondary Reviews under EPSDT completed	Valid value is greater than or equal to 0
DSR	Number of denials issued after Secondary Review	Valid value is greater than or equal to 0
RAD	Number of referrals provided after denial for other medically necessary services covered by the Contractor	Valid value is greater than or equal to 0
CYSHCN	Number of children identified as CYSHCN	Valid value is greater than or equal to 0
CC	Number of children under age 21 assigned care coordinator	Valid value is greater than or equal to 0

2.2.13 Family Planning and Well Woman Summary Report

Contract	Section 5.13.3 Family Planning
Method:	Cardinal FTP
Format:	Excel (.xlsx) file
File Name:	FAMILY_PLANNING_SVC.xlsx
Trigger:	Monthly
Due Date:	By close of business on the 15th calendar day of the month following the end of the reporting month

DMAS:	Maternal & Child Health

2.2.13.1 Requirements

Demonstrate service utilization for reproductive health and family planning services as outlined below.

Population Captured

This report shall capture family planning and reproductive health services rendered to all female members enrolled with the Contractor, regardless of aid category.

General Data Requirements

The data in this report shall reflect claims payment data for this reporting month and not the date of service for the claim.

Multiple services rendered to a single member shall be captured in this report. For example, Member B has a Well Woman Exam (WWE) and a LARC insertion in the month of June. Claims for both the WWE and LARC insertion will be captured in this report.

The below list also includes suggested ICD-10 CM codes to be utilized for each service:

1. LARC Insertion/Administration (Provide separate information for the inpatient and outpatient settings, respectively.)
 - Suggested codes: Z30.013, Z30.014, Z30.017, Z30.430, Z30.433
2. LARC Removal

3. Family Planning Counseling
 - Suggested codes: Z30.40, Z30.41, Z30.42, Z30.431, Z30.44, Z30.45, Z30.46, Z30.49
4. Non-LARC Family Planning Access
 - Suggested codes: Z30.011, Z30.012, Z30.015, Z30.016, Z30.018, Z30.019, Z30.2
5. Hysterectomy
 - Suggested code: Z90.710
6. Well Woman Exam

➤ Suggested code: Z01.419

Definitions

The below definitions reflect the information required for this report:

“Long Acting Reversible Contraceptives” – A contraceptive device utilized to prevent unintended pregnancy and can, once administered, work without user action. LARC contraceptive methods include, but are not limited to, hormonal and non-hormonal IUDs, Implanon and the Depo-Provera contraceptive injection.

“Non-LARC Family Planning Access” – This shall include all family planning methods accessed by members that do not include LARCs.

Report Format

The Contractor shall format this information based on the template provided below.

2.2.14 Foster Care & Adoption Assistance Member Care Coordination

Contract	Section 8.12.1 Foster Care Management
Method:	Cardinal FTP
Format:	Excel (.xlsx) file
File Name:	FC_AA_SERVICE.xlsx
Trigger:	Monthly
Due Date:	By close of business on the 15 th of the month following the end of the reporting month
Population:	Include CCC PLUS and MEDALLION
DMAS:	MCH

2.2.14.1 Requirements

The purpose of this report is to demonstrate the Contractor's care coordination efforts, assessments and service utilization for all foster care and adoption assistance members. Efforts related to Foster Care Transition Planning shall be captured in a subsequent report. The Contractor shall include all foster care members, former foster care and adoption assistance members, respectively, who are enrolled in the Contractor's health plan. This report shall provide information on the status of all foster care, former foster care and adoption assistance members enrolled with the Contractor.

Population Captured

This report shall reflect data on all foster care (aid category 076), former foster care youth (aid category 070) and adoption assistance (aid category 072) members who are identified **in the end of month 834 enrollment file**. This includes members in active care coordination and those who are not.

For example, for a July submission of this report, members captured should include all those listed as aid categories 070, 072 and 076 on the 834 file sent to the Contractor at the beginning of June (6/1) to reflect full June enrollment.

All members including those who are newly enrolled and those who have had continuous coverage shall also be included.

Foster care members (aid category 076) aged 17 years and older shall be included in this report and the Foster Care Transition Planning Report.

General Data Requirements

If a member does not have any services, assessments, care coordination, etc. rendered for the reporting period, they shall still be included in this report. For the reporting fields reflecting data for a service not rendered for a member, the field shall read as "0" or "N" (as directed in the below table) to indicate no care coordination plan, care coordinator or completed assessment.

All foster care and adoption assistance members regardless of services, care coordination and/or assessments rendered shall be included in this report and there shall be no blank fields.

There shall be no duplication of member information on this report. Each member shall have information contained in only one row.

This report is rolling and DMAS expects members who maintain their foster care or adoption assistance status to remain on this report month by month.

Reporting Claims Data

There are no specific procedure codes that are requested for this report. The MCO shall report all services rendered to foster care and adoption assistance members. These data shall reflect services rendered to members and not service authorizations. For all encounter data reflected in this report, the MCO shall include all claims paid in the reporting month regardless of date of service.

Behavioral health information shall include services that occurred in both the inpatient and outpatient settings along with substance use treatment services utilized through the ARTS benefit. This report shall also include members at all applicable ASAM levels and shall solely be specific to the foster care and adoption assistance populations utilizing these services.

Reporting Care Coordination Data

Care coordination data reflected in this report shall include all care coordination efforts that occurred for members in aid categories 070, 072 and 076, respectively, during the reporting period. Per the Cardinal Care contract, the Contractor shall provide care coordination for adoption assistance members as requested by the member's parents and care coordination for former foster care youth as requested by the member.

The Contractor shall report if a member is in active care coordination and/or if the member has an established care coordination plan.

Reporting Assessment Data

The Contractor shall ensure that all assessments completed within the reporting period be reflected in this report. For members who have previously received an assessment prior to the implementation of this report, the Contractor shall list "P" indicating that the assessment has been previously completed. For members who received an assessment in a previous month that was included in an earlier submission of this report, the Contractor shall utilize "PR." Assessment dates shall be listed for all members with a completed assessment, regardless of the date of completion.

Definitions

The below definitions reflect the information required for this report:

"Adoption Assistance Member" – A member enrolled with an aid category of 072.

"Assessment" – The Contractor's appraisal and evaluation of its members to determine level of health and necessary interventions as may be appropriate. A successful assessment is considered a contact made by the health plan that assesses all health care needs, interventions received, and any additional services or referral needs. The health plan must submit the assessment procedures plan and a copy of the assessment tool annually to the Department.

"Behavioral Health Referral" – A referral made by the Contractor's clinical team for any inpatient or outpatient behavioral health service, respectively, including, but not limited to, those related to substance use treatment and Community Mental Health Rehabilitative Services (CMHRS).

"Care Coordination" – The process of identifying patient needs and the subsequent development, implementation, monitoring, and revision (as necessary) of a plan of care (see also Care Coordination Plan) to efficiently achieve the optimum quality patient outcomes in the most cost-effective manner.

“Care Coordination Plan” – A plan established by the Contractor’s clinical team to support the care coordination needs of the member.

“Former Foster Care Youth” – A member enrolled with aid category of 070 who was in the custody of a local department of social services in Virginia, another state, or a U.S. Territory and receiving Medicaid until discharge from foster care upon turning age 18 years or older, is not eligible for Medicaid in another mandatory Medicaid covered group (LIFC parent, Pregnant Woman, Child Under Age 18 or SSI), and is under age 26 years. A child age 18 and over who is in an Independent Living arrangement or in the Fostering Futures Program with a local department of social services may be eligible in this covered group.

“Foster Care Barrier Report” – A monthly foster care report also outlined in the Cardinal Care Managed Care Technical Manual addressing MCO barriers to communication about foster care member assessments, care coordination needs, etc.

“Foster Care Member” – A member enrolled with an aid category of 076.

“Medical Referral” – A referral made by the Contractor’s clinical team for any medical service. These services shall not include behavioral health services.

