

BROADCAST DMAS 91

DATE: March 2, 2022

TO: Local directors and Medicaid staff

FROM: Cindy Olson, Director, Eligibility and Enrollment Services Division, Department of Medical Assistance Services

SUBJECT: Medicaid LTSS Screenings system unavailable from March 28, 2022, through April 3, 2022

CONTACT: ScreeningAssistance@dmas.virginia.gov

The purpose of this broadcast is to alert local departments of social services to an issue that will occur the last week of March 2022.

The system that holds the electronic Medicaid Long Term Services and Supports (LTSS) Screenings will be offline from March 28, 2022, until April 4, 2022, when the Medicaid Enterprise System (MES) launches. Additionally, the "view" function to see assessments in the Medicaid Management Information System (MMIS) will be offline during that time period. As a result, ScreeningAssistance@dmas.virginia.gov will not be able to provide copies nor screenshots of LTSS Screenings (specifically the DMAS-96) to eligibility workers who request copies of screening documentation during that time period.

Please contact ScreeningAssistance@dmas.virginia.gov with any questions.
