M0410.000 MODIFIED ADJUSTED GROSS INCOME (MAGI) M0410.100 MAGI GENERAL INFORMATION

A. Introduction *Effective* October 1, 2013, determinations of eligibility for most families and children (F&C) Medicaid covered groups and the Family Access to Medical Insurance Security Plan (FAMIS) *were completed* using the Modified Adjusted Gross Income (MAGI) methodology.

Effective January 1, 2019, determination of eligibility for adults age 19-64 without Medicare *were* evaluated using MAGI income methodology. These individuals are referred to as MAGI Adults.

MAGI methodology is also used to determine eligibility for *Premium Tax Credits through Virginia's* Insurance Marketplace. Medicaid, FAMIS and *Virginia's* Insurance Marketplace (VIM) are called insurance affordability programs. Medicaid and FAMIS are collectively referred to as medical assistance (MA) programs.

For all case actions effective October 26, 2019, verification of earned and unearned income *were* evaluated using attested income and reasonable compatibility rules. Whenever possible, income reported on the application *are* verified through electronic data sources.

The goal of using MAGI methodology for all insurance affordability programs is to align financial eligibility rules, provide a seamless and coordinated system of eligibility and enrollment, and maintain the eligibility of low-income populations, especially children.

A federal mandate requires that as of January 1, 2024, all children under 19 receive 12 months of continuous eligibility unless they reach age 19; are no longer Virginia residents; the child or child's representative requests eligibility be closed; the agency determines that eligibility was incorrectly approved because of agency error or fraud, abuse, or perjury attributed to the child or the child's representative; or the child is deceased.

B. Legal Base The Patient Protection and Affordable Care Act of 2010 (Pub. L. No. 111-148), as amended by the Health Care and Education Reconciliation Act of 2010 (Pub. L. No. 111- 152) (collectively referred to as the Affordable Care Act [ACA]) is the legal base for the changes required to be made in the Medicaid and CHIP (FAMIS) eligibility determinations. The 2018 Appropriations Act provided funding for New Health Coverage Options for Virginia Adults. Effective January 1, 2019, determination of eligibility for adults between the ages of 19-64 without Medicare will be evaluated using MAGI income methodology. Adults eligible under the expansion of coverage will be referred to as Modified Adjusted Gross Income (MAGI) Adults. Individuals in the MAGI Adults covered group are not subject to a resource test unless the individual requests Medicaid payment for LTC/LTSS. The resource and home equity requirements for MAGI Adults are contained in M1460.

MAGI and household income are defined in section 36B(d)(2)(A) and (B) of the Internal Revenue Service Code (IRC). The MAGI-based methodology under the Medicaid statute includes certain unique income counting and household (HH) composition rules reflected in the Centers for Medicare and Medicaid Services (CMS) regulations at 42 CFR 435.603 and discussed in section III.B. of the preamble to the eligibility final rule published in the Federal Register on March 23, 2012.

C. Policy Principles

1. What is MAGI is a methodology for how income is counted and how household composition and family size are determined and is based on federal tax rules for determining adjusted gross income (with some modification), and has no resource test (Exception: MAGI Adults requesting coverage of Long Term Care services are subject to certain asset/resource requirements).

- has no resource test (Exception: MAGI Adults requesting coverage of Long Term Care services are subject to certain asset/resource requirements)
- MAGI has an income disregard equal to 5% of the federal poverty level (FPL) for the Medicaid or FAMIS individual's household size. The disregard is only given if the individual is not eligible for coverage due to excess income. It is applicable to individuals in both full-benefit and limited-benefit covered groups.
 - If the individual meets multiple Medicaid covered groups (and/or FAMIS) his gross income is compared first to the income limit of the group with the highest income limit under which the individual could be eligible.
 - If the income exceeds the limit, the 5% FPL disregard can be allowed, and the income again is compared to the income limit.
 - When considering tax dependents in the tax filer's household, the tax dependent may not necessarily live in the tax filer's home.
 - Under MAGI counting rules, an individual may be counted in more than one household but is only evaluated for eligibility in his household.
 - Use non-filer rules when the household does not file taxes.
 - Use non-filer rules when the applicant is claimed as a tax dependent by someone outside the applicant's household.
 - Non-filer rules may be used in multi-generational household.
- 3. Eligibility Based on MAGI
 MAGI methodology is used for eligibility determinations for insurance affordability programs including Medicaid, FAMIS, the Advance Premium Tax Credit (APTC) and cost sharing reductions through the Health Insurance Marketplace for the following individuals:
 - a. Children under 19
 - b. Parent/caretaker relatives of children under the age of 18 Low Income Families With Children (LIFC)
 - c. Pregnant women, including FAMIS MOMS and FAMIS Prenatal Coverage
 - d. Individuals Under Age 21
 - e. Adults between the ages of 19 and 64 not eligible or enrolled in Medicare (effective January 1,2019)
 - f. Individuals in Plan First.

