1 Encounters

This section contains information to assist existing and prospective Virginia Medicaid managed care contractors with the development of processes and procedures for encounter data submission. This information intended to supplement the Virginia Medicaid Medallion 3.0 and FAMIS contracts and the ANSI X12 Implementation Guide (IG). Hereafter the terms 'Contractor' and/or 'MCO' will refer to the Contractor and any subcontractor used by the Contractor.

The HIPAA Implementation Guides and Addenda are the official standard for electronic submission of health care encounter data. However, there are many areas in these IGs that are situational, open to interpretation, or that require further clarification by the receiving entity. The following documentation is specific to managed care encounter data submitted by a Medallion 3.0 or FAMIS contractor. Nothing in this documentation is intended to conflict or contradict the ANSI X12 / NCPDP Implementation Guides (IG). If you identify any conflicts, please notify DMAS by contacting HCS Encounter@dmass.virginia.gov.

Note that DMAS's fiscal agent, Xerox, has published separate fee for service Companion Guides, and these are published on DMAS' web site. Those Companion Guides do not apply to managed care encounter data and are not to be used for submission of encounter data.

Once the contractor is an established Service Center, any updates to their contact information should be made in writing and directed to the EDI coordinator at Xerox.

1.1 HIPAA Administrative Simplification

The Administrative Simplification provisions of the Health Insurance Portability and Accountability Act of 1996 (HIPAA) requires that all covered entities must use standard transaction sets when exchanging certain information. HIPAA did not specifically define the exchange of encounter data between a Medicaid plan and a managed care organization as a covered transaction. However, since health care claim transaction sets are national standards for data exchange, DMAS has elected to use the HIPAA transaction sets as its standard for Virginia Medicaid encounter data submission.

HIPAA adopted national code sets for use in all transaction sets. These code sets include most of the information currently codified in the UB92 and CMS 1500 paper claims and their electronic counterparts. Information about the required code sets can be found at the wpc-edi and NCPDP web sites referenced below. One impact of this provision of HIPAA was the use of local procedure codes. These codes are no longer considered valid; only valid procedure codes adopted for national use should be coded in transaction sets.

Virginia Department of Medical Assistance
Managed Care Technical Manual

1.1.1 Version and Model

DMAS currently requires use of a variation of the Provider-to-Payer-to-Payer COB model of the 837 transaction sets, Version 5010, Addendum 1 for facility and professional services. For prescription drugs, the mandated transaction set is the NCPDP Batch Version D.0 Telecommunication Standard. As new versions of the transaction sets are adopted by HIPAA, DMAS will use the newer versions in accordance with HIPAA requirements.

Contractors should use the matrix below to determine which transaction set is appropriate for the type of encounter to be reported (based on billing entity):

Billing Entity	Transaction
Inpatient Urgent Care Facility	837 Institutional
Outpatient Urgent Care Facility	837 Institutional
Inpatient Mental Health Facility	837 Institutional
Outpatient Mental Health Facility	837 Institutional
Federally Qualified Health Center	837 Professional
Long Term Care Facility	837 Institutional
Skilled Nursing Facility	837 Institutional
Home Health Provider	Either 837 Institutional or 837 Professional, depending on contract between the MCO and the provider.
Pharmacy Benefit Manager	NCPDP
Retail Pharmacy	NCPDP
Hospital Pharmacy	837 Institutional
Independent Laboratory	837 Professional
Hospital-based Laboratory	837 Institutional
Non-Emergency Transportation	837 Professional
Emergency Transportation	837 Professional
Hospital-based Clinic	837 Institutional
Free-standing Clinic	837 Professional
Physicians	837 Professional
Other medical professionals	837 Professional
Dentist	837 Dental

If in doubt about the transaction to use for a specific type of claim, please contact the Health Care Services Division at: HCSEncounter@dmass.virginia.gov.

1.1.2 EDI Resources

1.1.2.1 Implementation Guides

Detailed information on how each of the 837 transaction sets should be used is contained in each Implementation Guide (IG) and its corresponding Addendum. There are separate IGs and Addenda for professional and institutional services and they can be downloaded for free at www.wpc-edi.com. The same site also has purchase options for the IGs, which can be quite lengthy and take some time to download and/or print.

The IGs and Addenda provide details about which loops, segments and data elements are required in various health care situations. If Contractors carefully follow the instructions in these IGs and Addenda, the certification and testing processes outlined in Sections IV.C and IV.D of this guide should be completed smoothly and expeditiously.

For prescription drug encounters, the NCPDP documentation is available through its Web site: www.ncdp.org. This site also contains other helpful information for implementing this transaction set.

1.1.2.2 Other EDI Documentation

WEDI, the Workgroup for Electronic Data Interchange, is an organization that was formed specifically to promote and assist in the development of better information exchange and management in health care. WEDI's Strategic National Implementation Process or SNIP was formed to facilitate the implementation of national standards, such as HIPAA, within the health care industry. The SNIP Web site provides a wealth of information from white papers on numerous topics to workgroups and LISTSERVS. You can access the WEDI site at www.wedi.org and follow the links to SNIP.

Other Web sites Contractors may find helpful in understanding the HIPAA regulations and in preparing HIPAA-compliant transaction sets include:

- www.cms.gov - Follow the links for Regulations and Guidance and scroll down to the HIPAA Administrative Simplification selection to access information on the regulations, education, and code sets
- www.x12.org - ACS X12 is the Accredited Standard Committee and maintains electronic data interchange standards globally. Work and task groups under X12 developed the transactions sets and implementation guides that have been adopted under HIPAA.
- www.hipaa-dsmo.org - This site contains information on Designated Standard Maintenance Organization (DSMO). These DSMOs have formed a committed to focus on managing HIPAA standard change requests.
- www.wedi.org - Workgroup for Electronic Data Interchange or WEDI is committed to the implementation of electronic commerce in healthcare and EDI standards for the healthcare industry. WEDI's members include providers, health plans, consumers, vendors, government organizations and standards groups.

Most of the above sites also contain links to other sites that may provide additional assistance with implementation of outbound HIPAA transaction sets.

1.2 Encounter Submission Process

Virginia Department of Medical Assistance

Managed Care Technical Manual

1.2.1 Service Center Registration

All Contractors must submit encounters to DMAS electronically using the appropriate HIPAA-mandated transaction sets noted in Section I.B above. Contractors must be registered with the EDI Coordinator at DMAS's fiscal intermediary, Xerox, as a Service Center.

Registration as a Service Center involves the completion of three forms: Submission of Electronic Transactions Agreement for Service Centers (Form 101); Service Center Operational Information Sheet (Form 102); and Provider Service Center Authorization Agreement (Form 103). Once completed, these forms are faxed or emailed to the EDI coordinator at Xerox to initiate the enrollment process. These forms and instruction for completing them are available in the Electronic Claims Submission Enrollment Packet at the following link: <https://www.virginiamedicaid.dmas.virginia.gov/wps/portal/EDIFormsLinks>

Once Xerox has received these forms from the Contractor and verified their accuracy, it will assign a four-digit Service Center ID within 24 hours of receipt of completed forms. If the service center ID is not received within that time period, the contractor should follow up with Xerox at 1-866-352-0766 Monday – Friday between 8:00 am and 5:00 pm EST. This four-digit number will identify the Contractor as a registered Service Center that has the ability to submit electronic transactions. Once the contractor is a registered Service Center, any updates needed to contact information should be made in writing and directed to the EDI Coordinator via email or fax.

Managed Care Technical Manual

1.2.2 Transmission Protocol

Virginia Medicaid requires a secure method of transferring files electronically utilizing a SSL (Secure Socket Layer) connection. Contractors will need to send and receive data electronically using FTP server/client software that supports 128-bit Explicit SSL encryption. See the Electronic Claims Submission Enrollment Packet referenced above for additional information on FTP software requirements. This packet also provides instructions for connecting to the Xerox server, including password requirements and minimum setting requirements.

Virginia Department of Medical Assistance
Managed Care Technical Manual

1.2.3 Test Transmissions

Prior to submitting production files each Contractor is required to submit test files for any event that will impact the submission and/or content of the encounter data. Examples of an event are: a new Contractor, a change to the Contractor's subcontractor, a system change, etc. A test plan may be issued by DMAS if the event affects multiple claim types or the source of the data (i.e. new subcontractor) is changed. Test files will be reviewed by DMAS and the Contractor to determine if the file is acceptable, with ultimate approval by DMAS.

Within twelve weeks of the start of a new Contractor, subcontractor change, system change or any event that impacts the encounter submission, testing should be submitted and successfully completed.

1.2.3.1 Limit on Number of Records in Test Transmission

For 837 file types the maximum number of records in a test file is limited to 5,000 claims or 10% of a normal production month, whichever is less. For NCPDP files, the limit is 3,000 claims or 10% of a normal production month, whichever is less. DMAS defines a claim as the individual line items, not a document.

1.2.3.2 Test File Delivery / Test Results Pickup

- MCO test files must be delivered to the following folder using the VaMMIS file transfer website: **/Distribution/EDI/<service center ID>/Test/To-VAMMIS/**
- DMAS will post all response files and MMIS reports relating to test file submissions in the following folder using the VaMMIS file transfer website:
/Distribution/EDI/<service center ID>/Test/From-VAMMIS/
- Emails relating to testing should be sent to: **HCSEncounters@dmass.virginia.gov**

1.2.3.3 Testing Procedures

1. The MCO must notify DMAS via email when testing is needed due to an event such as a new subcontractor or software/system changes on the MCO's side.
2. Test files may be submitted at will (without prior notification or authorization) as long as the test file record limit is respected (see section 1.2.3.1).
3. The following events will automatically occur within one hour of receipt of the test file submission:
 - An Acknowledgement Report (ACK) will be available for pickup from the VaMMIS FTP website. This report will contain an eight-digit Media Control Number (MCN) that is associated with the submitted test file. The MCN format is shown below. See Section 1.2.5.2 for additional ACK report details.

Example: MCN 32940043

- Position 1 = 3 last digit of year CCYY (2013)
- Position 2-4 = 294 julian date (Oct. 21)
- Position 5-8 = 0043 sequential number (43rd file received on this date)

Virginia Department of Medical Assistance

Managed Care Technical Manual

- The EDI Compliance check will execute and the following reports/files will be available for pickup from the FTP VAMMIS website.
 - 999 File - for 837 test files only (see section 1.2.5.3)
 - NCPDP Response File – for NCPDP test files only (see section 1.2.5.6)
 - Note: If the 999/RSP file is not returned, it may indicate that there is a structural or envelope issue. When this happens, the ANSI translator is unable to generate the appropriate response file. Please review the submitted file and/or perform a local compliance check before contacting DMAS.
 - Compliance Error Report Summary (CER) - exception report (see section 1.2.5.4)
 - Compliance Error Report (CED) – exception report (see section 1.2.5.5).
- 4. The MCO must review the 999/NCPDP Response files. If compliance errors are present, the CER/CED Compliance reports must be reviewed (837 test files).

