#### Access and Preventive Care

- Members get the care they need
- Members get screenings and tests for cancers and illnesses
- Members get the right medicines and services

#### Taking Care of Children

- Children get regular checkups and important shots that help protect them against serious illness

#### Women's Health

- Women get tests for breast and cervical cancer to help find these diseases early
- Moms get care before and after their baby is born to help keep mom and baby healthy

#### Behavioral Health

- Members with behavioral health conditions get the follow-up care and medicines they need
- Children on antipsychotics get the checkups they need

#### Living With Illness

- Members living with conditions, like asthma, diabetes, high blood pressure, and COPD, get the care they need by getting tests, checkups, and the right medicine

## Choosing a Medicaid Managed Care Organization

Your health care is important, and choosing the Cardinal Care MCO that best meets your needs is also important. Here are some questions to ask yourself before you pick a Cardinal Care MCO:

- How well did each MCO perform in each performance area in this tool?
- Which MCO has all or most of the doctors, providers, and hospitals that my family member visits?
- Which MCO has doctors with office hours and locations that are convenient for my family member?
- Which MCO offers extra services that I want to use?

You may have other questions or concerns that are important to you. You can contact the MCOs using the information below. They can tell you which doctors are available to you and what extra services they offer. You can also call the **Managed Care HelpLine** at 1-800-643-2273. HelpLine staff can answer your questions and help you decide which Cardinal Care MCO is best for you and your family.

### About This Tool

The 2024–2025 Virginia Cardinal Care MCO Consumer Decision Support Tool utilizes results from Healthcare Effectiveness Data and Information Set (HEDIS®) and Consumer Assessment of Healthcare Providers and Systems (CAHPS®). Calendar year 2023 data submitted by the Cardinal Care MCOs were used to derive 2024 reporting year rates. This report was compiled by Health Services Advisory Group, Inc. (HSAG) in collaboration with the Department of Medical Assistance Services (DMAS).

### About the Accreditation Levels

Accreditation levels as of May 2025 are based on compliance with the National Committee for Quality Assurance's (NCQA's) rigorous requirements and the MCOs performance on HEDIS® measures. The highest level of accreditation an MCO can receive is Accredited, followed by Provisional. For more information regarding accreditation levels as of May 2025, visit: [reportcards.ncqa.org/glossary](http://reportcards.ncqa.org/glossary).