Based on

MAGI

- 4. Eligibility MAGI methodology is NOT used for eligibility determinations for: NOT
 - a. individuals for whom the eligibility worker is not required to make an income determination:

- Supplemental Security Income (SSI) recipients.
 - IV-E foster care or adoption assistance recipients
 - Deemed newborns
 - BCCPTA (Breast and Cervical Cancer Prevention and Treatment Act) enrollees
 - Auxiliary Grants.
 - b. individuals who are eligible on the basis of being aged (age 65 or older), blind or disabled;
- individuals eligible for or enrolled in Medicare;
- individuals evaluated as Medically Needy (MN);

5. Adoption
 Assistance child with special needs for medical or rehabilitative care is subject to MAGI methodology for the child's initial Medicaid eligibility determination. These children are in their own household apart from parents and siblings. Parents' and siblings' income is not counted for these children.

Assistance Children with Special Needs for Medical or Rehabilitative Care

6. MAGI Adults

- a. MAGI methodology is used to determine eligibility for the following individuals with income at or below 138% (133% + 5% disregard) of the Federal Poverty Limit:
- Parents and caretaker- relatives with excess income for LIFC
- Disabled individuals not eligible for or entitled to Medicare or individuals alleging disability who have not been determined disabled
- Childless adults ages 19-64
- Incarcerated individuals ages 19-64. Incarcerated individuals are eligible for inpatient hospital services only; inpatient hospitalization may include long-term inpatient services, such as admission to a rehabilitation facility.
- Non-citizens eligible for emergency services only
- Individuals eligible for Long Term Care Services and Support (LTSS) ages 19-64 Note: See Chapter M14 for LTSS screening requirements.
- b. The following individuals are not eligible under the MAGI ADULTS group:
- Individuals pregnant at initial application or redetermination of eligibility
- Individuals under the age of 19 or 65 and over
- Individuals eligible for or enrolled in Medicare Part A or B

8. Family means the tax filer (including married tax filers filing jointly) and all claimed tax

dependents.

- **9. Family Size** means the number of persons counted as an individual's household. The family size of a pregnant woman's household includes the pregnant woman plus the number of children she is expected to deliver. When determining the family size of other individuals who have a pregnant woman in their household, the pregnant woman is counted as just one person.
- 10. Household A household is determined by tax dependency. Parents, children and siblings are included in the same household. A child claimed by non-custodial parent is evaluated for eligibility in the household in which he is living and is also counted in the family size of the parent claiming him as a dependent. There can be multiple households living in the home.

This definition is different from the use of the word household in other programs such as the Supplemental Nutrition Assistance Program (SNAP).

- 11. MAGIis an individual between the ages of 19-64 who is not eligible for or enrolled in
Medicare and who has income at or below 138% of FPL.
- 12. Non-filer Household means individuals who do not expect to file a Federal tax return and/or do not expect to be claimed as a tax dependent for the taxable year in which an initial determination or renewal of eligibility is being made. A non-filer household can also be a child who lives in the household with his custodial parent who is claimed on his non-custodial parent's taxes.
- **13. Parent** for the purposes of MAGI methodology, means a natural, biological, adoptive, or stepparent. When both the child's parent and stepparent are living in the home with the dependent child, both may be eligible in the LIFC covered group.
- 14. Reasonable Compatibility means the income attested to (declared) by the applicant is within 20% of income information obtained from electronic sources OR that both the attested income and any electronic income verification are below the applicable income limit. If the income from both sources meets the 20% requirement or the income from both sources is below the limit, then the attestation is considered verified.

The applicant's income reported on the application is compared through a match with income verification available from electronic income sources. The eligibility/enrollment system will compare the reported income with the income from the data match and determine if reasonable compatibility exists. If reasonable compatibility exists, the income will be labeled verified, and no further verification of the income is necessary.

If reasonable compatibility does not exist or income data was not available through available electronic sources and the attestation is below the medical assistance income level, additional verification of income is required.

- 15. Sibling means a natural, biological, stepsibling or half-sibling.
 16. Tax-Dependent means an individual for whom another individual claims a deduction for a personal exemption under section 151 of the Internal Revenue Code of 1986 for a taxable year.
- 17. Tax-filer means individuals who expect to file a Federal tax return and/or who expect to be claimed as a tax dependent for the taxable year in which an initial determination or renewal of eligibility is being made.
- 18. Tax Filing Threshold

 is the minimum amount of income an individual must earn in order to be required to file a federal income tax return. The amount varies depending on the individual's age, marital status and number of dependents. The amount generally changes annually.

