Dear Providers:

The Department of Medical Assistance Services (DMAS) will be conducting informational sessions for providers on the Addiction and Recovery Treatment Services (ARTS) transformation: **ARTS 101-The Basics**. These sessions will provide a general overview of the new ARTS benefit that will expand access to a comprehensive continuum of addiction treatment services for over 1.1 million Virginia Medicaid and FAMIS patients on April 1, 2017. The sessions will also cover the reimbursement structure and overview of the **up to 400% increase in payment rates**, for many of the substance use services.

DMAS leaders will provide updates on:

- **Increasing rates up to 400%** for many of the substance use services. Some service rates are higher than commercial plans!
- **New provider requirements** and new payment models for the new services.
- **Upcoming training sessions for providers** to reduce the frustration in helping individuals suffering from the disease of addiction. Sessions will review the new payment model and tools to better help individuals and is founded on evidence-based treatment including American Society of Addiction Medicine (ASAM) criteria as well as Medication Assisted Treatment (MAT) for opioid addiction.