The 999 or NCPDP Response file will indicate a positive or negative result for the compliance check. If compliance errors exist on an 837 test file, the CER/CED Compliance reports may be used for error resolution. If compliance errors exist on a NCPDP test file, NCPDP Response file may be used for error resolution as DMAS does not have a compliance error report available for NCPDP files.
- 5. If the records/file fail(s) compliance, the MCO may submit a corrected file to the FTP VAMMIS website, at will. This step must be repeated until ALL compliance errors are resolved.
- 6. If the records/file passé(s) compliance please send an email to DMAS that contains the following information:
 - Indicate TEST file in email subject line
 - Indicate that test file is ready for adjudication
 - MCN
 - File Type (837P, 837I, or NCPDP)
 - Submitter name or service center
 - Approximate number of encounters
 - High level description of what is being tested (i.e. adjustment/void processing)
- 7. Upon email receipt, DMAS will request adjudication for the test file. The MMIS adjudication reports listed below will be available for pickup from the FTP VAMMIS website within 2-3 business days. See sections 1.2.5.8, 9, 10, and 11 for detailed report information.
 - Encounter Summary Report (CP-O-507)
 - Encounter Error Report (CP-O-506-01)
 - Encounter Detail Report (CP-O-506-02)
 - EFL File (CP-F-010)
- 8. MMIS adjudication reports should be carefully reviewed. Once test results are approved by the MCO, an email should be sent to indicate that reports are ready for DMAS review. Please include the MCN and the “As Of” date from the reports.

Note: If the adjudication fails, **different** test data is required (i.e., different unique MCO claim identifiers). Encounters in the MMIS test system are deleted only when the test

Virginia Department of Medical Assistance

Managed Care Technical Manual

system is refreshed (approximately twice a year). Correcting the same data and resending will result in the failure of all resubmitted records as fatal edits for duplicates.

9. Upon email receipt, DMAS will review the MMIS adjudication reports and send an email indicating approval for production file submission.

1.2.3.4 MMIS Adjudication Test Schedule

There are two scheduled windows for MMIS adjudication in the test environment: **Tuesday and Thursday afternoons. Reports will be posted to the FTP folder by the next morning.**

Requests for MMIS testing may be sent to HCSEncounters@dmass.virginia.gov at any time. For a test file to be included in the afternoon window, requests must be received no later than **11am on Tuesday/Thursday**. As always, please confirm that test files have passed the EDI compliance check before sending the email request for MMIS adjudication.

1.2.3.5 Approval for Production

After the test file passes compliance, passes adjudication, and the adjudication results are accepted by DMAS and the Contractor, production approval will be established.

If any backlog of data has occurred, a submission plan should be developed and sent to DMAS. Unless otherwise approved, backlogs of encounter data should be submitted with oldest dates first and in file sizes consistent with what would have been submitted in production. For example, if in production weekly files are submitted, weekly catch-up files would be expected. Do not combine into one or more larger files, unless approved in advance.

Virginia Department of Medical Assistance
Managed Care Technical Manual

1.2.4 Production Transmissions

1.2.4.1 Production Encounter Data Submission Requirements

After the Contractor receives authorization for production transmission, they may submit files on a monthly, semi-monthly or weekly schedule as approved by DMAS. DMAS will work with the Contractor to determine an appropriate submission schedule. Xerox plans its work around the encounter submission calendar (see below). The MCO must notify DMAS (at HCSSEncounter@dmass.virginia.gov) ahead of schedule if a scheduled submission will be missed. You can also schedule a new date for submission at that time.

The following are DMAS expectations of the contractor regarding encounters:

- All encounters (production or test) should not be scheduled or submitted without DMAS approval.
- Production encounters cannot be submitted on Friday's, unless agreed to in advance. Test encounters can be submitted on Friday when previously scheduled and approved by DMAS.
- Any process change, vendor change, format change, etc. by the Contractor, fiscal agent or DMAS will require the Contractor to pass a testing stage before resuming production
- The Contractor will submit all encounters to DMAS. DMAS will not accept files from a subcontractor. Service center agreements are between the State's fiscal agent and the MCO. Subcontractors are not included.
- If the Contractor subcontracts with an entity to process claims or provide services, the Contractor is responsible for assuring that data from this vendor contains all the information necessary to create the appropriate encounter record for DMAS. This includes, but is not limited to: pharmacy benefits, laboratory, transportation, vision, and mental health. Prior to delivery to DMAS, the Contractor is responsible for verifying the accuracy of the encounter data being sent to DMAS, particularly with respect to the format and edits. Pass through files cannot be delivered to DMAS.
- For any services rendered under a global billing arrangement (e.g., maternity and delivery), an encounter must be submitted for every service. The MCO cannot submit an encounter just for the initial service that triggered the global payment. The Contractor is responsible for ensuring that providers submit all appropriate records in connection with services paid under a global billing arrangement.
- Compliance errors must be reviewed and corrected. Files failed as non-compliant have not made it into the Virginia MMIS system.
- Failures within an ST/SE segment (negative 999 or RSP) must be reviewed and corrected. ST/SE segment failed have not made it into the Virginia MMIS system.
- The Contractor must review the response files and forward to their appropriate subcontractors (when applicable). The Contractors will act upon all response files to correct.
- The Contractor should employ all of its resources to ensure that duplicate encounter files are not passed to DMAS. DMAS incurs expense for every encounter processed by our Fiscal Agent.
- Encounters that have been adjudicated by the Contractor and denied as a duplicate should not be submitted to DMAS.

Virginia Department of Medical Assistance
Managed Care Technical Manual

1.2.4.2 Production Encounter Files – BEST PRACTICES

The following is a list of best practices concerning production encounter files that are posted to DMAS. At this point in time, these are not requirements but are recommendations.

- Original and replacement/void encounters should be in separate physical files.
- Each file should be limited to approximately 5,000 transactions.
- There should be one ST-SE transaction set in each EDI file. This will cause a “full-file” rejection when there are one or more encounters that fail the EDI compliance-check. DMAS has found that this works best for corrections as the entire file can be resubmitted as opposed to “carving out” the erroneous transaction set(s) for resubmission.
- DMAS does not have specific file naming standards. However, it can be helpful if the filename is meaning and descriptive. For example, the filename should contain the service center id, transaction type (837P, 837I), date/time, file content (orig, void, etc.).

1.2.4.3 Production Processing

Production files will be delivered to the Contractor’s mailbox on the VaMMIS File Transfer Website using the folder: ***Distribution/EDI/Service Center ID/Prod/To-VAMMIS/***. NOTE: If the MCO drops files in a folder other than “***To-VAMMIS***”, the file will not be acknowledged or processed.

Every 15 minutes, the File Transfer System checks for newly posted production files. All files found will be automatically picked-up and processing begins.

The file is renamed by assigning an eight digit Media Control Number or MCN. The MCN is a “smart” number and would breakdown as follows: YJJSSSSS - Sample MCN: 21270043

- Position 1 = Last digit of the calendar year (2012)
- Position 2-4 = Julian Date (127 / May 6th)
- Position 5-8 = Sequential number (43rd file received by DMAS on this day)

An ACK report is returned to the Contractor with the MCN number within an hour of receipt. See below for a sample ACK report. This report shows the original file name and the MCN assigned by the MMIS.

At the half-hour, any files picked up will post a 999 (837) or an RSP (NCPDP). The naming convention is: ***<Service Center ID>_RSP_<MCN number>_<EDI Runid>***. These files will be zipped. NOTE: The EDI Runid is used internally by the EDI System. (See below for a sample of this file.)

ALL 999/RSP files should be picked-up and reviewed by the Contractor. This will indicate if the file was accepted for adjudication, or if the file or any of segment(s) within the file have failed or rejected.

In the event that the ISA or ISE segments are invalid and a 999 cannot be created, Xerox will contact the Contractor directly using the Virginia.EDISupport@xerox.com e-mail address. If there is a negative 999 (that is, the ST and/or SE segments fail), a trace report will be downloaded to the FTP site. (See example below.) Contact Xerox for assistance reading this

Virginia Department of Medical Assistance

Managed Care Technical Manual

report at 1-866-352-0766. The naming convention for this report is: **<4-digit Service Center ID>_ERROR_<MCN>**.

If at any time the Contractor fails to meet the expected production standards, DMAS may retract production approval and place the Contractor back into test in whole or in part. The Contractor would then be required to correct, retest and resume production within the twelve-week time frame as specified in the Medallion 3.0 and FAMIS contracts.

1.2.4.4 File Notification

In the past, DMAS has requested a follow-up email of a list of all encounter files posted during the MCO's encounter submission window. This email is no longer required.

1.2.4.5 Data Submission Feedback

837 encounters received from a Contractor during the week are adjudicated that weekend. NCPDP encounters will be processed as they are received. Several adjudication reports are generated and posted on the ftp site for the MCO. These reports are zipped and posted in the **"OUTGOING"** folder on Monday morning for the 837 encounters and daily for the NCPDP encounters. The naming convention for this file is **<Four-digit service center ID>_<MCN>**. Once the file is unzipped, four reports are displayed:

- CP-O-507: Encounter Summary Report – summarizes the entire submission
- CP-O-506-01: Encounter Error Report – lists every claim that was submitted with an error status of 2 or higher
- CP-O-506-02: Encounter Detail Report – includes **all** claims submitted, including those passed with an error code of zero
- CP-F-010: EFL – electronic version of the Encounter Error Report

DMAS considers status codes 0 through 8 to be paid claims and **REQUIRES** a payment amount and date to be submitted for each encounter. DMAS considers status 9 to be a claim denied by the contractor and would expect the amount paid to be zero. Exceptions to this rule are:

- FAMIS pharmacy encounter where the co-pay covers the complete cost of prescription
- Contractor coordinating benefits and primary payer paid - No payment made by MCO

1.2.4.6 Contractor Responsibilities for Correction and/or Resubmission

Files with HIPAA defined level 1 or level 2 errors in the ISA, GS, GE, or IEA records will be rejected and a negative 999 sent back to the submitter. If there is a negative 999, two compliance error reports will be sent to the MCO: CED and CER. Both will contain detail of the compliance errors found in the negative 999. The entire file must be resubmitted after the problem is fixed. Files with HIPAA defined level 1 or level 2 errors inside a ST-SE loop will have that ST-SE loop rejected and a negative 999 will be sent back to the submitter identifying the loop. Any other ST-SE loops, which do not have level 1 or level 2 errors, will be processed. Only the rejected ST-SE loops should be resubmitted after fixing the problem. Errors on rejected files or ST-SE loops must be corrected and resubmitted within thirty (30) days of the date.

Virginia Department of Medical Assistance

Managed Care Technical Manual

When an entire file is rejected (i.e., has only a 999 transaction in the OUTGOING folder), the Contractor must correct any formatting or syntax errors in the file and resubmit.

Once an encounter has passed all front-end compliance checks, it is processed in the MMIS using the existing fee for service (FFS) claims adjudication logic. Every encounter that passes the EDI compliance checks is processed in the Virginia MMIS and captured in the DMAS encounter data warehouse.

During MMIS processing, the FFS logic may assign one or more 'edit' codes (AKA Error Sequence Codes / ESC). These codes identify error conditions based on the existing payment logic that is applied to FFS provider claim submissions. **Refer to section 1.5 of this document for a detailed explanation of the Encounter Data Quality (EDQ) process that is effective July 1, 2015.** This process includes the State's error identification/reporting process and correction requirements.