M0430.100 MAGI HOUSEHOLD COMPOSITION

A.	Introduction	The household composition is the basis for the financial eligibility determination for each person in the home who applies for MA. Eligibility is based on the countable income of the household members.
		Included in the MAGI household composition are:
		 stepparents and stepchildren, children/siblings with income, children ages 21 and older who are claimed as tax dependents, and adult tax dependents.
В.	Household Composition Rules	 Tax filers and tax dependents use the tax household rules with limited exceptions. In most cases, the household is determined by principles of tax dependency. Parents, children and siblings are included in the same household. Stepparents and parents are treated the same. Children and siblings with or without income are included in the same household as the rest of the family. Older children are included in the family if claimed as tax dependent by the parents. Married couples living together are always included in each other's household even if filing separately. Married couples that are separated and not living together but file jointly are not included in each other's household. Dependent parents may be included in the household if they are claimed for income tax purposes.
	1. Tax Filer Household Composition	The tax filer household is determined based on the rules of tax dependency. Parents, children and siblings are included in the same household. The tax filer's household consists of the tax filer and all tax dependents who are expected to be claimed for the current year . This could include non-custodial children claimed by the tax filer, but living outside the tax filer's home and dependent parents claimed by the tax filer, but living outside the tax filer's home.

• For non-filers, a "child" is defined as under age 19.

4. Married Couple In the case of a married couple living together, the spouse is always included in the household of the other spouse, regardless of their tax filing status. This includes a tax dependent living with both a tax filer parent AND the dependent's spouse. The tax dependent's household includes his spouse, the tax filer, any other parent in the home, and any siblings in the home who are also claimed by the same tax filer.

5. Tax Filer is Under Age 19If the tax filer is under age 19, lives in the home with his parent(s) AND is not expected to be claimed as a dependent by anyone, the parent(s) are included in the child's household.

6. Gap-filling Rule States are required to use household income, as calculated by the federal HIM for the APTC eligibility determination, to determine eligibility for Medicaid or FAMIS if all of the following conditions apply:

- *a. The individual is in a tax filer household* (including those who meet a tax dependent household exception in M0430.100 B.2). APTC methodology does not apply to non-filer households.
- **b.** Current monthly household income, using Medicaid/FAMIS MAGI-based methods is over the applicable *monthly* income limit (including the 5% FPL disregard) for the individual's covered group.
- *c.* The *total* income already received *plus* projected income for the **calendar** year in which eligibility is being determined, using MAGI methods applied by the HIM for the purposes of APTC eligibility, is below 100% FPL (i.e. the lower income threshold for APTC eligibility). See M04, Appendix 1.

This requirement is referred to the gap-filling rule. See M0450.400 for gap-filling rule evaluation procedures and examples.

M0430.200 TAX FILER HOUSEHOLD EXAMPLES

 A. Married Parents and Their Tax Dependent Children
 Sam and Sally are a married couple. They file taxes jointly and claim their two children Susie and Sarah as tax dependents. All of them applied for MA. The MAGI household is the same as their tax household because the tax filers are a married couple filing jointly and claiming their dependent children. No additional individuals live in the home.
 Ask the following questions for each tax dependent to determine if exceptions exist:

- Is Susie the tax dependent of someone other than a spouse or a biological, adopted, or stepparent? No, also applies to Sarah
- Is Susie a child living with both parents, but the parents do not expect to file a joint tax return? No, also applies to Sarah
- Is Susie a child who expects to be claimed by a non-custodial parent? No, also applies to Sarah

The tax household includes John, Joan and JP. Since no one is claimed as a tax dependent by anyone else, the tax household and MAGI household are the same.

Ask the following questions for each tax dependent to determine if exceptions exist:

- Is JP the tax dependent of someone other than a spouse or a biological, adopted, or stepparent? No
- Is JP a child living with both parents, but the parents do not expect to file a joint tax return? No
- Is JP a child who expects to be claimed by a non-custodial parent? No

A. Example for nonfiler HH with child over age 19 Jill lives with her daughter, Lea, age 24 and her son, Mike, age 15. Lea and Mike's father is deceased. Jill and Mike receive Social Security survivor's benefits. They do not file taxes. All applied for MA. The following table shows each person's MAGI household:

For individuals who neither file a tax return nor are claimed as a tax dependent for the taxable year in which an initial determination or renewal of eligibility is being made, the household consists of the individual and, if living with the individual:

- the individual's spouse
- the individual's natural, adopted and stepchildren under the age 19
- the individual's natural, adopted and stepparents and natural, adoptive and step siblings under the age of 19.

C. Parent, Stepparent, and Parent's Child (not child of stepparent) Paul and Pattie are a married couple. They live with Pattie's son by a first marriage, Edgar age 17. They do not plan to file taxes this year. The household for the MAGI determination is the non-filer household which includes Paul (stepparent/spouse), Pattie (parent/spouse) and Edgar (child/stepchild). All of them applied for MA. The following table shows each person's tax filer household:

Person	# - Household Composition	Reason
Paul	3-Paul, Pattie, Edgar	Non filers – spouses, parent, stepparent and child/stepchild under age 19
Pattie	3-Pattie, Paul, Edgar	Non filers - spouses, parent, stepparent and child/stepchild under age 19

M0430.400 TAX FILER AND NON TAX FILER HOUSEHOLD EXAMPLES

A. Parent and Child Claimed by Noncustodial Parent Linda and her daughter, Liza (age 6), live in the home. Linda works and claims only herself as a tax dependent. Liza is claimed by her father who does not live in the home. Both applied for MA.