2.2.15 Foster Care Barrier Report

Contract	Section 8.12.1.4 Foster care/Adoption Assistance Reporting Requirements
Method:	Cardinal FTP
Format:	Comma separated value (.csv) file. All columns/fields must be included in the order specified, with no additional/omitted columns. Do not include a header row.
File Name:	BARRIER.csv
Trigger:	Monthly
Due Date:	By close of business on the 15th calendar day of the month following the end of the reporting month.
Population:	Include CCC PLUS and MEDALLION
DMAS:	MCH

2.2.15.1 Report Summary

The purpose of this report is to provide DMAS with the opportunity to assist the Contractor with completing a health risk assessment (HRA) for a foster care member within 60 days of enrollment. For the purposes of this report, “foster care member” shall be defined as a member with an aid category of 076. Members who do not have an aid category of 076 shall not be presented on this report.

For the purposes of this report, members who have had coverage with the Contractor with a previous aid category shall be considered “newly enrolled” in foster care when the Contractor receives notice via the MCO EOM 834 file of the updated member aid category (076).

Prior to including barriers on this report related to “LDSS not responsive” (as listed in category ‘08’, in the below table), the Contractor shall make **three outreach attempts** to the member’s guardian to complete the HRA. The Contractor shall make a reasonable attempt to address all barriers (regardless of barrier type) prior to including on this report.

A particular barrier for a member included in a previous month’s report shall not be reported again for that member once DMAS has provided information regarding that barrier. The same barrier shall not be reported more than once for the same member in a single reporting month. The Contractor shall also only include barriers to HRAs that were attempted during that reporting period. Barriers shall not be retroactively included in this report.

2.2.16 Foster Care Transition Planning Report

Contract	Section 8.12.1.2 Foster Care Transition Planning
Method:	Cardinal FTP
Format:	Comma separated value (.csv) file. All columns/fields must be included in the order specified, with no additional/omitted columns. Do not include a header row.
File Name:	FC_TRANSITION.csv
Trigger:	Monthly
Due Date:	By close of business on the 15th calendar day of the month following the end of the reporting month.
Population:	Include CCC PLUS and MEDALLION
DMAS:	

2.2.16.1 Requirements

The Contractor shall demonstrate Foster Care Transition Planning for all foster care members (aid category 076) beginning at age 17. Information shall be included about outreach to local DSS offices regarding the case.

For the purposes of this report, “Foster Care Transition Planning” shall include instances when the Contractor’s clinical team:

- Provides information to a member on that member’s current medications and doctors;
- Helps with scheduling any member medical or behavioral health appointments;
- Educates the member on what should they know about their medical and behavioral health care and what questions should they ask doctors as they navigate their care on their own;
- Works with the member’s guardian to assist in LDSS or LCPA transition planning for member;
- Assists the member with all aspects of the eligibility determination process to ensure transition to aid category 070;
- Educates the member on Virginia’s Fostering Futures program;
- Provides other care coordination services deemed clinically appropriate by the Contractor to address member needs as they transition from the Child Welfare System.

Population Captured

This report shall reflect data on all foster care (aid category 076) members who are identified in the end of month **834 enrollment file** and are *at minimum aged 17 years or older* at any point in the reporting period. All foster care members age 17 years and older shall be captured in this report. This includes members in active case coordination and those who are not. *The Contractor can decide to provide transition planning for a member prior to age 17.* Those members shall also be captured on this report at the Contractor’s discretion.

For example, for a July report submission members captured should include all those age 17 or older listed as aid category 076 on the 834 file sent to the MCOs at the beginning of June (6/1) to reflect full June enrollment.

All members with aid category 076 who are 17 years or older should be included in this report, including those who are newly enrolled and those who have had continuous coverage.

If a member turns 17 during the reporting month, they shall also be included in this report for the reporting period in which they turn 17.

This report is rolling and if a member is continuously aged 17 years and above and in aid category 076, they should be continuously included on this report.

General Data Requirements

If a member does not have any services or care coordination rendered for the reporting period, they shall still be included in this report. For the reporting fields reflecting data for a service not rendered for a member, the field shall read as “0” for the fields indicating the number of services rendered and “N” to indicate no care coordination plan, care coordinator or completed assessment.

There shall be no blank fields on this report.

There shall be no duplication of member information on this report. Each member shall have information contained in only one row.

Definitions

The below definitions reflect the information required for this report:

“Assessment” – The Contractor’s appraisal and evaluation of its members to determine level of health and necessary interventions as may be appropriate. A successful assessment is considered a contact made by the health plan that assesses all health care needs, interventions received, and any additional services or referral needs. The health plan must submit the assessment procedures plan and a copy of the assessment tool annually to the Department.

“Behavioral Health Referral” – A referral made by the Contractor’s clinical team for any inpatient or outpatient behavioral health service, respectively, including, but not limited to, those related to substance use treatment and Community Mental Health Rehabilitative Services (CMHRS).

“Care Coordination” – The process of identifying patient needs and the subsequent development, implementation, monitoring, and revision (as necessary) of a plan of care to efficiently achieve the optimum quality patient outcomes in the most cost-effective manner.

“Former Foster Care Youth” – A member enrolled with aid category of 070 who was in the custody of a local department of social services in Virginia, another state, or a U.S. Territory and receiving Medicaid until discharge from foster care upon turning age 18 years or older, is not eligible for Medicaid in another mandatory Medicaid covered group (LIFC parent, Pregnant Woman, Child Under Age 18 or SSI), and is under age 26 years. A child age 18 and over who is in an Independent Living arrangement or in the Fostering Futures Program with a local department of social services may be eligible in this covered group.

“Foster Care Member” – A member enrolled with an aid category of 076.

“Foster Care Transition Planning” – Instances when the Contractor’s clinical team supports members who are transitioning out of the child welfare system from aid category 076 to aid category 070 with services including, but not limited to, the following:

- Provides information to a member on that member’s current medications and doctors;
- Helps with scheduling any member medical or behavioral health appointments;
- Educates the member on what should they know about their medical and behavioral health care and what questions should they ask doctors as they navigate this on their own;

- Works with the member’s guardian to assist in LDSS or LCPA transition planning for member;
- Educates the member on Virginia’s Fostering Futures program;
- Assists the member with all aspects of the eligibility determination process to ensure transition to aid category 070;
- Provides other care coordination services deemed clinically appropriate by the Contractor to address member needs as they transition from the Child Welfare System.

“*Fostering Futures*” – Virginia’s program implementing provisions of the federal Fostering Connections to Success and Increasing Adoptions Act of 2008 that permit states to utilize federal title IV-E funding to provide foster care maintenance payments and services and adoption assistance for youth ages 18 to 21. The program offers services and support to youth transitioning to adulthood and self-sufficiency regardless of funding source.

“*Guardian*” – An adult who is legally responsible for the care and management of a minor child or another adult.

“*Medical Referral*” – A referral made by the Contractor’s clinical team for any medical service. These services shall not include behavioral health services.

2.2.18.2 Requirements

The Contractor shall include information for pregnant and postpartum members enrolled in the Contractor’s high-risk (HR) maternity program and pregnant and postpartum members not in the Contractor’s HR maternity program, respectively. Include specific information on care coordination services and other service utilization as indicated in below specifications.

Population Captured

This report shall capture information for members who are in the prenatal and/or 12 month postpartum period during the reporting month. This report is applicable to all members regardless of aid category. **All** pregnant and/or members 12 months postpartum shall be captured in this report regardless of service utilization, identified risk status during the reporting month, or aid category. “Postpartum members” shall only include members with a live birth. This report is separated by the risk status identified by the Contractor.

The Contractor shall, at a minimum, include members identified in the End of Month (EOM) 834 Enrollment File, as outlined below. The Contractor shall also include pregnant members on this report who are deemed pregnant but not enrolled in one of the below aid categories or have an estimated delivery date (EDD) on their enrollment file. This information may be obtained through claims or care coordination data, etc. **The below specifications shall only represent the minimum number of members included in this report.**

End of Month (EOM) 834 Report Aid Category Specifications

PREG_091	PREG_005	PREG_EDD
<ul style="list-style-type: none"> Pregnant Medicaid Moms *For this report, this aid category applies to members age seven and above. Members below age seven shall not be captured on this report. 	Pregnant FAMIS Moms	<ul style="list-style-type: none"> Estimated Delivery Date (EDD) *This indicator is included for members not in the listed aid categories that have an EDD on their enrollment file.