Whenever possible, all corrections (adjust/void) should be re-submitted as part of the MCO's normal submission schedule. In cases where a large volume of accumulated encounter corrections needs to be resubmitted, the MCO must request a special schedule for this submission from DMAS via HCSEncounter@dmass.virginia.gov. A large volume is defined as 10,000 or more encounter lines.

1.2.6 Encounter Submission Calendar

The following pages represent the calendar for MCO encounter submissions for the current contract year.

The VAMMIS FTP server is available to accept encounters on holidays. If an automated script is used for file submission and the submission date falls on a holiday, encounter files may be submitted as scheduled. Please note that there will be limited or no human support available. If an alternate date is required or desired, please send a request to the HCS encounters mailbox. DMAS will not assign alternate submission dates, unless requested.

1.3 Encounter Processing Requirements

Virginia Department of Medical Assistance

Managed Care Technical Manual

1.3.1 Encounter Data Certification

By the 15th of each month, Contractors must certify the completeness and accuracy of all encounter data submitted in the prior calendar month. Please reference the data certification reporting requirements in the Medallion 3.0 and FAMIS contracts, as well as the detailed reporting specifications provided in the 'MCO Contract Deliverables' section of this document.

The Encounter Data Certification Form includes protection of the privacy and confidentiality of MCO payment information that is collected from the Contractor on the encounter records. It is important that you use the current version of the Data Certification form in order to insure MCO payment information is not released under Freedom of Information Act requests.

Virginia Department of Medical Assistance
Managed Care Technical Manual

1.3.2 Adjustments & Voids

If the Contractor adjusts or voids a claim that has been or will be submitted to DMAS, the Contractor must submit that void or adjustment to DMAS as well. DMAS has the following requirements with respect to adjustments and/or voids:

Virginia's MMIS uses a line level adjudication process for all 837P records. MMIS adjustment processing of 837P encounters is based on the MCO claim control number provided by the MCO on the encounter record. In order for adjustments and voids to be correctly applied within the MMIS, the MCO must provide a unique identifier for each line of an 837P encounter. Note that MCOs may choose to utilize document level processing within their own claims payment processing, but a unique identifier must be provided on the encounters submitted to DMAS.

The claim number that appeared on the original encounter must be coded in Loop 2300, REF Segment of the 837 (see page 196 of the professional or page 166 of the institutional ASC X12N Implementation Guide, Version 5010A1). If the number in this segment does not match the original claim number, the record will receive a fatal error. Sample:

Original Encounter: CLM*123456*20***11:B:8*Y*A*Y*Y*P

Adjustment: CLM*123456_A*20***11:B:8*Y*A*Y*Y*P
REF*F8*123456

The unique number allows the MMIS to identify the single line being adjusted. Submitting adjustment/voids for all lines on an encounter document and submitting those lines in the same order as the original is no longer required. If the Contractor's adjustment process still requires that the entire encounter document be adjusted, DMAS will accommodate those adjustments.

Replacements and Voids should not be submitted in the same adjudication cycle as the original claim. The MMIS sorts all incoming claim and encounter files as follows: voids, originals, and replacements. Failure to submit voids/adjustments in separate adjudication cycles will result in MMIS fatal error codes 0396 or 0397.

The following MMIS 'claim type modifier' code values are used by the MMIS to identify original, adjustment, and void encounters in the MMIS. The MCO will see these code values on MMIS reporting on encounters that have been processed in the MMIS.

<u>Code</u>	<u>Description</u>
1	Original Claim
2	Debit Adjustment
3	Credit Adjustment *
4	Voided Claim

* Internally created by MMIS

If an MCO submits a file that contains only voids and there are no errors on the file, the file will be processed by the MMIS, but the proprietary reports will not be generated.

Virginia Department of Medical Assistance
Managed Care Technical Manual

1.3.3 Denied Services

All encounters adjudicated by the Contractor or any subcontractor used by the Contractor, should be submitted to DMAS in the prescribed format, including any denied claims, except for the following:

- Encounters that are rejected (the term reject used here does not refer to denied encounters)
- Encounters that are duplicates of records previously submitted
- Encounters that contain an invalid Medicaid member ID
- Encounters for Medicaid members who are not enrolled

If the encounter being submitted is one that has been denied, the encounter should be submitted to DMAS with the appropriate denial reason code from the HIPAA Adjustment Reason Code set (code source 139) appearing in the CAS segment of the encounter. Refer to the table below to see how these codes are mapped to the MMIS error code values (ESC).

Codes identified in the table as 'deny' will be assigned a four-digit DMAS ESC. This is the code that will display on the proprietary error reports, internal system and ad-hoc reports.

The HIPAA adjustment reason code is critical to setting the status of the encounter. Unless the encounter is submitted and interpreted as a denial, all other reason codes are considered approved. Additionally, as this status determines if the encounter will be a paid or denied, each HIPAA adjustment reason code was assigned a status. Mixing paid and denied statuses is not permitted. Each encounter will have only one status value.

The MMIS crosswalk process to identify MCO denials based on the HIPAA adjustment reason code value was implemented only for professional and institutional encounters. Pharmacy (NCPDP) encounter denials are not recognized by the MMIS and should not be submitted to DMAS.

In addition to providing the proper HIPAA adjustment reason code, denied encounters should also include the denial date.

The DMAS crosswalk table below has been updated with new denial codes that are available for use starting on **February 24, 2014**.

1.3.4 National Provider Identifier

The final rule on National provider Identifiers (NPI) specifies that a covered provider must use its assigned NPI where called for on all HIPAA-specified electronic transactions exchanged between covered entities.

DMAS will issue an atypical provider identifier (API) for providers who are not already on the MMIS provider master file. These include non-healthcare providers who cannot obtain an NPI (e.g., taxi drivers), and any providers who are not already enrolled in Virginia Medicaid fee for service. The API number is ten-digits long and mimics the NPI (although using a different algorithm than the one for NPES).

The Contractor is responsible to ensure that all encounter claims are submitted with a National Provider Identification (NPI) or Administrative Provider Identification (API) number that is on file and active in the MMIS. DMAS produces a monthly provider listing that includes all active and terminated Virginia Medicaid Providers. The Contractor is responsible for maintaining the correct provider identification number for the claim and service date. The Contractor will make maximum effort that all providers, including ancillary providers, (i.e. vision, pharmacy, etc.), apply for enrollment in the Medicaid program.

Upon receipt of the DMAS provider file, the Contractor will add, update, edit, etc. their system with the MMIS NPI/API information, to include effective dates as appropriate. The Contractor will submit a monthly request file to DMAS for every provider who is not on file in the MMIS. Detailed specifications for this request file are provided in the 'Reports' section of this document.

An encounter cannot be processed in the MMIS unless the servicing and billing provider on the encounter have a record (NPI/API) on the MMIS provider master file, and that record is active on the encounter date(s) of service. A provider request must be processed by DMAS and confirmation sent to the MCO before the MCO can submit any encounter(s) for a provider who is not on the MMIS.

1.3.5 Line-Level Processing

The MMIS adjudicates professional (837P) encounters at the service line level. The MCO claim identifier at the document level is used to uniquely identify each service. For the MMIS to successfully process the encounter, multi-service line claims must be split into individual encounters with each encounter containing only one service line. Because the MMIS uses a document/claim level X12 value to uniquely identify each service line, the claim must be split when multiple service lines are present. MMIS line-level processing requirements for 837P encounters are listed below.

- The MCO is responsible for providing a unique claim identifier for each claim within their system.
- When the MCO generates the encounter, multi-service line claims must be split into individual encounters with each encounter containing only one service line.
- The encounter must contain a “combined” identifier that uniquely identifies the encounter and uniquely identifies the service line within the encounter. The encounter will contain only the service line that is reflected in the identifier.
- The MCO may use any method that uniquely identifies the claim and service line. One recommended approach is to append the service line number to the unique claim id as shown in the example below.

Example: MCO unique claim id = 4216000006

Service line number on claim = 01

837P claim number (unique claim id/unique service line id) =

421600000601

- 837P EDI reference:
Loop 2300, CLM01 = 837P claim number (unique claim id/unique service line id)
- Loop 2300, CLM01 may contain a maximum of 20 characters.

See examples below.

1.3.6 Drug Rebate Collection

DMAS is required by the Affordable Care Act to collect pharmacy rebates for drugs provided to Medicaid members in an outpatient setting who are enrolled in a managed care arrangement. For successful rebate collection, pharmacy/drug encounters have to contain certain required fields, e.g., NDC, MCO payment date, MCO payment amount. Drugs may be submitted as pharmacy or medical for the following transaction types: Pharmacy (NCPDP), Professional (837P), and Institutional (837I).

1.3.6.1 Required Data for Rebate Collection on Eligible Drugs

The following data elements must be populated on the EDI transaction to DMAS for successful rebate collection from the manufacturer.

Data Element	EDI Reference		
	NCPDP Field	837P Loop.Segment.Element	837I (outpatient only) Loop.Segment.Element
MCO payment amount	431-DV	2430.SVD.02	Claim level: 2320.AMT.01=D 2320.AMT.02 OR Service level: 2430.SVD.02
MCO payment date	443-E8	2430.DTP.01=573 2430.DTP.03	Claim level: 2330B.DTP01=573 2330B.DTP03 OR Service level: 2430.DTP.01=573 2430.DTP.03
Medicaid member ID	302-C2	2010BA.NM1.09	2010BA.NM1.09
NDC	407-D7	2410.LIN.02=N4 2410.LIN.03	2410.LIN.02=N4 2410.LIN.03
Drug unit of measure (837 only)	N/A	2410.CTP.05-1	2410.CTP.05-1
Drug unit/quantity	442-E7	2410.CTP.04	2410.CTP.04

Effective 07/01/2015, DMAS will begin to identify and track errors that prevent collection of rebates through the Encounter Data Quality (EDQ) process. These errors will be subject to compliance assessment.

1.3.6.2 Compound Drugs

NCPDP compound drug encounters must be submitted with multiple ingredients. A NCPDP single-ingredient compound must be submitted as a non-compound, single drug. If a NCPDP compound drug encounter is submitted with only one ingredient, it will be flagged by the MMIS with an ESC error code 0044 (NDC missing or not in valid format).

Virginia Department of Medical Assistance

Managed Care Technical Manual

1.3.6.3 340B Drugs

340B drugs are not eligible for rebate. The MCO must have a process in place to identify 340B drugs so that the drug may be excluded from rebate collection. The technical requirements for 340B drug identification are shown below.

Transaction	Field/Data Element	EDI Reference Field Id/Element	Value
NCPDP	Submission Clarification Code	420-DK	20
	Basis of Cost Determination	423-DN	08
Note: Submission Clarification Code AND Basis of Cost Determination must be populated. Maximum number of occurrences supported for Submission Clarification Code is 1.			
837P	Procedure Modifier	2400.SV1.01 (3-6)	UD
837I	Procedure Modifier	2400.SV2.02 (3-6)	UD
Note: Each drug line must be submitted with modifier UD on the revenue line with the procedure code and NDC code.

Managed Care Technical Manual

1.3.7 MCO Payment Amount & Date

The amount that the Contractor paid the servicing provider must be submitted to the State on each encounter record for a paid (non-denied) claim. The paid amount should reflect what the servicing provider was paid to render care to the member and should not reflect a capitated or salaried reimbursement arrangement.