Linda is a tax filer claiming only herself. Her tax household and MAGI household are the same. Liza is a tax dependent claimed by a non-custodial parent so a tax dependent exception exists and non-filer rules must be used. The following table shows each person's MAGI household:

Person	# - Household Composition	Reason
Linda	1– Linda	Tax-filer with no tax

B. Three Generation Household – Grandmother is Tax Filer

Mary is a working grandmother who claims her daughter, Samantha, age 20 and a full-time student, and granddaughter, Joy, age 2 as tax dependents. Although Samantha has a part-time job, she is not required to file taxes. All applied for MA.

The tax household includes Mary (the tax filer), Samantha (Mary's dependent child), and Joy (Mary's tax dependent). Mary's MAGI household is the same as her tax household and includes Mary, Samantha and Joy. Samantha's MAGI household is the same as Mary's because Samantha is a tax dependent and no tax dependent exceptions exist. Joy's is also a tax dependent, but meets an exception because she is not the child of the tax filer. Her MAGI household is a non-filer household and includes just Samantha and Joy; parent and child living in the home.

C. Three Generation Household – Second Generation Tax Filer Rose is a tax dependent of her daughter, Lee, age 18. Lee works and claims her son, Peter, and Rose as tax dependents. All applied for MA.

The tax household includes Lee (tax filer), Rose (tax dependent), and Peter (tax dependent). Rose is not the child of the tax filer so a tax dependent exception exists and non-filer rules are used for her MAGI household. Lee is a tax filer with dependents so her MAGI household is the same as her tax household. Peter is a tax dependent living with his tax filer parent so his MAGI household is the same as the tax household.

The following table shows each person's MAGI household:

D. Two Parents Not Married To Each Other, One Is Tax Filer With Children, One Is Child Of One Parent And Other Is Child-In-Common

Bob and Ann live together with Bob's son, John age 14, and their child-incommon, Jane age 12. Ann works and files taxes claiming both children as dependents. Bob does not file taxes. All applied for MA.

Bob is a non-filer and is not claimed as a tax dependent of anyone. His MAGI household uses non-filer rules and includes Bob and his children living in the home. Ann is a tax filer with tax dependents; her MAGI household is the same as her tax household. John is a tax dependent of someone other than his parent so non-filer rules are used. John's MAGI household includes John, his father Bob and his sibling Jane. Jane is a tax dependent of her tax filer mother, but her parents are not filing jointly so non-filer rules are used and her MAGI household includes her parents and siblings.

The following table shows each person's MAGI household:

Jill and Max are both tax filers. Also in the home are Max's son, Mark and their child-in-common, May. Jill is pregnant, expecting 1 baby. Max claims both children on his taxes. All applied for MA.

Jill is a tax filer who claims no additional dependents. Her MAGI household is the same as her tax household for Medicaid coverage in the LIFC covered group and includes her unborn child when determining her eligibility as a pregnant woman. Max is a tax filer with two dependent children; his MAGI household is the same as his tax household. Mark is a tax dependent living with his tax filer parent and no exceptions exist; his MAGI household is the same as the tax household. May is a tax dependent, but her parents are not filing jointly so an exception exists and non-filer rules are used for her MAGI household.

M0440.100 HOUSEHOLD INCOME

A. General Rule

The income counted under MAGI rules is the income counted for federal tax purposes with few exceptions. All taxable income sources and some non-taxable income sources are counted for the MA eligibility determinations.

Whenever possible, income, *including income from self-employment*, reported on the application will be verified through available electronic data sources. The agency must utilize online systems that are available to the agency without requiring verifications from the individual or family. If no data sources exist to verify the attestation, and the attestation is below the medical assistance income level, documentation of income is required. The agency has ready access to Supplemental Nutrition Assistance Program (SNAP) and TANF records, some wage and payment information and information from SSA through SVES or SOLQ-I. Verification of income from available sources, including the VEC, may be used if it is dated within the previous 12 months. The agency must include in each applicant's case record facts to support the agency's decision on the case.

The reported income of a child must be verified regardless of whether or not the attested income is above or below the tax-filing threshold amount.

If an income calculation must be made, use the information in subchapter M0710 for estimating income, subchapter M0720 for sources of earned income, and subchapter M0730 for sources of unearned income with the exceptions in B. below. The sources of income listed in this section are organized in table form in M04, Appendix 7.

B. MAGI Income Rules

1. Income That is Counted

- a. Gross earned income is counted. There are no earned income disregards.
- b. Earnings and unearned income, including Social Security benefits, of everyone in the household are counted, except the income of
- a tax dependent of any age who is claimed by his parent(s), or
- a child under 19 in a non-filer household who is living with a parent or parents

who is not required to file taxes because the tax filing threshold is not met.

For children and tax dependents, Social Security income only counts toward the total household income if the individual is required to file a federal tax return. Any Social Security benefits the child or dependent may receive do not count as unearned income in determining whether the tax filing threshold is met.

c. Income of a child under 19 in a non-filer household who is NOT living with a parent or parents and who is not required to file taxes because the tax filing threshold is not met.

