CDC Guidelines for NEMT Transport

- Drivers and passenger must wear a facemask or cloth face covering at all times
- Drivers and passengers of these vehicles should avoid or limit close contact (within 6 feet) with others
- Drivers are required to practice regular hand hygiene and avoid touching their nose, mouth, and eyes
- Drivers should avoid picking up multiple passengers who would not otherwise be riding together on the same route or if the vehicle is not large enough to maintain social distancing

General Guidelines for Cleaning and Disinfecting the Vehicle

- The vehicles must be cleaned and disinfected at the beginning and end of each shift and between passengers
- Doors and windows should remain open when cleaning the vehicle
- Driver should wear disposable gloves
- Vehicle should be cleaned with Alcohol Solutions with at least %70 alcohol or diluted household bleach solutions
- Items to be cleaned include seats, arm rests, door handles, seat belt buckles, light and air controls, doors and windows, and grab handles