Each encounter must also include the MCO's payment/remit date. If the MCO payment date is different from the remit date, the MCO should populate the "MCO payment date" with the remit date value.

A member with other insurance coverage (TPL) will be disenrolled from the MCO once that coverage has been verified by DMAS and added to the State's MMIS system. Until the member is disenrolled, the Contractor is required to submit the primary carrier's payment on the encounter along with the MCO payment amount (if any).

For all transaction types, values must be present for the MCO payment amount and MCO payment/remit date (including denials). MMIS will not recognize MCO payment date values that are submitted without a corresponding MCO payment amount value. Zero is an acceptable value for MCO payment amount when appropriate.

1.3.7.1 Sample 837P – Contractor Payment Only

The CN1 segment on the 837 record should be used to identify the method of payment. Refer to the 837 IG for valid values for the CN1 segment. The information below shows an example of how an 837P record should look when the only payment made was made by the Contractor:

1.3.7.5 Sample NCPDP – Contractor Payment Only

The following is an example of how a NCPDP record would look like when the only payment made was by the Contractor. The AM05 segment is used for reporting payment information by the MCO. The HC field must be set to “07” to indicate that the payment information is for the MCO. Each encounter must ALWAYS contain the MCO payment information.

Example – NCPDP, AM05 segment:

1.3.7.6 Sample NCPDP – Contractor and Other Carrier Payment(s)

The following is an example of how a NCPDP record should look when other insurance coverage is involved. The AM05 segment is used for reporting payment information by the other carrier and also by the MCO. The MMIS can accommodate two occurrences of payment information. The HC field must be set to “08” in one occurrence to indicate that the payment information is for the other carrier(s). In a separate occurrence, the HC field must be set to “07” to indicate that the payment information is for the MCO. If there are multiple carriers involved, the sum of the payments should be reported under the other carrier (HC=08). The sum will not include the MCO payment amount as this is reported separately (HC=07). Each encounter must ALWAYS contain the MCO payment info (HC=07).

Example - NCPDP, AM05 segment:

1.3.8 Enrollment Determination Based on Admit Date

Member eligibility in the MMIS is being determined based on the discharge date (MMIS edit 0453). A system change has been submitted to correct the edit logic to use the admission date. Eligibility for member's coverage is actually based on the member's enrollment at the start of the admission (admit date).

1.3.9 Newborns without Medicaid IDs

ORIGINAL PROCEDURE

Originally, DMAS had instructed the MCOs to use a workaround when submitting encounters for newborns that have not been assigned a Medicaid ID. For this workaround, the MCO would submit the newborn encounter with an identifier that consists of the first 9 digits of the mother's ID with a 3 digit sequence number representing each unique child for that mother (e.g., 001 for the first child, 002 for the second, etc.). The sequence number must be in the range of 001 – 005. The MCOs were instructed to submit this identifier instead of a valid Medicaid ID on the newborn encounters whenever a valid Medicaid ID was not available. The MMIS is programmed to process newborn encounters using the original procedure through March 25, 2016. DMAS is requiring the MCOs to phase out this procedure and start using the new procedure described below on March 28, 2016 or shortly thereafter.

NEW PROCEDURE

The new procedure will be functional in the MMIS starting March 28, 2016

Newborns without a Medicaid Id Requirement

The newborn encounter will contain a Medicaid Id that consists of the first 11-digits of mother's Medicaid Id plus an alpha character in the 12th position. The alpha character is to be uppercase and in the range of "A" through "Z". Alpha characters should be used in succession, ascending to descending for each baby.

Example: Mom's Medicaid Id = 111222333449
Baby #1 Medicaid Id = 11122233344A
Baby #2 Medicaid Id = 11122233344B
Baby #3 Medicaid Id = 11122233344C

Transitioning to the New Procedure

Once the MCO is ready to use the new procedure, the preferred approach is for all encounter transactions (originals, replacements, and voids) to contain a member id with the alpha postfix. The only exception will be NCPDP pharmacy reversals as member id is not included in this transaction. If using the new procedure is a hardship for runout transactions, the old procedure may be used. The MMIS may flag transactions using the 3-digit postfix with an error. These errors can be ignored.

EDQ Impact

DMAS will reinstate the Enrollment category (via the Emerging list first) in the EDQ process sometime in the near future. When this happens, we will initially exclude the evaluation of encounters for newborns using the alpha postfix. Once all runout is complete and all MCOs are fully transitioned to the new procedure, the newborn requirement will become part of the normal EDQ process.

1.3.10 Procedure, Diagnosis, Revenue Code

A workaround was previously implemented in MMIS to accept invalid diagnosis, revenue, and procedure codes in encounter submissions when submitted with all X's in the field. The original intent was for the MCO to use these values when a claim was denied for an invalid or missing code. Effective 01/01/2010, the X codes have been end dated in the MMIS, resulting a 0995 or 0996 edit being set on the encounter.

Virginia Department of Medical Assistance
Managed Care Technical Manual

1.3.11 Transportation Encounters

The MMIS truncates fractional mileage on transportation encounters. On rare occasion, a transportation encounter will contain mileage (units) that are less than 1 mile. In this case, the MCO will be required to round the fractional value to 1.

1.4 Proprietary MMIS Code Sets

The following proprietary code sets are used in the Virginia MMIS for processing and reporting. The MCO is not required to submit these values on the encounters. However, the MCO may need to utilize the coding values for reconciliation and/or error correction of encounter data.

1.4.1 MMIS Claim Type

The MMIS assigns a proprietary claim type value to each encounter record submitted by the MCO. This claim type value is used extensively in the MMIS to drive reporting and editing. The following table lists the claim types along with their associated 'form' and description.

1.4.5 Encounter Exception Error Code List

This section has been eliminated effective 07/01/2015.

Error (ESC) codes that were previously listed here have now been transferred to the new 'Encounter Data Quality' (EDQ) process (MCTM 1.5).

Effective 07/01/2015, all encounter data quality issues will be tracked via the new EDQ process.

Virginia Department of Medical Assistance
Managed Care Technical Manual

1.5 Encounter Data Quality (EDQ) Process

The DMAS Encounter Data Quality (EDQ) process described in this section is effective for all encounters submitted July 1, 2015 and after. EDQ supersedes the encounter requirements and reporting used in prior contract cycles.

The goals of EDQ are as follows:

- Define and document each critical encounter data quality issue
- Identify and report encounter data issues when they occur
- Prioritize each MCOs' efforts to resolve and correct encounter issues
- Ensure that each encounter that has a critical data quality issue is corrected in a timely manner
- Integrate encounter processing requirements with DMAS' Compliance Monitoring Process (CMP)

Two categories of issues are identified and reported to the MCOs. Each issue represents a specific measurable encounter data requirement:

- Critical Issues – MCOs must correct each Critical Issue that is identified by DMAS on an encounter. All Critical Issues are subject to CMP penalties.
- Emerging Errors – MCOs should attempt to correct these issues, but DMAS will not be tracking these corrections. Emerging Issues are not subject to CMP penalties.

DMAS monitors and evaluates the Emerging Issues on an ongoing basis for volume and impact to operations. The Emerging Issues are used as a staging area for Critical Issues. DMAS will evaluate new issues as Emerging Issues prior to designating them as a Critical Issue. For each Emerging Issue, DMAS will provide an anticipated 'Implementation Date' indicating when the issue will be moved to the Critical Issue category. This allows the MCO to evaluate potential impacts and to prioritize their remedial efforts.

Component	Critical Issue	Emerging Issue
Compliance	Subject to CMP assessment	Not subject to CMP
Correction	Must be corrected by MCO	MCO should attempt to correct
DMAS Tracking	Issues are reported until corrected by MCO	Reported for current month only DMAS does not track corrections
Disposition	Issues remain on the Critical list indefinitely and are continuously evaluated	May eventually be promoted to 'Critical' or may be removed from list altogether
Report Level	Reported at Issue level (i.e. multiple ESC may be rolled up to a single Critical Issue)	Reported individually by ESC/ error condition to provide more granularity for evaluation

1.5.1 DMAS Reporting

DMAS will generate several EDQ deliverables for each MCO. Reports are generated weekly on Mondays and reflect month to date encounter processing. The calendar monthly reporting period is based on the date each file was submitted by the MCO and received by the State's fiscal agent processor (as confirmed by MCN assignment).

- Critical Issue Report – A summary exception report showing any current month Critical Issues. This report also shows any Critical Issues submitted in prior months that have yet to be corrected by the MCO.
- Critical Issue Detail File – A data file that lists every encounter with one or more Critical Issues. Each issue is reported as a separate record. The detail file matches what is reported on the Critical Issue Report. This file includes all data elements required for the MCO to identify the specific issue and the type of issue.
- Emerging Issue Report – A summary exception report showing any Emerging Issues that occurred for the current month. This report does not include any prior month issues.
- Emerging Issue Detail File – A data file that lists every encounter with one or more Emerging Issues. Each issue is reported as a separate record. The detail file matches what is reported on the Emerging Issue Report. This file includes all data elements required for the MCO to identify the specific issue and the type of issue. Encounters may appear on the Critical and Emerging detail files if the encounter contains errors from both categories.

Refer to sections 1.5.2 through 1.5.4 of this document for detailed specifications for each of these deliverables.

In order to be included in the EDQ reporting process, an encounter must meet all of the following criteria:

- Must represent a 'paid' claim as identified by the MCO*.
- Must be an original, replacement, or failed void.
- Must be fully adjudicated by the MMIS as of the report date (including extraction to the DMAS data warehouse).

*An institutional encounter containing one or more paid revenue lines will be identified as a 'paid' claim even if the claim contains one or more denied revenue lines. EDQ revenue line edits will not be applied when the revenue line billed amount is equal to the revenue line non-covered amount or the revenue line billed amount is equal to zero.

Virginia Department of Medical Assistance
Managed Care Technical Manual

1.5.2 Compliance and Corrections

Each month, DMAS will use the final end of month (EOM) EDQ Critical Error Report to determine if there are any outstanding compliance violations for the MCO for the month. The EOM Critical Issue report reflects all encounters submitted for the current calendar month.

Each issue (report line) on the EDQ Critical Issue Report represents a compliance violation. Refer to the Medallion 3.0 contract 'Compliance Monitoring Process' section (13.2) for further details about assessment and tracking of compliance penalties.

Compliance violation penalties will be assessed only once per month based on the content of the final EOM report. Note that each unique issue is counted only once per calendar month, even if the same issue occurs in multiple weeks and /or files.

The MCO must correct all Critical Issues that are listed on the EDQ Critical Issue Report, unless otherwise instructed by DMAS. DMAS will track and report every encounter with a Critical Issue until it has been corrected.

In order for a Critical Issue to be considered 'corrected', the MCO must submit a void or replacement transaction that causes that encounter record to be successfully voided (or credited) in the MMIS encounter history. DMAS prefers for MCOs to use replacement transactions for corrections instead of voids whenever possible. If the MCO chooses to use void transactions, then the MCO must also submit a corrected original encounter after the void has been successfully applied in the MMIS.