When determining the total household income of a child who is NOT living with a parent (for example, living with a grandparent) or an individual being claimed by a non-parent, the dependent's income is always counted in determining their own eligibility, even if the income is below the tax filing threshold.

Effective, January 1, 2024, the Tax Filing Threshold for MAGI income counting purposes *for children* is \$1,250 in unearned income and \$13,850 in earned income. Social Security benefits do not count as unearned income in determining whether the tax filing threshold is met. *If the dependent is married, 65 or over or blind, please see <u>2023 Publication 501 (irs.gov)</u>*

- d. Interest, including tax-exempt interest, is counted.
- e. Foreign income is counted.
- f. Stepparent income is counted.

g. Effective January 1, 2019, alimony received is not countable.

Alimony received prior to January 1, 2019, is countable. An individual whose divorce decree was finalized prior to January 1, 2019, has the option with the IRS to adopt the new IRS alimony rule by modifying the divorce agreement. If an individual whose divorce decree was finalized prior to January 1, 2019, does not want alimony received on or after January 1, 2019 to be countable for the MAGI income determination, the individual must provide a copy of the modified divorce agreement to the eligibility worker.

- h. An amount received as a lump sum is counted only in the month received
- i. Military pay based upon age or years of service (other types of military pay are also counted and excluded; see M0720.290)
- j. Census income.
- k. *RecognizeB5 Initiative and Incentive Payments issued to educators for their ongoing efforts to improve Virginia's early childcare and education structure are counted.*
- 1. Unemployment Compensation is counted as unearned income.

Exception: Additional benefits of \$600 per week paid under the under the Federal Pandemic Unemployment Compensation program are not counted. See M0440.100 B.2.n.

2. Income That is Not Counted

- a. Child support received is not counted as income (it is not taxable income).
 - b. Workers Compensation is not counted.
 - c. When a child or other dependent is included in a parent or stepparent's household, the individual's income is not countable as household income unless they are required to file taxes because the tax-filing threshold is met. Any Social Security benefits the individual may have do not count in determining whether the tax filing threshold is met.
 - *d.* Veterans benefits which are **not** taxable in IRS Publication 525 are not counted:
 - Education, training, and subsistence allowances,
 - Disability compensation and pension payments for disabilities paid either to veterans or their families,
 - Veterans' insurance proceeds and dividends paid either to veterans or their beneficiaries, including the proceeds of a veteran's endowment policy paid before death,
 - Grants for homes designed for wheelchair living and motor vehicles for veterans who lost their sight or the use of their limbs,
 - Interest on insurance dividends left on deposit with the VA,
 - Benefits under a dependent-care assistance program,
 - The death gratuity paid to a survivor of a member of the Armed Forces who died after September 10, 2001, or
 - Payments made under the VA's compensated work therapy program.
 - e. For divorce agreements finalized on or after January 1, 2019, no deduction is allowed for alimony paid. For divorce agreements finalized prior to January 1, 2019, alimony paid to a separated or former spouse outside the home is deducted from countable income.

- f. Interest paid on student loans is deducted from countable income.
- g. Gifts, inheritances, and proceeds from life insurance are not counted.
- h. A parsonage allowance is not counted.
- i. Scholarships, awards, or fellowship grants used for education purposes and not for living expenses are not counted.
- j. Student loans

Effective January 1, 2019, student loan debt forgiven due to death or disability of student is not counted as income.

Amounts that an employer paid in 2020 for an employee's student loan principal and interest are not counted in the employee's MAGI.

- k. Difficulty of Care Payments, which include (1) payments designated by the payer as compensation for providing additional care that is required for a physically, mentally or emotionally disabled qualified foster care individual living in the provider's home and (2) payments to care providers *(including parents providing personal care to a child)* who provide care under a Medicaid home and-community-based Waiver to an individual in the care provider's home. The care provider's home is the residence in which the care provider resides and regularly performs the routines of the care provider's life. If the care provider moves into an individual's home to care for that individual and performs the routines of the care provider's life in that residence, it is considered the care provider's home.
- 1. General Welfare Payments for Indian Tribes are not countable To qualify under the general welfare exclusion, the payments must be made pursuant to a governmental program for the promotion of the general welfare based on need and not represent compensation for services (See https://www.irs.gov/pub/irsdrop/n-12-75.pdf)
- m. Kinship Guardianship Payments are not income. These payments are a stipend paid to a relative caregiver who has assumed custody of a child as an alternative to that child remaining in foster care.

- p. Tax filers who do not itemize their deductions are permitted to deduct from their MAGI up to \$300 in charitable contributions made by an eligible individual in tax years beginning in 2020.
- 3. Income From Selfemployment
 The agency must utilize online systems that are available to the agency to attempt to verify self-employment income. If the income cannot be verified through online data sources, an individual reporting self-employment income must provide verification of business expenses, income, and applicable adjustments with forms or schedules including but not limited to IRS Form 1040, Schedule 1, Schedule C (business expenses), Schedule E (expenses from rental income) and Schedule F (expenses from farming). If the individual alleges that his current income is not accurately represented by tax records, obtain additional information (such as business records) that documents current income.

