Dear Medicaid Provider:

The Department of Medical Assistance Services will be conducting seminars on **Early Intervention (EI) Services**. The goal of the training is to enhance the awareness of the scope of Early Intervention (EI) Services. We will define program and eligibility criteria, enrollment and service access from a variety of public health programs providing Early Intervention (EI) Services. We will also be including updates on the MCH program services changes that have occurred since our Fall 2005 training.

The seminar is recommended for individuals who are eligible to provide Early Intervention Services including EI Local Lead Agencies, rehabilitation providers, case managers, child development clinics, health departments, hospitals with outpatient rehabilitation clinics. All personnel responsible for providing services, administration of services, utilization review, eligibility verification, billing and claims should be in attendance.

Attached you will find information on the seminar sites, dates and times. DMAS will be accepting online registrations for these seminars, In order to ensure prompt receipt of your registration; we strongly recommend the online registration process. Online Medicaid training registration information can be accessed at www.dmas.virginia.gov.