1.5.2.1 EDQ Critical Issue Correction in the MMIS

To correct a Critical Issue on 837 transactions

- The MCO must submit an 837 replacement or void transaction that causes the erroneous encounter to be successfully voided in the MMIS encounter history. If possible, a replacement transaction should be used to correct issues for tracking purposes. However, DMAS will accept separate void and original replacement transactions if necessary.
- Replacement/void transactions must be successfully processed by the MMIS for the EDQ error to be considered corrected. To verify success of the replacement or void transaction, see below "EDQ – Encounter Correction Tips".
- If using a void transaction, the corrected encounter must be submitted after the void transaction is deemed successful. Do not submit the corrected encounter in the same adjudication cycle as the void transaction.
- Note: 837 transactions are adjudicated weekly (Sat/Sun) in the MMIS.

To correct a Critical issue on NCPDP transactions

- The MCO must submit a reversal (B2) transaction that causes the erroneous encounter to be successfully voided in the MMIS encounter history. Rebills (B3) are not accepted by DMAS.
- Replacement/void transactions must be successfully processed by the MMIS for the EDQ error to be considered corrected. To verify success of the replacement/void transaction, see below "EDQ – Encounter Correction Tips".

Virginia Department of Medical Assistance

Managed Care Technical Manual

- The corrected encounter (B1) must be submitted after the reversal (B2) transaction is deemed successful. Do not submit the corrected (B1) encounter in the same adjudication cycle as the reversal (B2) transaction.
- Note: NCPDP transactions are adjudicated daily in the MMIS.

EDQ – Encounter Correction Tips

- To verify success of replacement/void transactions, the following MMIS adjudication reports should be reviewed.
 - CP-O-507 (Summary) – see Section 1.2.5.9
 - CP-O-506-01 (Error-Detail) – see Section 1.2.5.10
 - CP-O-506-02 (All-Detail) – see Section 1.2.5.11
- The MMIS must find the associated original for a replacement/void transaction to be successful. If not found, error 0396 will be set on the replacement transaction and error 0397 will be set on the void transaction.
- The primary data elements in the NCPDP reversal (B2) transaction are listed below. These data elements are used as a key in the MMIS to locate the matching original (B1) transaction so that it may be voided.
 - Pharmacy NPI
 - Date of Service
 - Prescription Number
 - NDC

If a NCPDP void receives error 0397, verify that the reversal (B2) key values match the corresponding values on the original (B1) transaction.

- If an 837 replacement/void transaction receives error 0396/0397, verify that the “pointer” on the replacement/void transaction contains the correct value to point back to the original transaction (EDI pointer: loop 2300, REF*F8 value). Also, verify that the original encounter has been sent to DMAS and was successfully processed past the top tier edits (described below).
- The MMIS validates encounters in a “tiered” approach. Some of the top tier edits relate to member and provider enrollment. When a top tier edit is set, in some cases no further editing occurs on the encounter. When an original encounter fails a top-tier edit, an associated replacement/void transaction may be at risk for failure or may need special handling to be successful.
 - Below is an initial list of MMIS top-tier edits that will cause a replacement/void transaction to be unsuccessful. This is a recent discovery and we will build this list as errors are uncovered.
 - ESC 0130 – Billing Provider Number not on file
 - ESC 1357 - NPI Servicing Provider not on file
 - If replacing or voiding an original encounter that received MMIS ESC 0004 (Invalid or missing enrollee id), the replacement or void transaction must contain the correct enrollee id or an enrollee id that is set up in the MMIS to be successful.
- If you have attempted to replace/void an original encounter that received a top-tier edit and the replacement/void fails, please send an email to the HCSEncounters mailbox. In the situation where the MCO cannot successfully replace or void an encounter because of the MMIS tiered-edits, the MCO will not be held accountable for the EDQ corrections.
- The MCO should request special submission dates for large EDQ corrections (> 10,000 encounters).

1.5.3 Critical Issues

This section provides a detailed description of each current Critical Issue. The Managed Care Technical Manual will be updated throughout the year as new Critical Issues are implemented.

Issues may represent ESC codes, data fields, Internal edits (edits outside of the MMIS), or other contractual requirements. A single Critical Issue may represent multiple ESC codes or Internal error codes.

The chart below shows an implementation schedule for Critical Issues and anticipated Critical Issues (Emerging Issues that will be promoted to the Critical Issue list).

1.5.3.1 Lag Days

Description	Failure to meet the contractual requirement for timely reporting of encounter data to DMAS
Implementation Date	07/01/2015
Contract	Medallion 3.0, Section 11.5.C
Criteria	For each encounter, the lag days are calculated as the difference between the MCO's payment date (provided by the MCO on each encounter record) and the date that the

Virginia Department of Medical Assistance
Managed Care Technical Manual

	file was submitted to DMAS (based on the Julian date from the MCN number assigned by Xerox when the EDI file is received). Calculation of the percentage = Encounters that met the timeliness threshold divided by total encounters submitted for the month. Encounters with missing or invalid MCO payment dates are assigned a default lag days value of 9999 and included in the 'Fail' count for reporting purposes. The timeliness requirement is applied only to original encounters. It is not applied to voids or adjustments. This requirement is assessed as a whole for all encounters and not by individual transaction type.
Correction	MCO is not required to correct encounter records for this issue.
Updates	N/A

1.5.3.2 Date

Description	Error in a date field on a 'paid' encounter
Implementation Date	12/01/2015
Contract	Medallion 3.0, Section 11.5
Criteria	One or more 'paid' encounters receiving one or more of the following Internal error codes: I011 From DOS is greater than Thru DOS I014 From DOS is greater than MCO Payment Date I024 MCO Payment Date is more than 3 years old MCO Payment Date <= (MCN file submission date - 1095)
Correction	MCO must correct all encounters identified as having one or more of these errors. See Section 1.5.2.1 – EDQ Critical Issue Correction in the MMIS.
Updates	02/01/2017

1.5.3.3 M/I Value

Description	Missing or invalid value in required field on a 'paid' encounter
Implementation Date	12/01/2015 – I012, I015, I022, I102, I103, I105, I106 09/01/2016 – I025
Contract	Medallion 3.0, Section 11.5
Criteria	One or more encounters receiving one or more of the following Internal error codes: I012 From DOS is missing I015 MCO Payment Date is missing I022 Procedure Code is missing - 837P

Virginia Department of Medical Assistance
Managed Care Technical Manual

	I102 NDC is missing – NCPDP (not applicable to compound drugs) I103 Bill Type is missing – UB92 I105 Units are zero – 837P/837I This edit will be set if a transportation encounter (837P) contains fractional mileage (units) that are less than 1. See section 1.3.11. I106 Units are zero – NCPDP (not applicable to compound drugs) I025 Diagnosis code, Revenue code, and/or Procedure code contains a value of all X's.
Correction	MCO must correct all encounters identified as having one or more of these errors. See Section 1.5.2.1 – EDQ Critical Issue Correction in the MMIS.
Updates	09/01/2016

1.5.3.4 Provider

Description	Servicing provider-related error on a 'paid' encounter
Implementation Date	12/01/2015
Contract	Medallion 3.0, Section 11.5
Criteria	One or more encounters receiving one or more of the following Internal error codes: I020 MCO NPI has been submitted as Servicing Provider NPI This edit will be set if the MCO's NPI is used as the Servicing Provider NPI on the encounter.
Correction	MCO must correct all encounters identified as having one or more of these errors. See Section 1.5.2.1 – EDQ Critical Issue Correction in the MMIS.
Updates	08/01/2016

1.5.3.5 Pharmacy Rebates

Description	Encounter data quality errors that affect DMAS' ability to collect pharmacy rebates. Edits are applied to PAID claims only.
Anticipated Implementation Date	02/01/2017
Contract	Medallion 3.0, Section 7.2.S.I
Criteria	One or more encounters receiving one or more of the following errors: The Outpatient Physician-Administered Drug edits listed below will be applied when Encounter submission date (MCN) and MCO Payment date is >= 02/01/2017.

Virginia Department of Medical Assistance

Virginia Department of Medical Assistance
Managed Care Technical Manual

2.1 Enrollment Roster (834)

For each month of coverage throughout the term of the Contract, the Department shall post an Enrollment Roster to DMAS' secure FTP EDI server using the 834 electronic data interchange (EDI) transaction set to the Contractor. Unless otherwise notified by the Department, these files will be available on the 20th (mid-month) and 2nd (end of month) of each calendar month. The 834 Enrollment Roster shall provide the Contractor with ongoing information about its active and disenrolled members.

The 834 Mid-Month and End of the Month rosters will list all of the Contractor's members for the prospective enrollment month as of the report generation date. The Mid-Month 834 will be provided to the Contractor on the twentieth (20th) day of the month prior to member enrollment. The End of the Month Enrollment Report will be provided to the Contractor on the second (2nd) day of the current member enrollment month.

2.2.2 Capitation Payment Remittance (820) – “Best Practices” in Reconciliation

- If the MCO receives payment on the 820 file for a member that was not listed on the previous 834 enrollment file, the member is retroactively enrolled to the MCO for the dates listed.
- If the MCO receives a retraction of payment on the 820 file, the member is retroactively terminated for the dates listed.
- If a member is listed on the 834 enrollment file but no payment is received for the member on the 820 file, the member should not be terminated. The MCO must research the member on the DMAS eligibility website. If the member is no longer eligible on the website, the MCO will terminate the member. However, if the member still is shown as active on the website, the member will not be terminated.

3 MCO Contract Deliverables

Virginia Department of Medical Assistance
Managed Care Technical Manual

3.1 Reporting Standards

Beginning with the contract cycle starting on July 1, 2013, DMAS will no longer require use of the Excel template for monthly report submissions. Files previously submitted via the Excel template are now to be submitted as separate comma separated value (CSV) files. Refer to the detailed specifications provided for each report in this section.

DMAS **strongly recommends** that the MCOs develop automated reporting processes for each deliverable in order to maintain the consistency and accuracy of ongoing deliverable submissions. It has been DMAS' experience that manual reporting processes are prone to errors and inconsistencies. DMAS also recommends that each MCO develop and implement standardized processing for each deliverable submission, including comprehensive quality control procedures.

All deliverable submissions must conform to the specifications documented in the current versions of this Technical Manual, including all documented formatting requirements. It is the MCO's responsibility to comply with these specifications. Any submission that does not comply with these specifications may be rejected by DMAS in total or in part. The MCO will be required to correct and re-submit deliverables as necessary to comply with the reporting requirements set forth in this document.

DMAS will post the current version of the Managed Care Technical Manual on the Virginia Medicaid Managed Care web site, and also in the report directory of the DMAS secure FTP server. The version number of the Managed Care Technical Manual will be incremented whenever any change is made within the document. Every change will be documented in the 'Version Change Summary' section at the front of the document.

The Managed Care Technical Manual will be updated no more frequently than monthly. The revised Managed Care Technical Manual will be posted to the Managed Care web site and to the FTP server no later than the last calendar day of each month. The MCOs must check the web site or server at the beginning of each month to ensure that they are using the most current version of the program specs for their next submission to DMAS.

3.1.1 DMAS Secure FTP Server

DMAS has established a secure FTP server to facilitate transfer of files with the MCOs. Each MCO has their own secure login and dedicated folders on the DMAS report server. Each MCO can have one and only one login / account. The login account for new MCOs will be set up as part of the Department's standard implementation process for new MCOs, usually one to two months prior to go live.