 Each Aid Category (091 and 005) and unique files with an EDD indicator will total the minimum number of members reported monthly.

If a member is identified as pregnant or postpartum at any point during the reporting month, she shall still be captured in this report. If a member leaves the 12 month postpartum period at any time during the reporting month, she shall still be captured in this report. Members who give birth during the reporting month shall have their prenatal and postpartum services reported.

General Data Requirements

The service utilization data in this report shall reflect claims payment data for this reporting month and not the date of service for the claim. The data reported shall also include internal care coordination data provided by the Contractor to also reflect care coordination rendered during the reporting month.

There shall be no blank fields on this report unless below specifications indicate that a field is optional. There shall also be no duplicate member IDs presented on this report.

All data on this report shall be the most up to date information the Contractor can present in each data field. For members who are on this report for consecutive months, the Contractor shall ensure that the member information is updated as needed and appropriate.

For example, Member B has an original EDD of 6/19/19. After a prenatal care visit, she reports to her care coordinator that her provider has changed her EDD to 5/31/19. The month this information is obtained, the Member’s EDD should read “05312019”. This shall also apply to member care coordination status and any other care coordination, medical or behavioral health services rendered. This shall also apply to a member’s substance use diagnosis status and maternal mental health screen completion indicator. *For members who are postpartum, the EDD shall match the date the member delivered.*

Definitions

The below definitions reflect the information required for this report:

“Care Coordination” – The process of identifying patient needs and the subsequent development, implementation, monitoring, and revision (as necessary) of a plan of care to efficiently achieve the optimum quality patient outcomes in the most cost-effective manner.

“High-Risk” – The Contractor is required to report identified risk status in this report for all pregnant and postpartum women. The Contractor may include various risk factors in screening for this population as stated in the maternity policies and procedures outlined in their annual submissions to DMAS. At a minimum, the screening process for risk status must consider:

- The presence of co-morbid or chronic conditions, sexually transmitted infections, etc.;
- Previous pregnancy complications and adverse birth outcomes;
- History of\or current substance use (e.g., alcohol, tobacco, prescription or recreational drug use);
- History of\or a current positive screen for depression and/or other behavioral health issues;
- The member’s personal safety (e.g., housing situation, violence).

“Maternal Mental Health Screen” – For the purposes of this report, this information shall include mental health screenings conducted for women in the prenatal period until 12 months postpartum. These screenings will indicate information such as, but not limited to, member experiences with perinatal mood and anxiety disorders such as postpartum depression along with screening related to the identification of

substance use disorders. The screenings utilized by the Contractor’s clinical teams and/or providers may include, but are not limited to: 1) PHQ2/9; 2) SBIRT; 3) Edinburgh Postnatal Depression Assessment; 4) IHR Integrated 5P’s Screening Tool; 5) AUDIT-C; and 6) NIDA. These screening shall be unique to the general risk screening completed by the Contractor to identify the risk status of pregnant members. However, this screening does not have to be unique if evidence-based maternal mental health screening questions are embedded in the Contractor’s general pregnancy risk screening process utilized by the Contractor.

“Postpartum” – For the purposes of this report, this term shall refer to members who are between 0 to 12 months postpartum. This report shall only capture postpartum members with a live birth.

“Pregnancy Risk Screen” – For the purposes of this report, this term shall refer to the risk screens conducted by the Contractor to identify member pregnancy/postpartum risk status. These screenings shall reflect those developed by the Contractor to identify appropriate enrollment into Contractor’s high-risk maternity programs, as outlined above and specified in the Cardinal Care contract. These screenings shall be autonomous to the Contractor’s maternal mental health screen, which is defined above. However, the two screenings may be conducted simultaneously.

File Name:	NEMT_MISSED_TRIPS_ContractorName_mmddyy-mmddyy.xlsx (where mmddyy-mmddyy is the reporting period) Example: NEMT_MISSED_TRIPS_ABCHealthPlan_060119-063019.xlsx
Trigger:	Monthly
Due Date:	By close of business on the 10th calendar day of the month (or the first business day thereafter) following the end of the reporting month.
Population:	Report CCC Plus and MEDALLION on separate tabs
DMAS:	Transportation Unit

2.2.21.1 Requirements

Enter all missed trips for the reporting period. If the member did not arrive at the initial destination of a scheduled round trip, do not report the scheduled return trip as a separate missed trip. Do not report trips cancelled by the member. The report submission should include two tabs: CCCPlus on one tab, MEDALLION on the following tab.

In the Member Mobility column, indicate how the member was able to move to and from the vehicle, whether the member was ambulatory, used a wheelchair or was moved by stretcher.

In the Type of Service column, indicate the range of service given by the transportation provider in moving the member to and from the vehicle:

- Curb-to-curb: Member was not assisted by the transportation provider in moving between the vehicle and the exit or entry point of the pickup and drop-off locations.
- Door-to-door: Member was assisted by the transportation provider in moving between the vehicle and the exit or entry point of the pickup and drop-off locations.
- Hand-to-hand: Member was assisted at all times by the transportation provider in moving between the hands-on care of the member's caregiver and the hands-on care of another provider.

In the Reason for Missed Trip column, select one of the options available in the drop down list. If "Other" is selected, explain the reason along with the resolution in the Resolution column.

In the resolution column, please explain what steps were taken to address the specific missed trip in question - e.g., the arrangement of alternative transportation, the intervention of the care coordinator in rescheduling a missed appointment, etc.

File Name:	EI_SRC_RPT.csv
Trigger:	Monthly
Due Date:	By close of business on the 15th calendar day of the month following the end of the reporting month.
Population:	Include CCC PLUS and MEDALLION
DMAS:	MCH

2.2.26.1 Requirements

The Contractor shall demonstrate the following information related to the provision of Early Intervention services including:

1. Number of total EI Claims (adjudicated and pending adjudication) received
2. Number of total EI claims pending adjudication (unprocessed or that have not gone through the adjudication process) at month's end
3. Number of EI Claims paid within 14 calendar days of clean claim submission that have gone through the adjudication process
4. Number of EI claims paid between 15 and 30 calendar days
5. Number of EI claims not paid within 30 calendar days of clean claim submission that have gone through the adjudication process and why
6. Number of total EI claims denied (and why) that have gone through the adjudication process

Population Captured

This report shall primarily capture information related to claims rendered for members with the Early Intervention indicator presented on the 834 enrollment file. The report shall be rolling and information shall be captured for members on various months, as appropriate, as long as they maintain enrollment in Virginia's Early Intervention program.

The Contractor shall also provide information outlined in the below specifications for all Early Intervention providers.

General Data Requirements

The data in this report shall reflect claims payment data for this reporting month and not the date of service for the claim. For example, data reported in the July submission of this report shall include data for the entire month of June.

This report is rolling and, should information be applicable for a subsequent reporting month, it shall be reported on as many reports as applicable. For example, if Provider A is in the contracting process with the MCO for the months of June and July, that provider shall be reported on the submissions for July and August. The rolling nature of this report shall be applicable for all fields of the report.

Duplicate claims data shall be reported in the data captured here. For example, if Provider B had a claim rejected because the service was not in the scope of the IFSP and the member had aged out of Early Intervention services, that claim will be submitted in both applicable denied claims categories on this report.

Definitions

The below definitions reflect the information required for this report:

“Clean Claim” – A claim that has no defect or impropriety (including any lack of any required substantiating documentation) or particular circumstance requiring special treatment that prevents timely payments from being made on the claim under this title. See sections 1816(c)(2)(B) and 1842(c)(2)(B) of the Social Security Act., or as applicable under 42 CFR § 447.45.