M0450.200 INCOME EXAMPLES – TAX FILER HOUSEHOLDS

A. Example #1 Tax Filer Single Parent, Two Children (Using Jan. 18, 2018

figures)

Tom is a single parent living in Henrico County (Group II) with his two children, Jack and Betty, ages 6 and 10, whom he claims as tax dependents. Tom earns \$3,000 per month, with projected annual income of \$36,000.

The MAGI households are:

Person	# - Household	Reason
	Composition	
Tom	3 – Tom, Jack, Betty	Tax-filer & 2 dependents
Jack	3 – Jack, Tom, Betty	Tax dependent, taxpayer & other tax
		dependent
Betty	3 – Betty, Tom, Jack	Tax dependent, taxpayer & other tax

Tom (parent) eligibility determination:

Potential covered groups:

LIFC (full-coverage MA) MAGI Adults (full-coverage-MA) Plan First (limited coverage)

Monthly Income limits:

LIFC, Group II for HH of 3 = \$589 MAGI Adults for HH of 3=\$2,391 Plan First 200% FPL for HH of 3 = \$3,464 5% FPL Disregard for HH of 3 = \$86

Tom's gross HH income of \$3,000.00 exceeds the LIFC income limit of \$589 for a HH of 3, so he is entitled to a 5% FPL disregard.

\$3,000.00 gross household income <u>86.00</u> 5% FPL Disregard for HH of 3 \$2,914.00 countable income (after disregard)

His countable income of \$2,914.00 is compared to the LIFC income limit for HH of 3 which is \$589 ; income exceeds the LIFC limit. Tom is not eligible for full-coverage MA.

His countable income of \$2,914 is compared to the MAGI Adult income limit for household of 3 which is \$2,391. Toms income exceeds the MAGI Adult, therefore making him ineligible for full coverage MA

Tom's gross HH income of \$3,000.00 is then compared to the Plan First 200% FPL income limit for 3 which is \$3,464. As his income is under the limit, no disregard is needed; Tom is eligible for Plan First.

Tom is also referred to the Health Insurance Marketplace (HIM)

4,500.00 gross household income
<u>86.00</u> 5% FPL Disregard for HH of 3
\$4,414.00 countable income (after 5% FPL disregard)

Her gross income of \$4,500 is compared to the MAGI Adult income limit for household of 3 which is \$2,391. Mary's income exceeds the MAGI Adult limit.

After subtracting the 5% FPL disregard, the countable income of \$4,414.00 is then compared to the MAGI Adult income limit of \$2,391 and her countable income exceeds the MAGI Adult limit, Mary is not eligible for full coverage MA.

The gross HH income of \$4,500.00 is compared to the Plan First 200% FPL income limit for 3, \$3,490. As the gross HH income exceeds the limit, she is entitled to the 5% FPL disregard.

The countable income of \$4,414.00 is then compared to the Plan First income limit of \$3,464; but as her countable income exceeds the Plan First limit, Mary is not eligible for Plan First.

Mary is referred to the HIM

Samantha's eligibility determination:

Potential covered groups: LIFC MAGI Adult Plan First.

Monthly Income limits:

LIFC, Group I for HH of 3 = \$484MAGI Adult income limit for HH of 3=\$2,391Plan First for HH of 3 = \$3,4645% FPL Disregard for HH of 3 = \$86

HH monthly income:

\$4,500 Mary's earnings (Samantha's income is not counted in this HH).

As \$4,500 exceeds the LIFC limit for 3 (\$484) she is entitled to the 5% FPL disregard. Her income eligibility is determined as follows:

\$4,500.00 gross household income <u>- 86.00</u> 5% FPL Disregard for HH of 3 \$4,414.00 countable income

Samantha's countable income of \$4,414 still exceeds the LIFC income limit for 3 of \$484 so she is not eligible for LIFC (full-coverage) MA.

Her countable income of \$4,414 is compared to the MAGI Adult income limit for household of 3 which is \$2,391. Mary's income exceeds the MAGI Adult limit, therefore, making her ineligible for full coverage MA

The gross HH income of \$4,500.00 is compared to the Plan First 200% FPL income limit for 3 which is \$3,464, and as Samantha exceeds this amount, the 5% FPL Disregard (\$86) can be deducted. The countable income of \$4,414 is greater than the Plan First income limit of \$3,464. Samantha is not eligible for Plan First, and is referred to the HIM.

An alternate method, which accomplishes the same results, is to compare the Plan First 205% FPL (200% FPL + 5% FPL Disregard) for a HH of 3 which is 3,551. As the countable income amount of 4,500 is greater the income limit of 3,551, Samantha is not eligible for Plan First, and is referred to the HIM.

Joy's eligibility determination

HH gross monthly income:

\$300 Samantha's earnings (Mary's income is not counted in this HH).

Potential covered group:

Child < Age 19

The HH income is \$300 which is less than the Medicaid Child < Age 19 limit for 2 (\$1,936). Joy is eligible for Medicaid in the Child < Age 19 covered group.

