**Re: Updated Office Reference Manual (ORM) – EFFECTIVE OCTOBER 1, 2009**

Dear Provider:

Thank you for your continued participation in the *Smiles For Children* program. The goal of *Smiles For Children* is to provide quality health services to Virginia's most vulnerable citizens. The current economic environment requires implementing pre-payment review initiatives to assure that the program is cost effective. These initiatives were developed based on input from Dental Advisory Committee (DAC) sub-committee members, the Virginia Dental Association, including its executive director Terry Dickinson, and in accordance with state employee health plan requirements. To this end, several changes will be made to the program. **These changes are effective for dates of service on and after October 1, 2009.**

Below is a summary of the changes:

- **Added Section 4.11, ELECTRONIC FUNDS TRANSFER AND ELECTRONIC REMITTANCE STATEMENTS.**
- **Revised DORAL DENTAL USA 837 DENTAL COMPANION GUIDE, Section 6.5.08, 837 Dental Healthcare Claim Transaction.**
- **Revised EXHIBIT A, D0330 – PANORAMIC FILM:**  
The age for coverage of panoramic radiographs D0330 is changed from 0-20 to **ages 6 -20.**
- **Revised EXHIBIT A, D4210 – GINGIVECTOMY/GINGIVOPLASTY (four or more contiguous teeth or bounded teeth spaces per quadrant):**  
Periodontal charting and pre-operative radiographs with claim for prepayment review is now required.
- **Revised EXHIBIT A, D4211 – GINGIVECTOMY/GINGIVOPLASTY (one to three contiguous teeth or bounded teeth spaces per quadrant):**  
Periodontal charting and pre-operative radiographs with claim for prepayment review is now required.
- **Revised EXHIBIT A, D4341 – PERIODONTAL SCALING AND ROOT PLANING (four or more teeth per quadrant):**  
Periodontal charting and pre-operative radiographs with claim for prepayment review is now required.

- **Revised EXHIBIT A, D4342 – PERIODONTAL SCALING AND ROOT PLANING (one to three teeth per quadrant):**

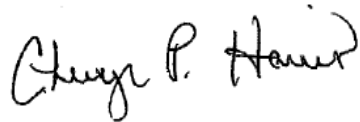

Periodontal charting and pre-operative radiographs with claim for prepayment review is now required.

Please note, in the February 17, 2009, version of the Office Reference Manual (ORM), the teeth covered for D1351, SEALANT – PER TOOTH, was inadvertently revised to include bicuspid teeth as covered teeth. This version of the ORM has been corrected. Teeth covered for D1351 include 2, 3,14,15,18,19,30,31. We apologize for any inconvenience this may have caused.

The updated *Smiles For Children* Office Reference Manual (ORM) will be available on-line at [www.doralusa.com](http://www.doralusa.com) on October 1, 2009. At that time, a copy may also be downloaded from the DMAS website at <http://www.dmas.virginia.gov>.

Thank you for your continued participation in the *Smiles For Children* program. If you have any further questions regarding the ORM, please contact the Doral Call Center at 1-888-912-3456.

Sincerely,

Cheryl P. Harris  
Virginia Project Director