Within the MCO's folder, there are two subfolders: TO-DMAS and FROM-DMAS. Any files sent from DMAS to the MCO will be in the FROM-DMAS folder. Any files that the MCO is submitting to DMAS should be placed in the TO-DMAS folder. The server is swept daily at 6:00 PM EST, and any files in the TO-DMAS folder are moved to DMAS' local intranet server for user retrieval.

When the files are moved to the DMAS' local intranet server, the system assigns a prefix to the MCO file that allows DMAS to identify which MCO sent the file. The system also assigns a date and time stamp within the filename prefix that identifies when the file was originally posted to the server by the MCO.

For any problems with passwords or logging in, there is a link on the FTP site for Tech Support and/or Password Reset. (The site is maintained by DMAS' contractor Xerox. DMAS cannot reset passwords or update login info.)

You can get to the site here: <https://vammis-filetransfer.com>.

All other questions about Medallion 3.0 reporting should be directed to the MCOhelp@dmass.virginia.gov email box.

3.1.2 Deliverable Scoring

DMAS will evaluate each deliverable submission and assign a numeric score based on the whether the submission meets all of the reporting parameters specified for that deliverable in this document. Scoring will be on a 100 point scale. The grading scale is as follows:

A: ≥ 91
B: ≥ 81 and < 91
C: ≥ 71 and < 81
D: ≥ 61 and < 71
F: < 61
O: = 0

3.1.2.1 Transmittal Requirements

Any deliverable submission that does not meet the basic transmittal requirements set forth for the deliverable will be scored as a zero. In particular, each of the following requirements must be met in order for a submission to be accepted by DMAS for processing:

- Submission must be transmitted via the method specified for the deliverable (e.g., DMAS secure FTP).
- File must be formatted as specified for the deliverable (e.g., comma separated values, Excel 2007, Adobe PDF).
- The filename on the report must exactly match the filename specified for the deliverable (including extension).
- All columns / fields specified for the deliverable must be included in the submission in the order specified, and no additional columns/ fields are included. Do not include a header row in .csv files. If there is no data to report for a specific report, submit the report but leave it blank without headers or any other text.
- Except as otherwise specified, only one consolidated deliverable per report cycle is submitted. The MCO cannot submit separate deliverables for their subcontractor(s).

3.1.2.2 Timeliness

Points will be deducted if the deliverable is submitted after the specified due date. For each business day late, the overall score will be reduced by ten (10) points. Note that the cut-off for delivery via the DMAS secure FTP is 6:00 PM EST each day.

3.1.2.3 Field-Level Editing

All deliverables that meet the Transmittal Requirements will be edited for compliance with the specific field-level format and content criteria specified for the particular report. Additional scoring deductions will be applied based on the criteria specified for the report.

3.1.2.4 Report Card Generation Schedule

The standard schedule for generation of the report cards is as follows:

- Preliminary report cards are generated on the morning of the 15th and returned to the MCOs via FTP in the mid-day batch transfer. This allows several hours for the MCO to make corrections if necessary and re-submit prior to the cut-off at close of business on the 15th.

Virginia Department of Medical Assistance
Managed Care Technical Manual

- Report cards are generated again on the morning of the 16th using the most recent MCO submissions received via the batch transfer process. These report cards are returned to the MCOs via FTP in the mid-day batch transfer. If the MCO did not resubmit any deliverables, their scores will be the same as the report generated previously on the 15th. This is the first 'official' report card.
- On the 16th, the MCO can submit correction (replacement) file(s) if desired. However, note that when a deliverable is submitted or re-submitted after the cut-off on the 15th, the grade for that deliverable on the report card will be adjusted according to the editing and timeliness criteria specified above. It is DMAS' intent for all reports to be submitted according to the specified standards prior to the deadline on the 15th as specified in the Medallion 3.0 contract.
- DMAS will run the report card generation process up to a total of 5 business days in order to collect all corrections submitted by the MCOs. The report grades are not final until the end of this period or until all MCOs have completed all submissions (whichever is earlier).
- Report cards are not generated on weekends or state holidays. The delivery schedule is adjusted accordingly for these events. For example, if the 15th falls on a Sunday, deliverables are not due until close of business on the 16th.

3.1.2.5 How to Read the Monthly Error Report File

The workbook file is divided into worksheets. Each tab provides different information. This report is available from the FTP site with the report card reports and is run daily after the 15th calendar day of the month.

The first tab (MONTHLY_REPORTS) provides a summary of the monthly submission.

The second tab (NOT_RECOGNIZED) shows report names that we do not accept – this could mean that a report was named incorrectly or a report is not part of the monthly submission.

The remaining tabs provide details of the errors for each report. If a file has no errors, the rows on the tab will be blank. *Only records with errors are included in the error worksheet. When resubmitting a file with corrections, correct the error records and submit all records for the monthly report.*

Review the column with error codes ("Error_Code") to determine where the error(s) reside. Where an 'E' is present, its position represents the field (i.e., column) in the record that contains the error.

3.1.3 Creating Comma Separated Value (CSV) File Using Excel

Comma-delimited files are text files in which data is separated by commas. Listed below are instructions on how to manually create .csv files from Excel.

- Open your Excel file in Excel.
- Choose 'Save As' from the Office Button in the top upper left of the application window.
- Select 'CSV (Comma Delimited) (*.csv)' as the type.
- Enter the file name in the 'File Name' box.

3.1.4 Inserting a PDF into a Word Document

These steps should be used when submitting track changes version of documents and general Word documents. Insert the required submission form into the Word document to submit marketing materials as one submission for review.

1. Click **Insert** on the Toolbar
2. Then, select **Object**
3. Next, select **Text from File**
4. Then, select **Create from File**
5. Next, select **Browse** to select PDF document
6. Lastly, select **Insert** then **Ok** to insert into Word document

3.2 Monthly Deliverables

Unless otherwise noted, the reporting period for all monthly reports is the previous calendar month. For example, the deliverables submitted on February 15th should include activity occurring during the reporting period from January 1st through the 31st. Certain reports reflect different reporting periods, and these exceptions are defined in the detailed reporting specifications for that deliverable.

Do not include a header row in .csv files. Numeric fields should not include commas, dollar signs, or other extraneous characters.

File Name: EB_PROV.csv

Trigger: **Weekly – Submit file directly to DMAS via secure FTP server**

Due Date: 11/01/2016

DMAS: Managed Care Enrollment Broker

3.2.1.3 Requirements (11/07/16 and After)

- Files are to be submitted every Monday. The MCO can submit the same file from the prior week if there were no updates or if your extract process does not run every week. DMAS expects to receive a file from each MCO every week.
- Every file is a full file replacement. Do not submit partial / incremental / transactional update files.
- Do not submit more than one record with the same NPI, taxonomy, and zip code.
- File must be submitted weekly, but if there have been no updates since the previous week, then the MCO may submit the same file again. File content should be updated on a monthly basis at minimum.
- Files are to be submitted directly to DMAS via the FTP. DMAS will review the files, edit for format, consolidate, and send to the Enrollment Broker for use in the member provider search function.
- Records that do not meet the specified formatting and content requirements above will be dropped and will not be included in the enrollment broker member provider search function. The MCO will be notified if/when records are dropped via an error/exception report.
- Use of the 'Plus 4' for all addresses is strongly encouraged. This value is used during geocoding of the providers and will provide more accurate results if available.
- 'Site Number' is currently an optional value, but DMAS is evaluating availability to determine whether to make it mandatory in the near future. Ideally, the combination of NPI and Site Number identifies a unique and consistent provider record in the MCO system.
- For the Provider Taxonomy value, it is only necessary to provide the provider's primary specialty. If multiple records are sent for the same provider, taxonomy, and location, DMAS

Virginia Department of Medical Assistance

Managed Care Technical Manual

will eliminate 'duplicate' records from the file before it is sent to the Enrollment Broker. Note that this 'duplicate' logic is based on the Provider Type values displayed in the Enrollment Broker provider search function and not on the specific taxonomy codes.

- Member has one or more special needs as specified in the Managed Care contract, and/or
- Member is enrolled in one of the HAP waiver benefits (01010100S, 01010100T, 01010100R, 01010100Y, 010101009). The assessment requirement for HAP members was added in Contract Modification (Amendment Number III) dated 12/01/2014. (DMAS' evaluation of HAP members will start effective with June 1, 2015 member enrollments.)

The MCO may choose to include other members who do not meet these criteria on this report, but those members will not be included in DMAS' calculation of the MCO's performance metric.

The MCO should report all assessments completed in the previous month for an ABD or CSHCN member. The MCO may also include any assessments not previously reported to DMAS.

PCP Visit: Reporting this information is optional. If provided, include only those members who actually visited their PCP during the 60 day reporting period: i.e., those members who visited a PCP within the first two calendar months of being newly enrolled in the MCO. Do not report members who did not visit their PCP during the report period, and do not include PCP visits that occurred outside the 60 day report period.

If more than one assessment record is submitted for the same member / month, DMAS will keep the latest record submitted.

DMAS: Managed Care Contract Monitor

3.2.17.3 File Specifications

The MCO NB_Recon file is submitted monthly by the MCO for each MCO newborn (live birth) when a payment was not received on the 820 payment report for the birth month (BM1), and/or birth month plus 1 (BM2) and/or birth month plus 2 (BM3). The report is submitted monthly. The submission month is the month following the month in which the newborn turned age one.

MCO Newborn ID Number: ID number assigned to the newborn by the MCO. This should be a unique number for that newborn. Twins should be submitted individually each with a unique MCO ID Number.

DMAS Newborn ID Number: ID number assigned to the newborn by DMAS in the MMIS. Enter the Medicaid ID if known. Otherwise, leave blank.

3.2.18.3 Requirements

The data source for this file is the DMAS Detailed Assessments Report, Section 4.1.23.

The following edits will be applied to this file:

- Include only members that were listed in the DMAS Detailed Assessments Report. Members who were not on the DMAS Detailed Assessments Report will be dropped and not included in the assessment reporting.
- Do not report an exception reason and an assessment date for the same member. If this happens, DMAS will use the assessment date reported and drop the exception reason record.
- Report only the primary exception reason for a member. Do not submit more than one exception reason record for the same member. If more than one exception reason record is submitted for the same member, DMAS will keep one of the records and drop the others.

Use the following codes for Exception Reason:

Code	Exception Reason
1	Member/parent was contacted and refused to complete assessment. Includes incomplete (partial) assessments.
2	Member had invalid or missing contact information and could not be contacted by phone (wrong/missing number) or mail (returned mail)
3	Member contact information was valid, but MCO was unable to make contact with Member/parent (with) after repeated attempts.
9	Other

Only Exception Reason 2 (invalid contact member info) will be excluded from the denominator when calculating the adjusted final assessment percentage for the month.

3.2.19.3 Requirements

- **Required Assessments:** Per the Medallion 3.0 contract, members must be assessed by the MCO when they meet the following eligibility criteria:
 - Member is in Aid Category 076 (Foster Care)
- **New Members:** All new or newly identified foster care members who were assessed should be included on this report. A new or newly identified member is defined as a member who is on the 'current' EOM 834, but who did not meet the above criteria / was not on the EOM 834 files in all of the previous **six months as a foster care member**.
- **Data Source:** All enrollment and eligibility determinations should be based the eligibility and enrollment data from the end of month (EOM) 834 files sent to the MCOs.
- **Report Period:** This report reflects a 60 day continuous foster care enrollment period from the initial enrollment, i.e., current and previous calendar months. Assessments are only required for members who were enrolled with the MCO during the entire continuous foster care enrollment period. For example: The report due to DMAS on January 15 should reflect members who were enrolled as of November 1, and who maintained their foster care enrollment on the December 834.
- **Assessment:** Assessments are to be done on every foster care member who is newly enrolled with the MCO and on every member previously enrolled in the MCO but who has been newly identified as foster care. (Refer to criteria above.) If a member was

3.2.22.3 Requirements

Indicators should be reported for all individuals participating in the BHH program for at least one day during the reporting month.

