MCO COMPLIANCE ENFORCEMENT

The Department of Medical Assistance Services (DMAS) actively monitors the performance of all Managed Care Organizations (MCOs) under the Cardinal Care Managed Care (CCMC) contract. The Office of Compliance issues compliance enforcement actions whenever an MCO is found to be out of compliance with the CCMC contract. Section 17 of the CCMC contract provides the Department's Oversight and Compliance Enforcement Process, including the Compliance Point System and escalating Point Violations. *(See Contract References for relevant excerpts from Section 17: Oversight)*

The Department issues enforcement actions under the contract in force when the identified non-compliance occurred. The new Virginia Medicaid Cardinal Care Managed Care contract (2025-2026) associated with the procurement of the Cardinal Care Managed Care Program under RFP 13330 took effect July 1, 2025. Molina Healthcare was no longer a CCMC MCO after June 30, 2025. Humana Healthy Horizons of Virginia joined the CCMC program as an MCO starting July 1, 2025.

As this report covers compliance deliverables and referrals received in June 2025 prior to the implementation of the new CCMC contract, all enforcement actions issued in July 2025 were applied to the previous CCMC contract's point schedule.

CONTRACT REFERENCES

17 OVERSIGHT

17.1 Contract Violations

Upon completion of the Readiness Review, as described in Section 2.7, *Contractor Readiness Reviews*, and at the Operational Start Date of this Contract, the Contractor must meet or exceed all the performance standards that are part of this Contract. The Department is responsible for conducting ongoing Contract compliance monitoring and enforcement and reserves the right to impose any and all remedies available under the Contract, law, and regulations. These remedies include, but are not limited to, intermediate sanctions, escalating compliance enforcement actions, liquidated damages, and/or termination of the Contract as described in Section 21.1.62, *Termination of Contract*. In no event will the application of any remedies preclude the Department's right to any other remedy available in law or regulation.

As part of this process, the Department will review the performance of the Contractor in relation to the performance standards outlined in this Contract and those described in the Cardinal Care Technical Manual, Encounters Technical Manual, and in any other applicable DMAS directive. Compliance enforcement actions related to performance standards are described in Section 17.2.2, *Escalating Compliance Enforcement Points Violations* and 17.2.3, *Liquidated Damages*.

The Department's compliance monitoring program includes:

1. Collecting and reviewing standard hard copy and electronic reports and related documentation, including Encounter and other data, which the Contractor is required, under the terms of this Contract, to submit to the Department or otherwise maintain;
2. Conducting Contractor, Network Provider, and Subcontractor site visits; and
3. Reviewing Contractor policies and procedures, and other internal documents.

17.2 Compliance Enforcement Process

A maximum of one (1) compliance enforcement action will be applied by the Department per individual Contract violation and/or failure to meet a performance standard, however, unresolved or ongoing non-compliance may result in the escalation of compliance enforcement actions. The Department reserves the right to impose any applicable compliance enforcement action upon discovery of non-compliance or violation that was not previously known or reported to the Department.

Monetary compliance enforcement actions, including the assessment of liquidated damages or imposition of financial sanctions issued through the Department's compliance enforcement process, will be deducted from the Contractor's monthly Capitation Payment. Deductions will be initiated within thirty (30) calendar days of the end of the comment period described in any issued compliance letters, unless disputed through the process described in Section 20, *MCO Contract Disputes*. Each month is a separate period for measuring the Contractor's performance and any failure to achieve the required performance standards.

If any failure to meet a performance standard is directly and solely attributable to the following, the Department will not take compliance enforcement action(s) against the Contractor:

1. A force majeure event;
2. Actions or omissions of the Department or a breach by the Department of the Contract; or
3. Unforeseeable actions or omissions by a third party outside of the Contractor's reasonable control (any action or inaction taken by a third party that causes an adverse effect on the Contractor's ability to provide the Services to meet the performance standard(s) under the Contract).

The Department has sole discretion in determining if the failure to meet a performance standard directly and solely attributable to the circumstances provided in (1) through (3) of this paragraph. The use of Subcontractors is foreseeable and any actions or omissions by a Subcontractor are within the Contractor's reasonable control.

If the Contractor is unable to meet a performance standard or requirement due to circumstances that are not within its control (i.e. force majeure event, etc.) a written request may be submitted to the Department to temporarily waive any/all or part of a particular day, month, or period of when such occurrence took place. Any such requests must be received within five (5) Days of the occurrence or period, whichever comes first, and detail why the expected standard or requirement could not be met in its entirety. Exceptions must be reviewed on an occurrence-by-occurrence basis by the Department. The Department's approval of an exception request for a performance standard or requirement is not deemed a waiver of any compliance enforcement action or remedy available to the Department under the Contract, law, or regulation.

Each performance standard is unique unto itself. If the failure to meet a performance standard affects another performance standard, each will be treated separately and an appropriate liquidated damages or other remedies will apply.

17.2.1 Compliance Point System

The Department and the Contractor agree that if the Contractor or its Subcontractor violates the Contract or fails to meet a performance standard, the Contractor will be subject to the compliance point system described in this Contract in addition to any remedies the Department may have pursuant to the Contract, law, or regulation. The Department will evaluate non-compliance based on factors that include, without limitation, the severity of the incident, likelihood of incident recurrence, and totality of circumstances surrounding the incident.

The Department will utilize a compliance point system in response to the Contractor's, or its Subcontractor's, non-compliance with the standards and requirements outlined in this Contract and all technical manuals incorporated by reference. Points will be issued for each incident of non-compliance as outlined in Section 17.2.2, *Escalating Compliance Enforcement Points Violations*. Contractor compliance from the previous calendar month will be reviewed by the Department on a monthly basis and any points issued will accumulate over a rolling twelve (12)-month schedule. The failure to resolve a compliance issue in the timeframe specified by the Department will result in a new, escalated compliance action as detailed in Section 17.2.2, *Escalating Compliance Enforcement Points Violations*.

As compliance points accrue, escalating Contract Enforcement Actions will apply. These escalating compliance enforcement actions, including liquidated damages as described in the chart below, will be assessed each month in which the Department issues new points to the Contractor because of any new compliance violations. The liquidated damages assessed will be based on the total number of points the Contractor has accumulated through the current month. For example, if the Contractor has accumulated one (1) point during the previous twelve (12) months and is issued a five (5) point violation, no liquidated damages would be assessed as a result of the new five (5) point violation because the Contractor's accumulated points would total six (6) for the twelve (12)-month period. However, if the Contractor has accumulated ten (10) points during the previous twelve (12) months and is issued a five (5) point violation, \$15,000 in liquidated damages will be assessed in response to the new five (5) point violation because the Contractor would now have accumulated fifteen (15) total points. Compliance enforcement action, including liquidated damages, will not be assessed under this Section if the Contractor is not issued any new points for non-compliance for the current month.

Compliance Point System (CPS) Level	Points Accumulated During Twelve (12)-month Period	Compliance Enforcement Actions
Level 1	0-10	None
Level 2	11-25	\$15,000 liquidated damages
Level 3	26-50	\$30,000 liquidated damages
Level 4	51-70	\$60,000 liquidated damages
Level 5	71-100	\$90,000 liquidated damages
Level 6	101-150	Suspend Enrollment
Level 7	>150	Termination, at the sole option of DMAS