The 5% disregard is not necessary since the gross household income is within the Medicaid Child < Age 19 income limit.

C. Example # 3 Tax Filer with Dependent Outside of the Home (Using January 18, 2018 figures) John applies for Medicaid for himself and his child Richard. John files taxes and claims Richard as well as his 17-year-old daughter, Bridget, who does not live with him. John works part time making \$800 a month and Bridget works part time making \$625 a month. They live in Fairfax County (Group III).

Person	# - Household Composition	Reason
John	3 - John, Richard, Bridget	Tax filer and dependents
Richard	3 - Richard, John, Bridget	Tax dependent, tax filer, and other dependent

Even though Bridget has income over the tax filing threshold (\$6,300 in 2016) and is required to file taxes on her own, she is part of John's tax filing household as a dependent, so her income counts toward any HH in which she is included, in this case, the HH of her father John.

John's eligibility determination:

Potential covered groups: LIFC MAGI Adult Plan First

<u>Monthly income limits:</u> LIFC (Group III) HH of 3 = \$807 MAGI Adult income limit for HH of 3=\$2,391 Plan First HH of 3 = \$3,464 5% FPL Disregard for HH of 3 = \$86

John's gross HH income of \$1,425.00 exceeds the LIFC income limit for 3 of \$807, and he is entitled to the 5% FPL disregard.

\$1,425.00 gross household income <u>- 86.00</u> 5% FPL Disregard for HH of 3 \$1,339.00 countable income

His countable income of \$1,339 is less that the MAGI Adult limit of \$2,304 for 3. John is eligible for full coverage in the MAGI Adult coverage group.

Richard's gross HH income of \$1,425 (his father's and sibling's earnings) is less than the FAMIS 200% income limit of \$3,464. And as the HH income does not exceed the Medicaid Child < Age 19 income of \$2,477, the 5% disregard is not needed. Richard is eligible for full-coverage MA.

Mike's countable income of \$3,314.00 exceeds the Medicaid Child < Age 19 143% FPL income limit for 3, \$2,477. Mike is not eligible for Medicaid.

His gross HH income of \$3,400.00 is then compared to the FAMIS 200% FPL income limit for 3, \$3,464. He is eligible for FAMIS because his gross HH income is less than the FAMIS income limit for the household size.

Ike's income eligibility determination:

Potential covered groups: Child < Age 19 FAMIS

<u>Monthly Income limits:</u> Child < Age 19, 143% FPL for a HH of 3 = \$2,477 FAMIS, 200% FPL for HH of 3 = \$3,464 5% FPL for 3 = \$86

Ike's countable income of \$3,314.00 exceeds the Medicaid Child < Age 19 143% FPL income limit for 3, \$2,477. Mike is not eligible for Medicaid.

As his gross monthly income exceeded the Medicaid Child < Age 19 143% income limit of \$2,477, he is entitled to the 5% disregard. Ike's income eligibility is determined as follows:

\$3,400.00 gross household income <u>86.00</u> 5% FPL disregard \$3,314.00 countable income

As his countable income exceeds the income limit of \$2,477, he is ineligible for Medicaid child <19, and move to the next step.

His gross HH income of \$3,400.00 is compared to the FAMIS 200% FPL income limit for 3 of \$3,464. He is eligible for FAMIS because his gross HH income is less than the FAMIS income limit for the household size of 3.

This example also illustrates as even though Mike and Ike had different trust account income, it made no difference in the results, and both eligible for FAMIS coverage.

HH monthly income = \$300 Jane's income.

Jane is over age 19, not a child and not counted as a dependent for anyone else. Jane's earnings must be counted even though she is not required to file taxes. As her mother (Sally) is not in Jane's her tax filing HH, Sally's income is not counted when determining Jane's eligibility. The HH would consist of Jane and her daughter Dee.

\$300 is less than the LIFC limit for 2 (\$381) so the 5% disregard is not applied (it is not necessary). Jane is eligible for Medicaid in the LIFC covered group.

If Jane had been over income for the LIFC covered group, the step to apply the 5% disregard would have been used. If she was found over the LIFC income limit, a review as a Medicaid Pregnant Woman 143% income limit would have been used.

M0450.400 GAP-FILLING RULE EVALUATION

A. When to Complete Gap- Filling Evaluation Complete a gap-filling evaluation to determine eligibility for Medicaid or FAMIS whenever **all** of the following conditions apply:

- The individual is in a tax filer household (regardless of whether or not a tax dependent exception in M0430.100 B.2 is met). APTC methodology does not apply to non-filer households or if married parents file separately and live in the same home.
- Current monthly household income, using Medicaid/FAMIS MAGIbased methods is over the applicable monthly income limit (including the 5% FPL disregard) for the individual's covered group.
- The total of income already received plus projected income for the **calendar** year in which eligibility is being determined, using MAGI methods applied by the HIM for the purposes of APTC eligibility, is below 100% FPL (i.e. the lower income threshold for APTC eligibility). See M04, Appendix 1. The individual's prior income for the calendar year, or lack of income, is included in the calculation of annual income when determining financial eligibility.