Number of BHH Month Enrollment with At Least One Contact is the number of members whose primary care provider (PCP) had at least one contact *with the member's behavioral health provider* during the reporting period. Behavioral health providers include: psychiatrists, doctoral-level psychologists, licensed professional counselors, licensed clinical social workers, and licensed clinical behavioral health case managers. MCO case managers/care managers are not considered behavioral health providers; however, if the member does not have a treating behavioral health provider, then the MCO's consulting psychiatrist would be expected to have monthly contact with the enrolled member's PCP. Valid contact types include: in-person meetings, phone conversations, and telemedicine. Email messages/letters are not considered a

valid form of contact. Information on the provider types and recommended contacts or encounters related to integrated behavioral health in primary care is available from:
http://integrationacademy.ahrq.gov/sites/default/files/AHRQ_AcadLitReview.pdf

The number of BHH members with ambulatory care follow-up should be determined using the Healthcare Effectiveness and Information Set (HEDIS) specifications for the Follow-up After Hospitalization for Mental Illness measure. For more information on this measure see:
<http://www.qualitymeasures.ahrq.gov/content.aspx?id=48641&search=follow-up+hospitalization>.

The report should reflect cumulative results for the BHH program, i.e., the MCO should report additional discharges and follow up visits each month as claims are received. Report members with a behavioral health inpatient discharge in the month of the discharge. Report members with follow-up visits in the month of the inpatient discharge.

3.2.23.3 Requirements

Identification of Pharmacy Service:

- DMAS would prefer to have the specific NDC for each authorization if available. If NDC is not available, please provide some other descriptive value that identifies the pharmacy service being authorized.
- For each submitted row, the MCO must provide a value in either the 'NDC' or the 'Other Service Categorization' field.

Records to be Included:

- Include all pharmacy service authorizations that were approved, denied, or pending for supplemental info during the previous calendar month.
- When the MCO receives an authorization request and additional documentation is needed from the provider, that request should be included in this report with a Service Auth Response Type of 'S'. (Resubmission Indicator on this initial request should be 'N'.)
- When the requestor sends the supplemental information for a previously submitted service auth, that record should be included in this report as a separate line with the same Identifier value as the initial request, and a Resubmission Indicator of 'Y'.
- Every initial submission must have a Resubmission Indicator of 'N'. 'Identifier' values must be unique for all records with Resubmission Indicator of 'N'

Requests for Supplemental Information:

- If a service auth is resubmitted multiple times, there can be multiple records with the same 'Identifier' value, but they must all have a Resubmission Indicator of 'Y'.

**Virginia Department of Medical Assistance
Managed Care Technical Manual**

- The date/time of receipt on 'resubmitted' records must reflect the date/time that the supplemental info was submitted, and not the date/time of the original request.
- The response date/time on 'resubmitted' records should reflect the date/time that the approval/denial notification for the supplemental info was sent to the requestor, and not the date/time of the original request.

3.3 Quarterly Deliverables

All quarterly reporting deliverables are due to DMAS by the last calendar day of the month following the end of the reporting quarter, or as noted by specific report. If the last calendar day falls on a Saturday, Sunday, or state holiday, then the quarterly report deliverables are due by close of business of the next full business day.

Unless otherwise stated, the reporting periods and submission dates for quarterly reporting are as follows:

Report Period	Submission Due
January – March,	April 30 th
April – June,	July 31 st
July – September	October 31 st
October – December	January 31 st

Certain reports reflect different reporting periods, and these differences are defined in the detailed reporting specifications within this document.

3.3.1.3 Requirements

Include providers participating in Medicaid and FAMIS.

**Virginia Department of Medical Assistance
Managed Care Technical Manual**

The complete provider file; i.e., all PCPs, specialists, and subcontractor networks (this includes transportation, psychiatric, optical, and/or pharmacy, etc.) must be submitted. The entire network should be in a single file submission, formatted as above; not separate files.

Include only network participating providers. Do not include any out of network providers in this file.

For providers with multiple service office locations, each office location must be listed on a different line.

Each provider and service location should be listed only once in the MCO's submission. Do not include multiple lines for the same provider and location with different class types / taxonomy values. Provide the primary class type / taxonomy code only.

The address provided should represent the provider's actual servicing address (not billing, mailing, or corporate). Do not submit P.O. boxes for the provider's servicing address.

Provider last name field must contain the valid individual or business name for the NPI/API provided. Do not use default values for the provider last name.

3.3.8.3 Requirements

Include members enrolled in Medicaid and FAMIS.

Only include members whose total year to date MCO payment amount for all drug costs for the current contract year is over the \$150,000 threshold. Include pharmacy, physician, and outpatient hospital costs.

Data submitted each quarter must be cumulative year to date. For example, if a member exceeds the threshold in the first quarter, then report all drug costs associated with that member in each successive quarter along with any new prescription drug costs. In other words, each quarterly submission will be a full replacement file.

**Virginia Department of Medical Assistance
Managed Care Technical Manual**

Submit final adjudicated paid claims only. If a claim that was previously submitted in a prior quarter but was subsequently voided, do not submit this claim in the current quarter.

In order to be processed for reimbursement by DMAS, MCO reinsurance requests must be submitted within five (5) business days of the due date specified for this deliverable.

Any submitted claim records that do not meet the specifications (editing criteria) specified for this deliverable in the MCTM will not be accepted and not considered for reimbursement.

4 DMAS Reports

**Virginia Department of Medical Assistance
Managed Care Technical Manual**

4.1 Reports Generated by DMAS

The following reports are prepared by DMAS and sent to the MCOs.

DMAS has established a secure FTP server for transfer of files with the MCOs, and each MCO has its own secure login. All DMAS reports will be transmitted via DMAS' secure FTP server and should be picked up by the MCO.

The Department will notify the MCO in a timely manner of any changes to the reporting requirements. Changes may be communicated via memo or electronic.

4.1.2.3 Description

Identifies recipients assigned to the MCO (current and new enrollees) who have an estimated date of delivery (EDD) in the MMIS system. (EDD dates are entered by DSS.) The report also uses FFS and encounter claims to identify providers used by the recipient by practitioner type (05) and provider specialty codes (062 –OB/Gyn). This information should assist the MCO in identifying the OB/GYN their member has used to seek prenatal care. The pregnancy report is

**Virginia Department of Medical Assistance

useful in identifying pregnant women as early as possible in order to encourage their enrollment into the MCO's pregnancy or high-risk pregnancy programs, as well as facilitate possible transition of care to a network provider, if required.

4.1.3.3 Description

This report is generated monthly by DMAS' enrollment broker, Maximus, and forwarded to the MCOs around the 18th of the month. The report identifies the total number of recipients in each plan who have contacted the Managed Care Helpline to change MCOs and the reasons for the changes. This report does not contain recipient-specific information but rather is to provide the MCOs with information about why recipients are moving from their health plan. This report may be helpful in identifying potential access issues, barriers, etc.

4.1.4.3 Description

This report reflects FFS claims on enrolled MCO recipients that have received services in the prior 6 months for the following carved-out community mental health services/codes: H0006, H0015, H0018, H0020, H0023, H0031, H0032, H0035, H0036, H0039, H0046, H0047, H0050, H2012, H2016, H2017, H2019, H2020, and H2022. This report also identifies the number of units for the service, and the servicing provider's NPI number. Although the services/codes listed above are carved-out from the MCO contract, this information is provided to help identify

4.1.7.3 Description

This report identifies recipients on the 820 file who were not on the previous month's mid-month 834. Most of these "additions" are newly added newborns so close attention should be paid to the ID numbers and dates of birth. This information should be used to "link" the newborn's new identification number with the identifiers the MCO has in their file reflecting this newborn as their member.

Schedule: If possible, DMAS will send this file the week following the MCO submission of the NB_Recon_yyyymm file (see Section 3.2.17). However, delivery of this report may be delayed if payments need to be generated through the MMIS capitation claim process.

Any response files must be submitted by the MCO within ten business days of DMAS' posting the NB_Recon_Return file to the FTP. Submit the response file in Excel Format to the DMAS email box at MCOhelp@dmass.virginia.gov. Include the file name, NB_Recon_Return_yyyymm, in the email Subject line.

DMAS: Systems & Reporting

4.1.20.3 Description

This file is generated from the validation of the MCO Newborn Reconciliation file (**NB_Recon_yyyymm**) submission against MMIS data. The return file contains the data fields submitted by the MCO, additional fields validating the MCO data submission and payment information for the MCO newborn.

The payment information identifies: 1.) the payment amount for the newborn for all three months (BM1, BM2, and BM3); 2.) whether the payment was made by the MMIS (ICN Ref Number provided), or the payment will be made through the offline reconciliation process or that no payment will be made. If no payment will be made, the nonpayment reason is provided in the field DMAS Comment.

A payment will not be processed for the following reasons:

- MOM not in MCO on NB DOB
 - The mother of the newborn must be enrolled in the MCO benefit plan on the newborn's DOB
- NB Deceased (date of death provided)
 - Payment is not processed if the newborn's date of death is a month prior to the BM2 or BM3
- NB in different MCO
 - Newborn changed MCO's for BM2 and/or BM3 and payment was made to that MCO
 - The MCO in which the newborn was enrolled is provided for claims coordination
- NB not found - No Paid Encounter for Live Birth Delivery
 - Newborn was not found in the MMIS and DMAS was unable to locate a paid encounter from the MCO for the live birth delivery

MCO Comment

**Virginia Department of Medical Assistance
Managed Care Technical Manual**

- The MCO may submit a response file for that newborn and provide the reference number in the MCO Comment field for the paid encounter submitted for the mother for the live birth so that DMAS can research and verify the delivery.

The Return file will include 4 Worksheets tabs:

- **ALL** – Includes all newborns submitted by the MCO on the NB_Recon_yyyymm file. Each newborn will have 3 rows with enrollment/payment information for all three months, BM1-Birth Month, BM2-Birth Month Plus 1, BM3-Birth Month Plus 2.
- **OFFLINE** - A subset of the **ALL** worksheet. Only includes the Newborns for which DMAS **is making** an Offline payment.
- **No Pymt** – A subset of the **ALL** worksheet. Only includes the Newborns for which DMAS **is not making** an Offline payment.

Certify - A Newborn Reconciliation Certification is included with the return file. The certification is acknowledgement that payment will be made for the payment amount for the newborns identified on the return file. The payment amount will be broken down into 2 payments, one for Medicaid and one for FAMIS and the Total. Once the Certification is signed and received from the MCO, the Newborn Reconciliation File is processed for payment. The signed document should be scanned and submitted using the file name **NB_Recon_CertLetter_YYYYMMDD** in .pdf format through the FTP site. When the signed Certification is received, the Add pay will be processed for payment.