For the purpose of this report, clean claims shall also meet the requirements for Early Intervention services set forth in the Medallion 4.0 contract including, but not limited to: 1) The provider is appropriately credentialed through the Virginia Department of Behavioral Health and Developmental Services as an Early Intervention Services Provider; 2) The claim submitted is for a child enrolled in Virginia’s Early Intervention program; 3) The claim submitted is for services outlined in that child’s Individualized Family Service Plan (IFSP); and 4) The claim utilizes the designated CPT codes for Early Intervention Services as outlined in the DMAS Early Intervention Provider Manual.

“Early Intervention Services (EI)” – Early Intervention (EI) services are provided through Part C of the Individuals with Disabilities Education Act (20 USC § 1431 et seq.), as amended, and in accordance with 42 CFR § 440.130(d). EI services are designed to meet the developmental needs of children and families and to enhance the development of children from birth to the day before the third birthday who have (i) a 25% developmental delay in one or more areas of development, (ii) atypical development, or (iii) a diagnosed physical or mental condition that has a high probability of resulting in a developmental delay. Per 12 VAC 35-225-70 children are not eligible to receive EI services on or after their third birthday. EI services provided in the child's natural environment to the maximum extent appropriate.

“Early Intervention Individualized Family Service Plan (IFSP)” – A written plan developed by the Member’s interdisciplinary team for providing early intervention supports and services to eligible children and families that: 1) Is based on evaluation for eligibility determination and assessment for service planning; 2) Includes information based on the child's evaluation and assessments, family information, results or outcomes, and supports and services based on peer-reviewed research (to the extent practicable) that are necessary to meet the unique needs of the child and the family and to achieve the results or outcomes; and 3) Is implemented as soon as possible once parental consent is obtained. The IFSP requires a physician signature for the initial IFSP, annual IFSP and anytime a service is added or services change (as determined through the IFSP Review process). Medical necessity is established by the IFSP combined with physician certification and shall serve as the authorization for the identified early intervention services. **Per the Medallion 4.0 Contract, no additional service authorizations shall be required for EI services.**

“Early Intervention Provider” – A provider credentialed with the Virginia Department of Behavioral Health and Developmental Services to render Early Intervention services as defined in Part C of the Individuals

with Disabilities Education Act (20 USC § 1431 et seq.), as amended, and in accordance with 42 CFR § 440.130(d).

“Early Intervention Provider Master Roster” – The credentialing of Early Intervention (EI) providers requires the Contractor develop and maintain a network of EI providers, certified by DBHDS, with sufficient capacity to serve its Members in need of EI services. The Early Intervention Provider Master Roster is a document developed and maintained by DMAS in collaboration with DBHDS containing all EI certified providers associated with all 40 Local Lead Agencies (LLAs) in the state of Virginia. This document shall be updated and shared with the Contractor monthly.

Formula for Calculating Total Number of Claims

The Contractor shall utilize the below formula when reporting data for this report.

$$\text{Total Claims Adjudicated (Paid/Denied) + Total Claims Pending Adjudication} = \text{Total Number of Claims Received}$$

Total Claims Adjudicated – All Claims that have gone through the Contractor’s adjudication process (Clean Claims Paid in 14 days, Clean Claims Paid between 15 – 30 days, Clean Claims Not Paid in 30 days, and Total Denied)
Total Claims Pending Adjudication – All Claims that have not yet gone through the adjudication process (Unprocessed at Month’s End)

2.3.2.2 Requirements

Include all critical incidents discovered by the contractor and/or reported to the contractor during the reporting period.

The Contractor must provide appropriate follow-up on reported Critical Incidents within thirty (30) days or as expeditiously as the Member’s condition or situation warrants.

Critical incidents are reported for incidents that occur during:

1. The provision of Medicaid-funded services to Members in nursing facilities, inpatient behavioral health settings, and inpatient substance use disorder treatment facilities; and
2. Participation in or receipt of Mental Health Services, ARTS or CCC Plus Waiver services in any setting

A critical incident is defined as any actual or alleged event or situation that threatens or impacts the physical, psychological, or emotional health, safety, or wellbeing of the Member.

Critical incidents are categorized as either Quality of Care Incidents, Sentinel Events or Other Critical Incidents as defined below

Quality of Care Incident: Any incident that calls into question the competence or professional conduct of a healthcare provider in the course of providing medical services and has adversely affected, or could adversely affect, the health or welfare of a member. These are incidents of a less critical nature than those defined as Sentinel Events.

Sentinel Event: A patient safety event involving a sentinel death (not primarily related to the natural course of the illness or underlying condition for which the member was being treated or monitored by a medical professional at the time of the incident) or serious physical or psychological injury, or the risk thereof. All sentinel events are critical incidents.

See section 2.7.70 under Sentinel Event in this manual for a more detailed description of sentinel events.

Other Critical Incident: An event or situation that creates a significant risk to the physical or mental health, safety, or wellbeing of a member not resulting from a quality of care issue and less severe than a Sentinel Event.

Reportable Critical Incidents:

Critical Incident Report Form

DMAS encourages MCOs to incorporate the model Critical Incident Report Form developed by DMAS into their Critical Incident reporting process for provider use. Promoting this standardized form for the reporting of critical incidents by providers and other interested parties will help ensure that all information pertinent to the quarterly Critical Incident Report is captured with each incident reported.

The model Critical Incident Report Form is available on [SharePoint](#)

- A plan detailing how the entry/expansion will be incorporated in to the MCOs current processes.
- A list of subcontractors impacted and a communication plan for notifying the subcontractor of changes.
- A detailed care transition plan.
- Assurances that all ancillary programs (i.e., prenatal, disease state management) will be operational and in place prior to implementation.
- A detailed request from the Department for information which will assist the MCO in its entry/expansion process.
- A draft of the member, marketing and provider materials at least one hundred twenty (120) days before the planned entry/expansion date. The Department will review and respond within thirty (30) days of receipt of the materials.
- A primary care network that includes contracting with all area health departments, major hospitals, community services boards (CSBs), Federally Qualified Health Centers (FQHC) & Rural Health Clinics

(RHC), the top 50% utilized primary care providers, OB/GYNs and pediatricians in both rural and urban areas.

- A specialty care network plan detailing development for therapy, laboratory, vision, pharmacy, psychiatric, and transportation service providers.

A network development plan must include the specialties listed in the Contract.

The Department will determine network adequacy based on specific utilization for the entry/expansion area not later than ninety (90) days prior to the planned implementation date. The MCO must meet any network requirements established by the Department. The MCO must demonstrate adaptability to the special requirements of certain populations like pregnant women in rural areas. The final MCO network must be submitted before assignment deadlines established by the Department.

A written plan indicating the date when BOI and VDH approval will be secured, if at the time of the initial letter of intent BOI and VDH approval are not secured. The MCO must provide the Department with copies of BOI and VDH letters in addition to a written plan outlining a plan for achieving an acceptable accreditation ranking (NCQA), outlining plans for achievement of major milestones as appropriate.

In order to pursue the entry/expansion, if approved by the Department, the MCO will submit a letter accepting the terms of the contract and of these guidelines. The MCO must provide written assurances that it will accept all members, will submit to an operational readiness review, and will adhere to the all requirements of the contract (including reporting).

The Department may seek clarification of the results of any audit findings from the Contractor or its duly authorized representative for the purpose of facilitating the Contractor's understanding of how the audit was conducted and/or how the audit findings were derived. **Any such request for clarification shall be in writing from the Contractor to the Department. If the Contractor disagrees with the audit findings, the Contractor may signify its disagreement by submitting a claim in writing to the Department.**

2.7.31 Corrective Action Plan (CAP) for Failure to Perform Administrative Function(s)

Contract

Method: Email: ManagedCare.Compliance@dmas.virginia.gov

Format: Adobe PDF

File Name: ADMIN_CAP.pdf

Trigger: Notification to contractor in writing by DMAS

Due Date: Within 30 calendar days of notification

Population: Include CCC PLUS and MEDALLION

DMAS:

2.7.31.1 Requirements

The Corrective Action Plan form is available from the DMAS web site. A separate plan must be submitted for each identified compliance violation, failure or deficiency. The plan must contain:

- Compliance Violation/Failure/Deficiency to be addressed (one per report);
- A description of the “root cause” process that the MCO used to determine the reason for the compliance violation/failure/deficiency;
- Intervention(s) that are intended to correct the identified issue;
- Timeline for intervention implementation;
- Individuals responsible for intervention implementation; and
- Improvement goal(s)/benchmark(s) for the noted deficiency.