Note: The individual does not need to apply for the APTC prior to applying for Medicaid or having the gap-filling evaluation completed.

The gap-filling evaluation is applicable to the eligibility determination for retroactive and ongoing coverage.

If the eligibility and enrollment system is unable to determine eligibility using the gap-filling evaluation, the evaluation must be completed outside the system and documented in the electronic record. If the individual is eligible, the coverage must be entered directly into *the Medicaid Enterprise System (MES—formerly the Medicaid Management Information System* [MMIS]), and the renewal date must be updated for January of the following year.

Virginia's Health Insurance Marketplace refers the application to Virginia for a Medicaid/FAMIS eligibility determination. The child meets a tax dependent exception in M0430.100 B.2 (he lives with both parents, is claimed as a tax dependent by one parent, and the parents do not expect to file jointly). The child's eligibility for Medicaid or FAMIS is determined using non-filer methodology. Because he is under 19 and both parents are in his household, the income of both parents is counted. His household income with the 5% FPL disregard is over the limit for both Medicaid and FAMIS.

 E. Example – Gap Filling Evaluation Unmarried Couple and Child in Common
 Maria and Tony are an unmarried couple who live with their 12-year-old daughter, Anita. Maria and Tony are both employed. Anita is claimed as a tax dependent by Maria, who works part time. Maria applies for Medicaid only for Anita. Because Anita lives with both parents, but the parent's file taxes separately and only one parent claims her as a tax dependent, Anita meets a tax dependent exemption. Her eligibility must be evaluated using non-filer rules.

> Because she is under age 19, Anita's MAGI household consists of Anita and both parents. Both Maria's and Tony's income is counted for Anita's eligibility. Her countable income, including with the 5% FPL disregard, is over the limits for both Medicaid and FAMIS.

> The eligibility worker notes that a potential gap-filling situation exists. The worker evaluates Anita's eligibility for Medicaid or FAMIS using the APTC rules. Under the APTC rules, Anita's household consists of Anita (tax dependent) and Maria (tax filer); Tony is not in Anita's household because he does not claim Anita on his taxes. Maria's income from her part time job is *under the APTC* 100% FPL annual income limit *and under the Medicaid annual income limit for a Child Under 19 (143% FPL). Therefore, Anita is eligible for Medicaid under the gap-filling rule.*

The following tables show the household formation and income used.

F. Example – Gap Filling Evaluation— (Using 2019 Income Limits)

An application was filed on 7/4//18 by Tom (tax-filer) for his two children Tia (age 8) and Tony (age 10). The household size is 3 (Tom, Tia and Tony) Tom was unemployed from January –June and started a new job in July. Tom earns \$1750 bi-weekly. Only one pay was received in July (\$940.62). The income is calculated as \$1,750 x 2.15 = \$3,762.50. The 5% FPL disregard amount of \$89 is deducted (\$3,762.50-89=\$3,673.50) and income exceeds the monthly FPL limits for FAMIS (\$3,555). The worker requests income already received during the current tax year and Tom's employer verifies the following:

January- June	\$0
July 23	\$940.62
August – December (projected)	\$18,812.50
Total Projected Annual Income	\$19,753.12

The total annual projected income is of \$19,753.12 is under the 100% annual FPL for household size 3 (\$21,330). The projected annual amount of \$19,753.12 is compared to the 143% annual FPL limit for household size of 3 (\$30,502) and both children are eligible for Medicaid.

Since the child's countable income is under the lower financial threshold for the APTC and he has excess income using non-filer rules, the child's eligibility must be evaluated using gap-filling rules.

Lee, age 27, is a tax-filer and applies for Medicaid on June 1. He is attending graduate school and works part-time as a teaching assistant. His income for June is \$1,625. The 5% FPL disregard amount of \$53 is deducted (\$1,625 - \$53 =\$1,572) and income exceeds the limit for the MAGI Adults covered group for a HH of 1 (\$1,436). Lee is not eligible for Medicaid using MAGI methodology.

Lee calls the worker when he receives the denial notice and tells the worker that his income is higher in the summer and less during the remainder of the year *and requests to be evaluated for retroactive coverage for March-May.* A potential gap-filling situation exists, so the worker requests verification of Lee's income from January through May. He provides his paystubs for January (\$710), February (\$720), March (\$697), April (\$752), and May (\$715). His total year to date income is \$3,594.

Lee also provides a letter from his employer that states his teaching income for September thru December will be a guaranteed amount of \$715 per month. The worker uses a projected amount for September – December of \$715 per month, which totals \$2.860.

······································	
January - May	\$3,594
June- August	\$4,875
September- December (projected)	\$2,860
Total Projected Annual Income	\$11,329

The total annual projected income of *\$11,329* is under the 100% annual FPL of \$12,490 for household size of 1. The projected annual amount of *\$11,329* is compared to the 133% annual FPL limit for household size of 1 (\$16,612). *Lee is eligible for retroactive Medicaid coverage and ongoing coverage as a MAGI Adult.*