Variable	Description
CRITICAL ISSUES	
ISSUE	Description of the issue being reported. All issues are documented in Section xx of this document.
ESC	Lists the specific MMIS ESC errors present in the MCO data that caused this reported issue.
MONTH	The month in which the error occurred. Report periods are based on file submission dates within the calendar month.
WEEKS	Count of the number of weeks during the report month in which this issue occurred.
ISSUES	Total number of issues identified.
ENCNTRS	Unique count of encounter records on which one or more issues were identified.
COST	DMAS cost of encounter transaction processing for the reported issue.

Variable	Description
EMERGING ISSUES	
ERROR/ESC	MMIS ESC or specific error condition that was present on the encounter causing the issue to set.
ISSUE	Description of the issue being reported. All issues are documented in Section xx of this document.
IMPDTE	The tentative effective date for transition of the emerging issue to the critical issue category.
WEEKS	Count of the number of weeks during the report month in which this issue occurred.
ENCNTRS	Unique count of encounter records on which this particular ESC or error condition was identified.
SUBMITTED FILES	
SUBMITTED	Date that the EDI encounter file was submitted to and accepted by DMAS
DAY	Day of the week associated with 'SUBMITTED' date.
MCN_NUMBER	Unique file identifier assigned by DMAS for the file submitted by the MCO.
TYPE	Type of encounter transaction file. Valid values are" NCPDP, 837I, 837P.
ENCNTRS	Number of encounter records that passed compliance and were processed in MMIS for the submitted file.
CERTIFICATION	Flag indicating whether the MCO provided a certification for the submitted file.

4.1.24.3 Description

Refer to section 1.5 in the Managed Care Technical Manual for additional information.

Note that not all Issues have MMIS ESC codes associated with them.

Critical Issue Cost is calculated as the total number of unique encounters to be corrected multiplied by DMAS' encounter transaction processing cost multiplied by the total number of transactions incurred because of the error (original + void/credit). Does not include costs associated with re-submittal of corrected encounter.

5.1.2 Incarcerated Members

New process effective 07/01/2012:

- MCO completes the Incarcerated Member form within 48 hours of identification. All required fields must be submitted in order to be processed.
- MCO submits completed form to DMAS via the DMAS secure FTP server.
- After receiving the MCO form, the DMAS Managed Care Contract Monitor creates a case record in the HCS Case Tracking System and assigns to Enrollment Analyst.
- Enrollment Analyst contacts facility to confirm incarceration and dates.
- After confirming member incarceration, the Enrollment Analyst retroactively cancels the member's managed care benefit based effective with the day before the date of incarceration.
- As necessary, the Enrollment Analyst will exempt the member from future managed care enrollment.
- The DMAS Eligibility and Enrollment Unit (EEU) will notify the member, close Medicaid eligibility (advanced notice is not required for these individuals), and notify the appropriate DSS Supervisor and DSS Regional Eligibility Specialist of the case closure. EEU will also handle any appeals regarding the enrollee's Medicaid cancellation.
- If the recipient WAS incarcerated but has already been released by the time DMAS receives the information, or is to be released within the month in question, then no action will be taken to end the MCO enrollment or the Medicaid coverage. The case will be referred on to the DMAS Recipient Audit Unit (RAU) for follow-up on any claims/encounters paid during the period of incarceration.

5.1.3 Newborn Reconciliation

5.1.3.1 Newborn Processing

The Medallion 3.0 Contract at 5.7 requires the MCO to cover MCO (live birth) newborns for the birth month plus two additional months when the mother was enrolled in the MCO on the newborn's date of birth. The newborn reconciliation process provides an offline payment to the MCO for newborns when a capitation payment was not made through the MMIS on the 820 payment report. The reconciliation process occurs after the newborn turns age one.

The newborn MCO enrollment process updates the mother's MCO benefit on the newborn's ID. In order for this to occur, the mother's ID must be associated with the newborn ID in the MMIS. Once the association is made between the mother and the newborn, the MMIS will update the MCO benefit for the newborn and the capitation payment is made through the MMIS on the 820 payment report. DMAS utilizes your Live Birth report to identify these newborns to create the linkage and generate the payment through the MMIS 820 reimbursement process. Timely and accurately submission of the Live Birth report provides DMAS staff the opportunity to identify enrolled newborns and connect the mother ID allowing most payments to be made through the MMIS prior to the newborn turning age one. Once a newborn turns age one, the MMIS is not able to up the MCO benefit retroactively for the birth month+2.

There are some instances where even when the linkage is made between the mother and newborn, and the newborn has eligibility coverage in the MMIS that the MCO benefit is not updated for the newborn. The primary reason is that the newborn has other insurance (TPL) and MMIS edits will not allow managed care benefits to update with certain TPL coverages. Regardless if the MCO benefit is not updated on the newborn ID, the MCO is responsible for the newborn for the birth month+2 and payment will be processed through the reconciliation process.

5.1.3.2 Newborn Payment Calculation

For standardization and consistency missing payments for the newborn reconciliation are calculated as follows:

1. Newborn has eligibility in the MMIS:
 - Payment is calculated using:
 - Newborn's MMIS AC for the month in which the payment is missing and
 - FIPS code for the Mother ID in the MMIS on newborn's DOB
2. Newborn has no eligibility in the MMIS (Newborn ID not found):
 - DMAS will validate the live birth by verifying that an encounter was submitted by the MCO for the Mother ID for a live birth delivery
 - Payment is calculated using:
 - Mother ID's AC on Newborn DOB,
 - If AC is Medicaid – AC 093 is used for payment,
 - If AC is 005 or 009 (FAMIS) - AC 008 is used for payment,
 - If AC is 007 (FAMIS) – AC 006 is used for payment
 - FIPS code for Mother ID on the newborn DOB submitted by the MCO

Virginia Department of Medical Assistance Managed Care Technical Manual

A payment will not be processed for the following reasons:

- Newborn enrollment was cancelled for death and the date of death was in month prior to the birth month+2. Payment is made for partial month enrollment.
Example: DOB is 7/15/2012, date of death is 8/02/2012. The reconciliation process would issue a payment for 7/2012 and 8/2012 if a payment was not made by the MMIS. No payment is made for 9/2012.
- Newborn changed MCOs after the BM1 and was enrolled in a different MCO for BM2 and/or BM3. Payment is not made for BM2 and/or BM3 to the MCO that the mother was enrolled in on the newborns DOB BM1.
Example: Mother was enrolled in MCO A on newborns DOB. Newborn enrolled in MCO A for BM1. Newborn/mother chose different MCO and was enrolled in MCO B for BM2 and BM3. No payment is made to MCO A for BM2 or BM3.
- Mother ID submitted not enrolled in MCO on Newborn DOB
- Newborn not enrolled in MMIS on DOB submitted. Newborn DOB submitted by MCO does not match MMIS DOB, month is different. MCO needs to resubmit on the correct monthly report.
- Newborn ID not found in the MMIS and a paid encounter was not submitted by the MCO for a live birth delivery for the Mother ID.
 - The MCO can submit a response and include the reference number for the paid live birth encounter in the comment field. DMAS will research the reference number and if the live birth is verified, correct the NB_Recon_Return_yyyymm to include the payment information. A new Certification form will be included to reflect the corrected offline payment amount.

5.1.3.3 Newborn Reconciliation Processing

The newborn reconciliation process consists of a monthly **NB_Recon_yyyymm** file submission from the MCO identifying newborns where a payment was not made on the MMIS 820 payment report. DMAS will validate the data submitted and return the **NB_Recon_Return_yyyymm** file to the MCO. The **Newborn Reconciliation Certification** is included with the return file. The Certification identifies the payment amount that will be processed for the MCO for newborns included on the reconciliation **NB_Recon_Return_yyyymm** file. The payment amount will be broken down into 2 payments, one for Medicaid and one for FAMIS and the total. Once the Certification is signed by the MCO and received by DMAS, the payment will be processed. The MCO will receive 2 checks one for the Medicaid amount and one for the FAMIS amount.

- **MCO Newborn Reconciliation File (NB_Recon_yyyymm)**
Report all newborn live births that occurred during the reporting period where payment was not received for the Birth Month (BM1), and/or Birth Month+1 (BM2), and/or Birth Month+2 (BM3). See File layout at Section 3.1.x.
- **DMAS Newborn Reconciliation Return File (NB_Recon_Return_yyyymm)**
DMAS will validate the report against MMIS enrollment and payment information and provide a return file to the MCO indicating that: (1) a payment was made by the MMIS, (2) an Offline payment will be made with the calculated amount, or, (3) a payment will not be processed. See File layout at Section 4.1.x.
- **MCO Response to DMAS Newborn Reconciliation Return File (NB_Recon_Return_yyyymm)**

**Virginia Department of Medical Assistance
Managed Care Technical Manual**

The MCO may submit a response file by email and include information in the MCO Comment field for any newborn where payment was not received. Information should provide the reference number for the paid encounter submitted for the mother for the live birth so that DMAS can research and verify the delivery. Once DMAS has researched the information provided by the MCO, either a new **DMAS Newborn Reconciliation Return File** will be generated with the revised payment amount or an email response will be sent.

5.1.3.4 Newborn Reconciliation Payment

The Add pay will be processed when the signed Certification is received. 2 payments will be processed, one for the Medicaid payment amount and one for the FAMIS payment amount.

**Virginia Department of Medical Assistance
Managed Care Technical Manual**

5.1.4 Assessment Population Determination

The Medallion 3.0 Contract requires the MCO to assess members who meet certain aid category and enrollment timeframes. MCOs should identify potential members based on aid category and then determine if the member meets the enrollment criteria for the ABD/CSHCN Assessments Report (Section 3.2.6). Members should be assessed within the timeframes specified in the Assessments Report deliverable.

5.1.4.1 Members Requiring Assessment

Per the Medallion 3.0 contract, members must be assessed by the MCO when they fall into one or more of the eligible category groups:

- Member is in Aid Category 049, 051, 052, 059, 060, 061, 062 (ABD), 072 (AA), and/or
- Member is enrolled in the early intervention benefit (01010100EI), and/or
- Member has one or more special needs as specified in the Managed Care contract, and/or
- Member is enrolled in one of the HAP waiver benefits (01010100S, 01010100T, 01010100R, 01010100Y, 010101009). The assessment requirement for HAP members was added in Contract Modification (Amendment Number III) dated 12/01/2014. (DMAS' evaluation of HAP members will start effective with June 1, 2015 member enrollments.)

The enrollment status of members who belong to one or more of the eligible category groups should be evaluated for the previous six months. Only new or newly identified members are eligible to receive an assessment. A new or newly identified member is defined as a member who is on the 'current' EOM 834, but who did not meet the above criteria / was not on the EOM 834 files in all of the previous **six months**. The following table details the applicable enrollment look-back period for each enrollment begin date:

Once the newly enrolled or newly-identified members are determined, the MCO should make every effort to assess the member. However, if a member is not continuously enrolled with the MCO or has a change in aid category during the 60 days after enrollment or identification, then the MCO is not responsible for reporting the assessment of the member. Members whose enrollment was terminated or who had a change in aid category during the 60-day post-enrollment period should not be included in the ABD/CSHCN Assessment Report. The following table provides the applicable enrollment date and 60-day post enrollment period for each report submission.