The Contractor must submit a completed CAP to the department within thirty (30) calendar days from the date of the received compliance violation notification. The CAP must identify how the Contractor plans to remedy the issue within a Sixty (60) day timeframe, which will begin from the date the Department approves the proposed CAP. During such time as the Contractor is under a CAP with the Department the Contractor will not receive any additional compliance violation points for the specific issue under a corrective action plan. The Contractor must include in its correct action plan milestone dates for progress and an anticipated date of resolution for the issue. The contractor must provide the department with updates on the dates listed to ensure operational compliance with the CAP as proposed. The implementation of a corrective action plan does not preclude the Contractor from the accumulation of non-CAP related violations.

3.2.7.2 Description

This file is generated from the validation of the MCO Newborn Reconciliation file (**NB_Recon_yyyymm**) submission against MMIS data. The return file contains the data fields submitted by the MCO, additional fields validating the MCO data submission and payment information for the MCO newborn.

The payment information identifies: 1.) the payment amount for the newborn for all three months (BM1, BM2, and BM3); 2.) whether the payment was made by the MMIS (ICN Ref Number provided), or the payment will be made through the offline reconciliation process or that no payment will be made. If no payment will be made, the nonpayment reason is provided in the field DMAS Comment.

A payment will not be processed for the following reasons:

- MOM not in MCO on NB DOB - The mother of the newborn must be enrolled in the MCO benefit plan on the newborn's DOB.
- NB Deceased (date of death provided) - Payment is not processed if the newborn's date of death is a month prior to the BM2 or BM3.
- NB in different MCO - Newborn changed MCO's for BM2 and/or BM3 and payment was made to that MCO. The MCO in which the newborn was enrolled is provided for claims coordination.
- NB not found - No Paid Encounter for Live Birth Delivery - Newborn was not found in the MMIS and DMAS was unable to locate a paid encounter from the MCO for the live birth delivery.

MCO Comment

- The MCO may submit a response file for that newborn and provide the reference number in the MCO Comment field for the paid encounter submitted for the mother for the live birth so that DMAS can research and verify the delivery.

The Return file will include 4 Worksheets tabs:

- **ALL** – Includes all newborns submitted by the MCO on the NB_Recon_yyyymm file. Each newborn will have 3 rows with enrollment/payment information for all three months, BM1-Birth Month, BM2-Birth Month Plus 1, BM3-Birth Month Plus 2.
- **OFFLINE** - A subset of the **ALL** worksheet. Only includes the Newborns for which DMAS **is making** an Offline payment.
- **No Pymt** – A subset of the **ALL** worksheet. Only includes the Newborns for which DMAS **is not making** an Offline payment.
- **Certify** - A Newborn Reconciliation Certification is included with the return file. The certification is acknowledgement that payment will be made for the payment amount for the newborns identified on the return file. The payment amount will be broken down into 2 payments, one for Medicaid and

one for FAMIS and the Total. Once the Certification is signed and received from the MCO, the Newborn Reconciliation File is processed for payment. The signed document shall be scanned and submitted using the file name **NB_Recon_CertLetter_YYYYMMDD** in .pdf format through the FTP site. When the signed Certification is received, the Add pay will be processed for payment.

YYYYMMDD in naming convention should appear as the birth month of the newborns listed with DD always as 01; i.e., January 2020 DOBs would be 20200101.

3.2.8.2 Description

It is essential that newborns of mothers enrolled in Medicaid/FAMIS/FAMIS MOMs Programs are correctly enrolled with their own 12-digit Medicaid ID number. Ideally, this enrollment will occur prior to discharge from the hospital. Newborns directly enrolled will receive a Medicaid identification number assigned to the case of the mother, which will facilitate newborns receiving their full program benefit, MCO assignment, and ensure appropriate reimbursement is received for the Medicaid covered services provided to newborns of enrolled mothers. The Cardinal Care Managed Care Contract describes the responsibilities of the Contractor and the Department. The Contractor shall have the following responsibilities to ensure newborns receive a Medicaid ID number before the end of the birth month plus two period. Healthy newborns receiving coverage is a prime focus for the Department, thus the Department is taking on the additional responsibility of producing.

MCO Responsibilities:

9. Continue to conduct outreach to pregnant women to track births including contacting mom at hospital once notified of the birth.
10. Continue to submit newborn information monthly on the Live Births Report (MCTM 1.6.5).
11. Review the monthly **E213 Live Births Report**.
12. Conduct outreach to the parents/guardians of newborns without Medicaid IDs to get official newborn first and last name, as well as, spelling.
13. Complete a DMAS E213 form via the [Virginia Medicaid Provider Portal](#) for all newborns listed on the **E213 Live Births Report**.
14. The MCO will have 60 days to complete a DMAS E213 form for each live birth identified on the **E213 Live Births Report**.
15. Monitor the 834 to ensure those newborns entered on the DMAS E213 are listed on the 834.

DMAS Responsibilities:

16. Upon receipt of the Live Births Report (MCTM 1.6.5), DMAS staff will research the information, then, generate a monthly report including all newborns missing Medicaid ID numbers by MCO, Mother, and newborn's DOB.
17. Each MCO will receive a monthly **E213 Live Births Report**, which will identify each newborn without a Medicaid number.
18. Monitor the outgoing **E213 Live Births Report** to identify newborns that have entered the system with a Medicaid ID number.

3.2.9.2 Description

The purpose of this report is to notify the plans when a new member to their plan had been identified as a PUMS member by the previous plan. This report will be produced and delivered to all the MCO plans via the FTP site within 3 business days of the first of the month. In the event that there are no new members identified, DMAS will send a blank file with the receiving plan's name and service center ID.

The following codes are used for PUMS reason:

1=Opioid Use Disorder (OUD) Case Management: PLAN may review any members receiving OUD and provide case management:

- Members with any history of opioid overdose(s) in the past three (3) years; ER visits, inpatient hospitalization, or inpatient rehabilitation stay related to OUD in the past three

(3) years; pregnant women with OUD; individuals with OUD with current or recent involvement (in the past three (3) years) with the criminal justice system: must be evaluated for case management and referred as appropriate;

- Clinical expertise and judgment shall be used to identify and manage any members the plan determines should be placed in, or remain in, a lock-in to a prescriber or practice group ("cluster").

2 = High Average Daily Dose: \geq ninety (90) cumulative morphine milligram equivalents (MME) per day over the past ninety (90) days,

3 = Opioids and Benzodiazepines concurrent use – at least one (1) Opioid claim and fourteen (14) day supply of Benzo (in any order),

4 = Doctor and/or Pharmacy Shopping: \geq three (3) prescribers OR \geq three (3) pharmacies writing/filling claims for any controlled substance in the past sixty (60) days,

5 = Use of a Controlled Substance with a History of Dependence, Abuse, or Poisoning/Overdose: Any use of a controlled substance in the past sixty (60) days with at least two (2) occurrences of a medical claim for controlled Substance Abuse or Dependence in the past three hundred and sixty-five (365) days,

6 = History of Substance Use, Abuse or Dependence or Poisoning/Overdose: Any member with a diagnosis of substance use, substance abuse, or substance dependence on any new* claim in any setting (e.g., ED, pharmacy, inpatient, outpatient, etc.) within the past sixty (60) days.

