

MARS Inputs

03/29/2016

Input Forms MRM420 Recipient Subsystem Interface for 1915b Transportation Waiver reporting

General Information

This program updates the enrollee expenditure history file with enrollee records. It puts together records for Medicaid, Medicaid expansion and FAMIS programs for different aid categories. Monthly enrollment data is collected and passed on to the next program for accumulation of quarterly and year-to-date totals. The enrollees are grouped by managed care programs- medallion and medallion-II. Within the managed care programs, the enrollees are further grouped by eligibility aid categories. (i.e. TANF, ABD and Medicaid Expansion aid categories.)