3.2.10 Validation and Scoring Report

Method	Cardinal FTP
Format	Excel (XLSX)
File Name	MCO_XXX_Monthly_Report_yyyyymmdd.xlsx
Trigger	Monthly (see schedule details below)
Population	Both – Combined Report

3.2.10.1 Requirements

Any deliverable submission that does not meet the basic transmittal requirements set forth for the deliverable will be scored as a zero. In particular, each of the following requirements must be met in order for a submission to be accepted by DMAS for processing:

- Submission must be transmitted via the method specified for the deliverable (e.g., DMAS secure FTP).
- File must be formatted as specified for the deliverable (e.g., comma separated values (CSV), Excel (XLSX), or PDF).
- The filename on the report must exactly match the filename specified for the deliverable (including extension, spaces, underscores, etc.).
- All columns / fields specified for the deliverable must be included in the submission in the order specified, and no additional columns / fields are included. Do not include a header row in *.csv files. If there is no data to report for a specific report, submit the report, but leave it blank without headers or any other text.
- Except as otherwise specified, only one consolidated deliverable per report cycle is submitted. The MCO cannot submit separate deliverables for their subcontractor(s).
- All deliverables that meet the Transmittal Requirements will be edited for compliance with the specific field-level format and content criteria specified for the particular report. Results of this validation are documented in the error report (see below).
- MCOs may be subject to compliance action if the deliverable is submitted after the specified due date. Note that the cut-off for delivery via the DMAS secure FTP is 6:00 PM EST each day.

3.2.10.2 Schedule

The standard schedule for generation of the Validation and Scoring report is as follows:

- First preliminary report is generated in the morning of the 14th and returned to the MCOs via FTP in the mid-day batch transfer.
- Second preliminary report is generated on the morning of the 15th and returned to the MCOs via FTP in the mid-day batch transfer.
- All MCO corrections should be completed and re-submitted prior to the cut-off at close of business on the 15th.
- Validation and Scoring report is generated again on the morning of the 16th using the most recent MCO submissions received via the batch transfer process. These report cards are returned to the MCOs via FTP in the mid-day batch transfer. If the MCO did not resubmit any deliverables, their scores will be the same as the report generated previously on the 15th. This is the first 'official' report card.

- On the 16th, the MCO can submit correction (replacement) file(s) if desired. However, note that when a deliverable is submitted or re-submitted after the cut-off on the 15th, the deliverable may be subject to compliance action. It is DMAS’ intent for all reports to be submitted according to the specified standards prior to the deadline on the 15th as specified in the Cardinal Care Managed Care Contract.
- DMAS will run the report card generation process up to a total of 3 business days in order to collect all corrections submitted by the MCOs.
- Validation and Scoring report is not generated on weekends or State holidays. The delivery schedule is adjusted accordingly for these events. For example, if the 15th falls on a Sunday, deliverables are not due until close of business on the 16th.

Monthly_Reports Worksheet

The workbook file is divided into worksheets. Each tab provides different information.

The first tab (MONTHLY_REPORTS) provides a summary of the monthly submission.

The last column in the worksheet shows the final score for the report. For reports with less than perfect scores, you may review the detailed information on the errors in the subsequent worksheets.

Not_Recognized Worksheet

The second tab (NOT_RECOGNIZED) shows report names that we do not accept – this could mean that a report was named incorrectly or a report is not part of the monthly submission.

Rpt_month	MCO	fname	Rpt_Name	Name_Valid	File_Format_Valid	Submit_date	days
2016_01	XXX	MCO_XXX_20160211160120_ASSESSMENT.csv	ASSESSMENT.CSV	Yes	Yes	2/11/2016	-3
2016_01	XXX	MCO_XXX_20160211160311_FC_ASSESSMENT.csv	FC_ASSESSMENT.CSV	Yes	Yes	2/11/2016	-3

The report was named "ASSESSMENT.CSV" rather than "ASSESSMENTS.CSV"

Multiple Worksheet

The third tab (MULTIPLE) contains the names of reports that you have corrected and resubmitted, so DMAS has multiple versions of that report.

MCO	fname	Rpt_Name	Name_Valid	File_Format_Valid	Submit_dte	submit_time	On_Time	no_of_working_days
XXX	MCO_XXX_20160212133934_BIRTHS.csv	BIRTHS.CSV	Yes	Yes	2/12/2016	133934	YES	-2
XXX	MCO_XXX_20160210143840_CALL_CENTER.csv	CALL_CENTER.CSV	Yes	Yes	2/10/2016	143840	YES	-4

Detailed Errors Worksheets The remaining tabs provide details of the errors for each report. If a file has no errors, the rows on the tab will be blank. *Only records with errors are included in the error worksheet. When resubmitting a file with corrections, correct the error records and submit all records for the monthly report.*

Review the column with error codes (“Error_Code”) to determine where the error(s) reside. Where an ‘E’ is present, its position represents the field (i.e., column) in the record that contains the error.

mbr_FirstName	mbr_LastName	mbr_ID	Third_Party	Amt_Recovered	file_num	Error_Code
FIRST	LASTNAME	000000000001	UNITED HEALTHCARE	342.7	3	12E45
SECOND	LASTNAME	000000000002	BCBS MARYLAND	102.7	3	12E45
THIRD	LASTNAME	000000000003	AETNA	72.8	3	12E45

In this example the ‘E’ is in the third position of the column – this refers to the third field in the report. See MCTM Field Descriptions to identify the name of the column and any specifications.

3.3.1.2 Requirements

As specified in the contract section referenced above.

Report only includes non-dual eligible members whose total Contractor payment amount for all drug costs for the current contract year is over the \$175,000 threshold. Includes pharmacy, physician, and outpatient hospital costs.

Data submitted each quarter must be cumulative year-to-date. For example, if a member exceeds the threshold in the first quarter, then report all prescription drug costs associated with that member in each successive quarter along with any new prescription drug costs.

In order to be processed for reimbursement by DMAS, Contractor reinsurance requests must be submitted within five (5) business days of the due date specified for this deliverable.

Any submitted claim records that do not meet the specifications (editing criteria) specified for this deliverable will not be accepted and not considered for reimbursement.

4 System Interfaces

4.1 From MES to MCOs

4.1.1 Enrollment Roster (834)

Method:	ISS
Format:	EDI 834
File Name:	Per ISS File Naming Conventions
Schedule:	6 th , 12 th , 18 th , and EOM
Population	CCC Plus and MEDALLION Separate Files

4.1.1.1 Description

For each month of coverage throughout the term of the Contract, the Department shall post an Enrollment Roster to DMAS' secure FTP EDI server using the X12 834 HIPAA compliant electronic data interchange (EDI) transaction set. These files will contain full member eligibility data (audit records) for member assignments to the Contractor. The 834 Enrollment Roster shall provide the Contractor with ongoing information about its active and disenrolled members. Unless otherwise notified by the Department, these files will be available on the 19th of the month and at the end of month.

Twice a month throughout the term of the Contract, the Department shall post an enrollment change file to DMAS' secure FTP EDI server using the 834 electronic data interchange (EDI) transaction set. These files will contain all changes to the Contractor's member eligibility data since the last 834 was produced. These changes will include "add" transactions (member is newly enrolled for the Contractor), "terminate" transactions (member is disenrolled or dropped from the Contractor), and "audit" information (any information that changed for the current member). Unless otherwise notified by the Department, these files will be available on the 6th and 13th of the month.

For access to the EDI Companion Guide, go to the Medicaid portal at the following link:

<https://www.virginiamedicaid.dmas.virginia.gov/wps/portal/Home/homepage/>

Locate the EDI Support tab on the home page and click on EDI Companion Guides and then click on 834 – Enrollment/ Dis Enrollment to a Health Plan (5010).

General Guidance for interpreting the 834.

All CCC Plus members are pre-assigned on the 18th of the month with an effective date of the first day of the month following the immediately succeeding month. For the time period beginning with pre-assignment on the 18th of the month until the 18th of the following month, these members are considered to have a pending assignment status. During the pending assignment status of the member, there are no termination records (24-termination maintenance type code) sent to the plans when a member transfers to another plan.

Example: A member is assigned to MCO A on June 18. MCO A received a 21-add and a 30- audit maintenance type code on the mid-month 834 with an effective date of Aug 1. MCO A received a 30-audit maintenance type code on the Jun 30, end-of-the-month 834 with an effective date of Aug 1. The member calls enrollment broker to change to MCO B on July 3. On July 6, MCO B will receive a 21-add and a 30-audit maintenance type code on the weekly 834 on the 6th. MCO A will not receive any information on this member on either their weekly 834 on the 6th or the 13th. On the 18th 834 mid-month, MCO A will NOT receive a 30-Audit maintenance type code for this member. The absence of the

30-audit maintenance type code on the mid-month 834 should be interpreted by MCO A as terminated member.

Eligibility Changes reflected on the 834

Scenario 1. Add, Term and Audit received for the same plan and member on the same file.

Explanation: During normal eligibility processing in the changing of an Aid Category, there are instances where a member's CCC Plus benefit plan will end at the end of the month and a new CCC Plus benefit plan (in same health plan) will begin the first of the next month. Example -- end on 8/30/17 and begin on 9/1/17. In these instances, a 24 term record will be sent for the benefit plan termed on 8/30/17, as well as a 21 add record and 30-audit maintenance record for the new 9/1/17 benefit plan. This record scenario should be processed as continuous CCC Plus coverage with your plan.

Scenario 2. Multiple Audit records in the same file.

Explanation: The occurrence of multiple maintenance records can happen in instances of eligibility changes that result in a new eligibility line. Example using a 9/1/2017 834 -- one 30-audit maintenance record has a 9/1/2017 enroll and one has a 10/1/2017. Use only the audit maintenance record for the current month. In this example, you would use the 9/1/2017. Once you receive the October 834, you should now be back to one audit maintenance record and this one should have only the 10/1/2017 record.

4.1.1.2 Medicaid Expansions Aid Categories

Medicaid Expansion members are included on the existing 834 and 820 files. Medicaid Expansion members are on the 834 and 820 files with one of the aid category values below. These aid categories are effective 01/01/2019.

- 100 - Caretaker Adult, LE 100% FPL GT LIFC
- 101 - Caretaker Adult, GT 100% FPL
- 102 - Childless Adults, LE 100% FPL
- 103 - Childless Adults, GT 100% FPL

4.1.1.3 Medicaid Expansion Member 834 Data Examples

Medicaid Expansion members who are determined to be Medically Complex have a benefit loop of '01010100X'. Each member can have multiple benefit loops on the 834. The Medically Complex benefit loop is provided in addition to any existing benefit loops that the member may have for managed care, waiver, nursing home, etc.

For those members with a medically complex benefit, the Medically Complex information will be included on the 834 in the 2300 Health Coverage loop along with the other member benefit info. See examples of Medically Complex benefit information below:

Medically Complex benefit data will not appear on the Medallion 834 since members transition to CCC Plus when they are determined to be Medically Complex.

4.1.1.4 Change Source Values

The REF XX1 segment on the 834 contains the 'Change Source' value for the Medically Complex benefit. Valid values are as follows:

ChgSrc	Description
X	Indicates a screening has been completed by an MCO or DMAS.
XP	Indicates that the member attested as Medically Complex on their eligibility application.
XA	Indicates Medical Complex benefit was 'auto-assigned' (e.g., waiver member).
XG	Indicates member was formerly enrolled in GAP.

4.1.1.5 Identifying the MCO that Performed the MMHS

The Provider Information loop contains the MCO ID that performed the most recent screening (Loop 2310, NM109). Valid MCO ID values are shown below.

Provider	MCO Name
0247726596	CCC PLUS Aetna
0247726836	CCC PLUS Anthem
0247725432	CCC PLUS Magellan
0247719971	CCC PLUS Optima

4.1.2 Capitation Payment Remittance (820)

Method	ISS
Format	EDI 820
File Name	Per ISS File Naming Conventions
Schedule:	Weekly - Available on Mondays
Population:	CCC Plus and MEDALLION Separate Files

The 820 Capitation Payment file will list all of the members for whom the Contractor is being reimbursed in the current monthly payment cycle. For current month enrollments, the 820 is processed on the last Friday of the calendar month, and is available to the Contractor on the following Monday. The file includes individual member month detail. The 820 includes current and retroactive capitation payment adjustments.

4.1.2.1 Capitation Payment Remittance (820) – “Best Practices” in Reconciliation

- If the Contractor receives payment on the 820 file for a member not listed on the previous 834 enrollment file, the member is retroactively enrolled to the Contractor for the dates listed.
- If the Contractor receives a retraction of payment on the 820 file, the member is retroactively terminated for the dates listed.
- If a member is listed on the 834 enrollment file, but no payment is received for the member on the 820 file, the member should not be terminated. The Contractor must research the member on the DMAS eligibility website. If the member is no longer eligible on the website, the Contractor will terminate the member. However, if the member still is shown as active on the website, the member will not be terminated.

4.2.5 MMHS Member Screening Data Update (MCF195)

Method:	ISS
Format:	Fixed Length file per specifications below
File Name:	Per ISS File Naming Conventions
Schedule:	Daily M-F at MCO discretion
Population:	CCC PLUS and MEDALLION

4.2.5.1 Requirements

Service center values on every MCF195 record must match the submitter's service center login/ folder. If the service center value on any record does not match, the entire file will be rejected (i.e., not accepted for processing). When this happens, the MCO will receive a 'ERR' file containing the following message: ***"MCS file has been received, but rejected: At least one record has been found where the Service Center number does not correspond to the account used to submit the file."***

Upon acceptance of each submitted MCF195 file, the MCO will receive an Acknowledgement file containing the following message: ***"MCS file has been received and delivered to MMIS."***

MCS files are processed on a daily basis, Monday - Friday. The daily batch process performs screening determination and takes one of the following actions:

- Reject record for one or more validity edits.
- Assign a new medically complex benefit for the member.
- End date the existing medically complex benefit for the member.
- Continue existing benefit for the member.

Prior to processing, all records from all MCOs are sorted by member and Screening Completed Date (descending). DMAS will process only one record for each member per day (latest Screening Completed Date). Additional records received for the same member will not be processed, and will display response code '0008' in the return file.

 If the first record processed fails any field level edits, the remaining records for that member will not be processed.

DMAS will send a response file (MCF196) to the MCOs for all the records received and processed. Each record will be assigned a response code indicating the outcome of members' medically complex determination, and will report the Reject Code(s) for any failed field edit(s).

5 Operational Business Processes

**Virginia Department of Medical Assistance Services
Cardinal Care Managed Care Technical Manual**

5.1 MCO Reporting of Incarcerated Members to DMAS

Population: CCC PLUS and MEDALLION

DMAS: Managed Care Operations

5.1.1.1 Description

- MCO completes the Incarcerated Member form within 48 hours of identification. All required fields must be submitted in order to be processed.
- MCO submits completed form to DMAS via the DMAS secure FTP server.
- After receiving the MCO form, the DMAS Managed Care Contract Monitor creates a case record in the HCS Case Tracking System and assigns to Enrollment Analyst.
- Enrollment Analyst contacts facility to confirm incarceration and dates.
- After confirming member incarceration, the Enrollment Analyst retroactively cancels the member's managed care benefit based effective with the day before the date of incarceration.
- As necessary, the Enrollment Analyst will exempt the member from future managed care enrollment.
- The DMAS Eligibility and Enrollment Unit (EEU) will notify the member, close Medicaid eligibility (advanced notice is not required for these individuals), and notify the appropriate DSS Supervisor and DSS Regional Eligibility Specialist of the case closure. EEU will also handle any appeals regarding the enrollee's Medicaid cancellation.
- If the recipient WAS incarcerated but has already been released by the time DMAS receives the information, or is to be released within the month in question, then no action will be taken to end the MCO enrollment or the Medicaid coverage. The case will be referred on to the DMAS Recipient Audit Unit (RAU) for follow-up on any claims/encounters paid during the period of incarceration.

Cardinal Care Managed Care Technical Manual**

5.2 Newborn Reconciliation

Population: CCC PLUS and MEDALLION

DMAS: Newborns

5.2.1.1 Description

The Cardinal Care Managed Care Contract requires the MCO to cover MCO (live birth) newborns for the birth month plus two additional months when the mother was enrolled in the MCO on the newborn's date of birth. The newborn reconciliation process provides an offline payment to the MCO for newborns when a capitation payment was not made through the MMIS on the 820 payment report. The reconciliation process occurs after the newborn turns age one.

The newborn MCO enrollment process updates the mother's MCO benefit on the newborn's ID. In order for this to occur, the mother's ID must be associated with the newborn ID in the MMIS. Once the association is made between the mother and the newborn, the MMIS will update the MCO benefit for the newborn and the capitation payment is made through the MMIS on the 820 payment report. DMAS utilizes your Live Birth report to identify these newborns to create the linkage and generate the payment through the MMIS 820 reimbursement process. Timely and accurately submission of the Live Birth report provides DMAS staff the opportunity to identify enrolled newborns and connect the mother ID allowing most payments to be made through the MMIS prior to the newborn turning age one. Once a newborn turns age one, the MMIS is not able to up the MCO benefit retroactively for the birth month+2.

There are some instances where even when the linkage is made between the mother and newborn, and the newborn has eligibility coverage in the MMIS that the MCO benefit is not updated for the newborn. The primary reason is that the newborn has other insurance (TPL) and MMIS edits will not allow managed care benefits to update with certain TPL coverages. Regardless if the MCO benefit is not updated on the newborn ID, the MCO is responsible for the newborn for the birth month+2 and payment will be processed through the reconciliation process.

Newborn Payment Calculation

For standardization and consistency, missing payments for the newborn reconciliation are calculated as follows:

- Newborn has eligibility in the MMIS: Payment is calculated using:
 - ❖ Newborn's MMIS AC for the month in which the payment is missing and
 - ❖ FIPS code for the Mother ID in the MMIS on newborn's DOB
- ❖ Newborn has no eligibility in the MMIS (Newborn ID not found):
 - DMAS will validate the live birth by verifying that an encounter was submitted by the MCO for the Mother ID for a live birth delivery
 - Payment is calculated using:
 - ❖ Mother ID's AC on Newborn DOB,
 - ▲ If AC is Medicaid – AC 093 is used for payment,
 - ▲ If AC is 005 or 009 (FAMIS) – AC 008 is used for payment,

**Virginia Department of Medical Assistance Services
Cardinal Care Managed Care Technical Manual**

▲ If AC is 007 (FAMIS) – AC 006 is used for payment

❖ FIPS code for Mother ID on the newborn DOB submitted by the MCO

A payment will not be processed for the following reasons:

- Newborn enrollment was cancelled for death and the date of death was in month prior to the birth month+2. Payment is made for partial month enrollment.
 - **Example:** DOB is 7/15/2012, date of death is 8/02/2012. The reconciliation process would issue a payment for 7/2012 and 8/2012 if a payment was not made by the MMIS. No payment is made for 9/2012.
 - Newborn changed MCOs after the BM1 and was enrolled in a different MCO for BM2 and/or BM3 Payment is not made for BM2 and/or BM3 to the MCO that the mother was enrolled in on the newborns DOB BM1.
 - **Example:** Mother was enrolled in MCO A on newborns DOB. Newborn enrolled in MCO A for BM1. Newborn/mother chose different MCO and was enrolled in MCO B for BM2 and BM3. No payment is made to MCO A for BM2 or BM3.
 - Mother ID submitted not enrolled in MCO on Newborn DOB
 - Newborn not enrolled in MMIS on DOB submitted. Newborn DOB submitted by MCO does not match MMIS DOB, month is different. MCO needs to resubmit on the correct monthly report.
 - Newborn ID not found in the MMIS and a paid encounter was not submitted by the MCO for a live birth delivery for the Mother ID.
- The MCO can submit a response and include the reference number for the paid live birth encounter in the comment field. DMAS will research the reference number and if the live birth is verified, correct the NB_Recon_Return_yyyymm to include the payment information. A new Certification form will be included to reflect the corrected offline payment amount.
-

Newborn Reconciliation Processing

The newborn reconciliation process consists of a monthly **NB_Recon_yyyymm** file submission from the MCO identifying newborns where a payment was not made on the MMIS 820 payment report. DMAS will validate the data submitted and return the **NB_Recon_Return_yyyymm** file to the MCO. The **Newborn Reconciliation Certification** is included with the return file. The Certification identifies the payment amount that will be processed for the MCO for newborns included on the reconciliation **NB_Recon_Return_yyyymm** file. The payment amount will be broken down into 2 payments, one for Medicaid and one for FAMIS and the total. Once the Certification is signed by the MCO and received by DMAS, the payment will be processed. The MCO will receive 2 checks one for the Medicaid amount and one for the FAMIS amount.

MCO Newborn Reconciliation File (NB_Recon_yyyymm)

- Report all newborn live births that occurred during the reporting period where payment was not received for the Birth Month (BM1), and/or Birth Month+1 (BM2), and/or Birth Month+2 (BM3).

DMAS Newborn Reconciliation Return File (NB_Recon_Return_yyyymm)

- DMAS will validate the report against MMIS enrollment and payment information and provide a return file to the MCO indicating that: (1) a payment was made by the MMIS,

**Virginia Department of Medical Assistance Services
Cardinal Care Managed Care Technical Manual**

(2) an Offline payment will be made with the calculated amount, or, (3) a payment will not be processed.

MCO Response to DMAS Newborn Reconciliation Return File (NB_Recon_Return_yyyymm)

- The MCO may submit a response file by email and include information in the MCO Comment field for any newborn where payment was not received. Information shall provide the reference number for the paid encounter submitted for the mother for the live birth so that DMAS can research and verify the delivery. Once DMAS has researched the information provided by the MCO, either a new DMAS Newborn Reconciliation Return File will be generated with the revised payment amount or an email response will be sent.
-

Newborn Reconciliation Payment

The Add pay will be processed when the signed Certification is received. 2 payments will be processed, one for the Medicaid payment amount and one for the FAMIS payment amount.

5.4 Performance Withhold Program

Population:	CCC PLUS and MEDALLION
DMAS:	VBP

5.4.1.1 Description

The PWP includes measures designed to evaluate Managed Care quality by setting performance standards and expectations for Contractors in key areas influencing member health and health outcomes. The PWP utilizes a financial incentive structure withholding a set percentage of the Contractor’s PMPM capitation rate system payments that the Contractor can subsequently earn back based on performance attainment or improvement against the designated measures. By tying financial incentives to Contractor performance on designated quality measures, the PWP focuses performance attainment and improvement efforts on areas of high importance to members.

The Department contracts with its EQRO to implement the methodology for validation and performance assessment of all metrics included in the PWP. The Contractor is required to provide the EQRO full access to documentation, data, and other information the EQRO deems necessary to validate the Contractor’s reported scores. The scoring structure and processes are distributed as part of the Cardinal Care Technical Manual and can also be found on the [Department's VBP website](#).

The PWP withhold percentage is one percent (1%) of the Contractors’ PMPM capitation rate system payments. Consistent with the methodology developed with the EQRO, the Department will determine the portion of the withhold each Contractor can earn back based on the extent to which the Contractor’s performance compares favorably against benchmarks set for each measure.

6.3 Requirement for Submission Upon Material Change

Where the Cardinal Care Contract or this Technical Manual require submission of a deliverable upon a 'material change' to such deliverable, the following definition of 'material change' applies:

A 'material change' is a change to the policy or procedure that:

- (a) Alters the timeframes in which an activity or process is performed;
- (b) Inserts or removes a level of review by the plan;
- (c) Has the ability to negatively impact member's rights under the Contract or could cause Member harm;
- (d) Has the ability to negatively impact provider's rights under the Contract; or
- (e) Any other substantive change to member or provider facing materials.

A 'material change' would not include, for instance, a change to the name of the person performing a specific function, the numbering of the policy or procedure, or non-substantive grammatical changes.
